REPORT OF WILLIAM F. CARR, MEMBER OF SCHOOL COMMITTEE ON ATTENDANCE AT CONVENTION.

(*Continued from page 941.*)

that evacuation of school children would constitute a major problem in local organization for war emergency. The problem varies in different parts of Massachusetts. In evacuation zones the problem is to get sufficient vehicles to schools quickly enough to transport children to the communities to which their parents will be assigned. In neutral zones adjacent to evacuation zones the recommended policy is to get the children home as quickly as possible, following the Yellow Alert signal. In neutral zones not adjacent to evacuation zones the "go home" movement would follow normal procedures, but provisions must be made for such movement at any time during the school day. This may require some extra transportation arrangements.

Dr. Marsden stressed that the local civil defense director and local school authorities are responsible for planning the evacuation of schools. Because local conditions vary the state agency has not made definite regulations on this important matter.

In some communities it has been felt that high school students could join the general evacuation movement of the population. In many cases the older high school students are being made part of the local civil defense organization in such capacities as telephone operators, clerks, messengers, first-aid assistants, etc. This group has the merit of normally being within their own municipality, whereas, many adult civil defense volunteers work in other communities.

It has been stated as a policy decision that schools and hospitals have "first call" upon any large transportation units in any evacuation zone community. There are usually some automobiles at every school, and in many communities

parents living near to the school are prepared to drive to the school and assist in its evacuation. In addition, some communities have provided that municipal vehicles shall report to the schools. Provisions have also been made for business and industrial vehicles to do the same thing.

It was also pointed out that alternate civil defense responsibilities for all school personnel should be developed in the event that an alert came at a time when school was not in session.

Respectfully submitted,

WILLIAM F. CARR,
Member, Boston School Committee.

SEWERAGE WORKS IN WEST ROXBURY.

The Public Improvement Commission has ordered that sewerage works be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within thirty (30) days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as New Haven street, bounded:

Northerly by an existing easement dated August 9, 1916, and by another portion of the private way known as New Haven street, ten feet; easterly by another portion of the private way known as New Haven street, two hundred seventeen and 90-100 feet; southerly by another portion of the private way known as New Haven street, ten feet; and westerly by an existing easement dated July 28, 1921, two hundred seventeen and 90-100 feet; containing two thousand one hundred seventy-nine square feet, more or less.

The sewerage works to be constructed are as follows: 230 linear feet of 30-inch diameter pipe surface drain at an estimated cost of $3,000.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this commission determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes and the construction of sewerage works in New Haven street, West Roxbury district, under the order of the commission of July 27, 1955, and awards no damages therefor.

Owners unknown (New Haven street), 2,179 square feet, nothing.

The School Committee has approved proposals for furnishing transportation of films, motion picture equipment, science materials and school exhibits. Bid, opened Tuesday, June 28, was as follows:

P. A. Milan, Inc., $6,000.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with contractors, commercial houses, etc., for furnishing labor and supplies. Communications from heads of the departments interested were as follows:

Administrative Services Department.
Purchasing Division.

Boston, July 28, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

This office is in receipt of a requisition from the Boston City Hospital for one (1) gross Plavolex, 500 cc., with sterile injection set, Wyeth, No. 29A9. This material is manufactured only by Wyeth, Inc. A written quotation has been received from this company.

Inasmuch as this material can be purchased direct from the manufacturer, it is my opinion that no advantage would be gained by publicly advertising for prices. Authority is therefore requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Wyeth, Inc., for the above material.

Approximate total amount of contract will be $1,036.80, less 2 per cent discount, time of payment.

Respectfully yours,

Eugene K. Welsh,
Acting Purchasing Agent.

—

Boston, July 28, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

This office is in receipt of a requisition from the Treasury Department, Collecting Division, for the immediate delivery of five (5) tellers' perforating machines. Informal requests for prices were solicited from several companies in this area. The only bid received was that of Dimond Union Stamp Works, Richard M. Lee, trustee.

Inasmuch as all local sources of supply have been contacted, it is my opinion that no advantage would be gained by publicly advertising for bids. Authority is therefore requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Dimond Union Stamp Works, Richard M. Lee, trustee, for the immediate delivery of the above machines to the Treasury Department, Collecting Division.

Approximate total amount of the contract will be $1,250, net.

Respectfully yours,

Eugene K. Welsh,
Acting Purchasing Agent.

Department of School Buildings.

Boston, July 28, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

During some part of the week end of June 17 to 19, inclusive, vandals gained entrance to the Donald McKay School in the East Boston district. Before leaving the building they opened a high pressure fire standpipe line which resulted in the flooding of sixteen (16) classrooms, auditorium balcony, cafeteria, halls and corridors throughout the basement, first and second floors, causing a tremendous amount of water damage to the electrical system, wood floors, plastered ceilings and walls, tile floors, ranges, etc.

Services of at least ten men were immediately employed upon discovery of the flooding to literally shovel water from the floors. Squeegees and other implements were used to remove the water from the building. Regardless of the rapidity with which this work was performed, wooden floors were raised and warped causing considerable damage to the pupils' fixed furniture by wrenching the desk standards. Electrical conduits and fixtures were filled with water.

In order to dry out the building so as to determine the amount of work which would be necessary to reoccupy the building, salamanders were installed and room temperatures were raised in excess of 200 degrees. This temperature was maintained for many hours. Regardless of the drying out, floors had had such an opportunity to buckle and warp that they did not return to natural status and therefore will have to be replaced and some new flooring installed. In the case of the electrical system, water had been present in conduits, etc., for so long that deterioration of wire insulation took place.

As of July 19 an examination of the building indicated that sufficient moisture had been removed from the building to warrant preparation of the building for occupancy. To do this floors will be relaid and some new flooring installed, load tests of the structure will be made and the electrical system will be placed in operable condition all as defined in specifications.

As there is not sufficient time to advertise for this work and have the building ready for use on September 8, 1955, I procured estimates from three contractors, the lowest of which was from P. J. Cantwell & Son, 644 East Fourth street, South Boston.

P. J. Cantwell & Son has performed similar work for this department in a most efficient manner, therefore, I respectfully request that I be granted permission to enter into a contract, without advertising, with P. J. Cantwell & Son for the above-described work and for the reasons stated and at a cost not to exceed $13,000.

Respectfully yours,

James H. Mooney,
Superintendent of Construction.

Real Property Department.

Boston, July 25, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

The Payroll Division of the Auditing Department located in the basement of City Hall has been a problem in so far as the working conditions are concerned since they were moved to this location.

During the summer months the excessive humidity interferes with the efficient operation of the machines.

As a result of the above condition, I have had the Bay State York Company engineer an air-conditioning system which will help alleviate this condition. They propose to furnish two York air conditioners, Model 352-B, each complete with a three-horsepower 220-3-60-motor, for the sum of $1,950.

As time is of the essence and the Bay State York Company is a very reputable concern, I respectfully request permission to award this work to the Bay State York Company, 100 Brookline avenue, Boston, in the sum of $1,950, without the usual form of advertising. I believe the best interests of the city will be protected in this manner.

Very truly yours,

George P. Donovan,
Assistant Commissioner.

Boston, July 25, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

The compressor motor assembly that provides cold water throughout the annex which has given this service for a period of more than 15 years has broken down.

I have obtained prices to repair same in the sum of $500, but have been unable to obtain any guarantee for any period of time with this repair work. As a result, I have had three reputable concerns make a survey and proposals to furnish and install a new five-horsepower water-cooled compressor and motor assembly, with storage tanks complete, with a five-year guarantee with the following results:

Harding & Cross, Inc., Second and Binney streets, Cambridge, $3,000.

Jarvis Engineering Company, 51 Ellery street, South Boston, $2,113.

Commercial Refrigeration Company, 74 Brookline avenue, Boston, $2,097.

The Commercial Refrigeration Company can provide immediate delivery and is a reputable concern.

I respectfully request permission to award this contract to the Commercial Refrigeration Company, in the sum of $2,097, without the usual form of advertising. I believe the best interests of the city will be protected in this manner.

Respectfully,

George P. Donovan,
Assistant Commissioner.

Boston, July 25, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

The toilet facilities at the Roxbury Court are inadequate. Mr. Thomas Spring, presiding justice at this court, has long advocated additional facilities and has provided a space to install same.

As the result of Judge Spring's interest in this matter I have had three plumbing contractors submit proposals with the following results:

P. J. Riley Company, 295 Highland street, Roxbury, $2,400.

J. M. McCusker Company, 17 Chestnut avenue, Jamaica Plain, $2,680.

J. P. O'Hearn & Co., 9 Columbia place, Dorchester, $2,750.

This work will have to be done under conditions peculiar to courthouses. The new toilet facilities are adjacent to the courtroom and noise must be kept to a minimum. The contractors are reputable and familiar with working conditions in courthouses.

I respectfully ask permission to award this contract to the P. J. Riley Company, 295 Highland street, Roxbury, in the sum of $2,400, without the usual form of advertising. I believe the best interests of the city will be protected in this manner.

Respectfully yours,

GEORGE P. DONOVAN,
Assistant Commissioner.

—

BOSTON, July 26, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Real Property Board proposes to engage the services of Mr. Wallace B. Orpin of 1381 Commonwealth avenue, Brighton, as engineer in connection with the proposed construction of an open-air off-street parking facility at Uphams Corner, Dorchester.

The estimated cost of the proposed parking facility is approximately $23,000, and the engineer shall be paid a fee equal to 5 per cent of the full amount of the cost of the construction, not to exceed $1,150, this contract to include supervision of the work to be done.

In view of the nature of the professional services involved, no benefit would be gained by advertising for bids, and it is respectfully requested that permission be given to award the contract to Wallace B. Orpin, without public advertising.

Respectfully yours,

HERMAN CARP,
Commissioner.

—

BOSTON, July 26, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Real Property Board proposes to engage the services of William A. Fisher Company, Inc., 14 Court square, Boston, as engineers in connection with the proposed construction of an open-air off-street parking facility at Central square, East Boston.

The estimated cost of the proposed facility is approximately $20,000, and the engineers shall be paid a fee equal to 5 per cent of the full amount of the cost of the construction, not to exceed $1,000, this contract to include supervision of the work to be done.

In view of the nature of the professional services involved, no benefit would be gained by advertising for bids, and it is respectfully requested that permission be given to award the contract to William A. Fisher Company, Inc., without public advertising

Respectfully yours,

HERMAN CARP,
Commissioner.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

One hundred and ninety-three linear feet of 18-inch pipe surface drain in Child street, from Gordon avenue southerly, in the Hyde Park district, at an estimated cost of $3,800.

ADDITIONS TO CONTRACT.

DEPARTMENT OF SCHOOL BUILDINGS.

M. Solimando has been ordered to make the following additions to the contract for the new Girls' Latin School, Codman square:

Furnish and install 297 lights of glass in addition to those specified in the contract. The sizes and quality of the glass will be those specified by the engineer on the work. The cost will be $1,495.

Furnish labor and materials to do all cutting and patching of brickwork, carpentry, plumbing and cleaning to repair four rain leaders in the main building and one each over the fan and boiler rooms. This work will be done as directed by the supervisors of roofing, plumbing, and the engineer on the work. The cost of this work will be an addition to the contract for a sum of $590.

Furnish labor and materials to remove disintegrated concrete and to prepare the floor to receive a new slab to bring the level of the floor up to the abutting areas in the basement cafeteria annex. Install and finish the new slab as directed by the engineer on the work. The cost of this addition will be $990.

For the above additional work add the sum of $3,075, and the amount of $3,075 will be added therefor, making the account as follows: contract price, $172,842; total additions, $5,577.50; amount of contract, $178,419.50.

EXTRA WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

Charles Todesca has been directed to perform the following extra work under the contract for sheet asphalt pavement in Harrison avenue, Oak street, and Tyler street, dated October 26, 1954:

In Tyler street, deliver to District No. 8 paving yard 12 linear feet of new straight edgestone at $2.35 per linear foot. Estimated cost of extra work, $28.20.

—

Charles Todesca has been directed to perform the following extra work under the contract for sheet asphalt pavement in Summer street and Washington street and artificial stone sidewalks in Washington street, dated October 21, 1954:

Furnish and lay approximately 630 tons of bituminous concrete wearing surface on Summer street, from Fort Point Channel to bridge over New York, New Haven & Hartford Railroad at $7.75 per ton. Estimated cost of extra work, $4,832.50.

—

Carriere Construction Company has been directed to perform the following extra work under the contract for bituminous concrete pavement in Allerton street, Ballin place, Cerina road, Dana place, Deaconess road, Joslin road, Peirson street, Pickering avenue, and Public Alley No. 1001, dated August 10, 1954:

In Allerton street, place concrete casings around existing fence supports for the sum of $79.

In Abby road, deliver 14.3 linear feet of straight edgestone to Brighton paving yard at $2.35 per linear foot and 62.5 linear feet of circular edgestone at $3.63 per linear foot.

In Dana place, deliver to Roxbury paving yard, 6.7 linear feet of circular edgestone at $4.06 per linear foot.

Estimated cost of extra work, $366.69.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for an extension of time for the completion of the contract with Moore Construction Company, Inc., for sealing exterior masonry walls, to minimize their absorption and increase their repellency of water, at English High School, from July 15, 1955, to September 1, 1955. This extension was requested because of difficulty in getting proper mechanics to do the work.

PUBLIC WORKS DEPARTMENT.

Approval has been given for an extension of time for the completion of the contract with Charles Todesca, 100 Roslindale avenue, Roslindale, for sheet asphalt pavement in Summer street and Washington street and artificial stone sidewalks in Washington street, from July 30, 1955, to September 15, 1955. This extension was requested because the contractor was ordered to do extra work.

SEWERAGE WORKS IN HYDE PARK.

The Public Improvement Commission has ordered that sewerage works be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within thirty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Woodland road, bounded:

Southwesterly by another part of Woodland road, forty feet; northwesterly by the northwesterly line of said Woodland road, two hundred fifty-nine and 31-100 feet; northeasterly by another portion of said Woodland road, forty feet; and southeasterly by the southeasterly line of said Woodland road, two hundred fifty-nine and 31-100 feet, containing ten thousand three hundred seventy-two square feet, more or less.

The sewerage works to be constructed are as follows: 220 linear feet of 8-inch pipe sewer (sanitary) from a point 300 feet northeast of River street 220 feet northeasterly, at an estimated cost of $2,800.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of Woodland road, as shown on a plan hereinbefore referred to and on file in the office of this department, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on the aforesaid plan.

Parcel.		Amount.
1.	Sabino Pasquale	$165 00
2.	Sabino Pasquale	165 00
3.	Sabino Pasquale	165 00

6.	Florence P. Strom	165 00
7.	William A. Strom	330 00
	Total	$1,320 00

Voted, That this commission determines that no person sustains damages in his estate by the making of the public improvement, consisting of the taking of an easement for sewerage purposes and the construction of sewerage works in Woodland road, Hyde Park district, under the order of the commission of July 20, 1955, and awards no damages therefor.

Owners unknown (Woodland road), 10,372 square feet, nothing.

STREET CONSTRUCTION IN HYDE PARK.

The Public Improvement Commission has ordered that a public improvement be made, consisting of the laying out and construction of Elliot street, Hyde Park district, as a public highway, from Wood avenue to Ayles road, with the name of Ellard road, or some other distinctive name, bounded and described as follows:

A highway named Ellard road is hereby laid out as a public highway, from Wood avenue to Ayles road, and ordered constructed.

Said highway and the land, exclusive of trees, shrubs or structures standing upon or affixed thereto in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northeasterly by Wood avenue, forty and 7-100 feet; southeasterly by the southeasterly line of Ellard road as hereby laid out, two hundred nineteen and 11-100 feet; southwesterly by Lewiston street, forty and 8-100 feet; northwesterly by the northwesterly line of Ellard road as hereby laid out, two hundred nineteen and 27-100 feet.

Northeasterly by Lewiston street, forty and 8-100 feet; southeasterly by the southeasterly line of Ellard road as hereby laid out, two hundred and 42-100 feet; southwesterly by Ayles road, forty and 8-100 feet; northwesterly by the northwesterly line of Ellard road as hereby laid out, two hundred and 42-100 feet.

Trees, shrubs or structures standing upon or affixed to the aforedescribed land, shall be removed therefrom within thirty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of said Ellard road, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on a plan hereinbefore referred to, and on file in the office of this department.

IMPORTANCE OF FOOD-BORNE DISEASE.

The relationship of food to disease continues to be an important public health program. The United States Public Health Service reported 327 outbreaks of food-borne disease in the United States in 1948, which resulted in 9,962 cases and 17 deaths. As only one out of ten cases of food-borne disease is ever reported, the resulting situation is far more important than available statistics would indicate.

The United States Public Health Service reports that there occurred in the United States in 1948, 30 cases and 6 deaths resulting from botulism; 74 cases and 1 death resulting from chemical food poisoning; 120 cases of dysentery; 8,832 cases and 7 deaths resulting from food infection and gastroenteritis; 270 cases of scarlet fever.

PROCEEDINGS OF CITY COUNCIL.

Monday, July 25, 1955.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President HURLEY in the chair. Absent, Councillor Foley.

The Reverend Edward J. Tangney, of St. Cecilia's Roman Catholic Church, Boston, was escorted to the rostrum.

INVOCATION BY REV. EDWARD J. TANGNEY.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Almighty and Eternal God, support us with all Thy holy authority so that we, Thy personal ambassadors, may come to Thy secret place to adore Thy holy name.

Give us wisdom and knowledge to work in Thy light; give us power to do Thy will, to do what is right and to recognize our holy duties by law, our duty to America, and our duty to our fellow men. Guide us by Thy spirit, guide us in our Council today in our deliberations for the greater honor and glory of Thy name and the peace and happiness of our citizens.

This we ask in the name of Thy divine son, Jesus Christ.

Our Father, Who art in Heaven, hallowed be Thy name; Thy kingdom come; Thy will be done on earth as it is in heaven. Give us this day our daily bread; and forgive us our trespasses as we forgive those who trespass against us; and lead us not into temptation, but deliver us from evil. Amen.

The meeting was opened with the salute to the Flag.

APPOINTMENT BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointment:

Constable, with authority to serve civil process upon filing of bond, for the term ending April 30, 1956: Edward A. Keefe, 20 Ely road, Dorchester.

Referred to the Committee on Confirmations.

VETO OF ORDER GRANTING COMPENSATORY TIME OFF TO CERTAIN POLICE OFFICERS.

The following was received:

City of Boston,
Office of the Mayor, July 20, 1955.

To the City Council.

Gentlemen:

I return herewith disapproved, and without my signature, the order adopted by your Honorable Body on July 11, 1955, for the acceptance of chapter 223 of the Acts of 1955, entitled "An Act Granting Compensatory Time Off to Certain Police Officers in Attendance in Certain Criminal Cases."

In the opinion of the Police Commissioner the effect of the acceptance of this act would be to encourage and to place a premium on indiscriminate arrests for any real or suspected violation of law. Further, it is estimated that the operation of this act would add at least $250,000 a year to the expenses of the Police Department and would, in no sense, be an improvement in the administration of that department.

Respectfully,
J. B. HYNES, Mayor.

The message and order were placed on file.

TRAFFIC CONDITIONS ON CLIFFORD STREET, ROXBURY.

The following was received:

City of Boston,
Office of the Mayor, July 17, 1955.

To the City Council.

Gentlemen:

I transmit herewith communication from the Traffic Commissioner relative to your order of June 6, 1955, concerning the surveying of traffic conditions on Clifford street, Roxbury, with a view to having it made one way, from Blue Hill avenue to Warren street.

Respectfully,
J. B. HYNES, Mayor.

Boston Traffic Commission,
July 11, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

With reference to Council order of June 6, 1955, requesting that a survey of traffic conditions in Clifford street, Roxbury, be made with a view to having it made one way, from Blue Hill avenue to Warren street, I wish to report that we have completed our survey.

A house to house interview was made on June 23 which showed that the majority of the residents are in favor of making the street one way. However, another grievance was brought out during the interview which may have some bearing on the request. There is a market located on the corner of Clifford street and Blue Hill avenue where the owner parks his own car and his delivery truck in Clifford street in the "No Parking" area, blocking the free movement of traffic at this intersection.

There were 21 families who could not be contacted during the interview and it is possible that all would be opposed to a one-way rule. Clifford street is the continuation of Dale street, which runs from Washington street to Warren street and Clifford street runs from Warren street to Blue Hill avenue. This is a very long block and would put the residents long distances out of their way to get to their homes.

Our engineer discussed conditions in this street with Police Captain Cloran of Division 9 and Captain Cloran viewed the area and noted that, as stated above, the owner of the market is wont to park his car and truck in the "No Parking" side of the street practically all day and promised to have this practice stopped.

The captain said that in his opinion if consideration were to be given to making Clifford street one way, the proper direction would be from Warren street to Blue Hill avenue. He said that Clifford street is part of the Dale street-Clifford street neighborhood crosstown route in the direction of Blue Hill avenue and that any diversion from it would create confusion and would have a serious impact on neighboring streets.

It is our opinion, therefore, that it would be better not to invoke a one-way rule in this street.

Respectfully yours,
WM. ARTHUR REILLY, Commissioner.

PREPARATION BY PLANNING BOARD OF DATA RE ECONOMIC DEVELOPMENT OF THE CITY.

The following was received:

City of Boston,
Office of the Mayor, July 25, 1955.

To the City Council.

Gentlemen:

I transmit herewith communication from the chairman of the City Planning Board relative to your resolutions and orders of March 28, 1955, April 18, 1955, and May 9, 1955, concerning the preparation of studies, maps, and data for the solution to the economic development of this city.

Respectfully,
J. B. HYNES, Mayor.

City Planning Board, July 12, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

In answer to your request for consideration of resolve of City Council dated May 8, 1955, I am replying as follows:

The Board has discussed at several meetings the contents of this resolve along with Council resolutions or orders of March 28 (2), April 18, and an additional one on May 9. The anxiety of the City Council for a mapped out solution of Boston's problems is fully appreciated and it is agreed that these problems have a profound economic complexity and, further, they are of such an acute nature as to generate dissatisfaction all along the line.

The specific studies mentioned are all underway, with the exception of the M.T.A. study, which it is believed can only be handled as an integrated transportation study on a metropolitan basis. We understand that necessary preliminaries for the initiation of this study at a state level are presently under consideration.

The Board is presently engaged in two major projects which are quite complex and time consuming, but are of fundamental importance in the economic and structural development of the city. While a determined effort is being made to bring these projects—the Rezoning study and the Central Area study to a conclusion, work on a third major project, Urban Renewal, had to be started. Nevertheless, it is planned to have a final report on Zoning and a progress report on the Central Area available by the end of the year.

The Board will shortly be drafting its work program and budget for next year and will take into consideration the referrals from the Council and will include any items that are not now in the program, which it feels are essential.

Very truly yours,
THOMAS F. MCDONOUGH, Chairman.

Placed on file.

NAMING OF UNDERPASS IN HONOR OF THOMAS J. MANNING.

The following was received:

City of Boston,
Office of the Mayor, July 25, 1955.

To the City Council.

Gentlemen:

I transmit herewith communication from the Commissioner of Public Works relative to your order of July 11, 1955, concerning the naming of the new underpass from Archdale road to Hyde Park avenue, Jamaica Plain, in honor of the late Thomas J. Manning.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
July 14, 1955.

Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Mr. Flemming:

This is in reference to the following order that was passed in the City Council under date of July 11, 1955.

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to name the new underpass from Archdale road to Hyde Park avenue, Jamaica Plain, in honor of the late Thomas J. Manning, through whose untiring efforts this underpass has become a reality, and that suitable signs designating same be erected.

I am very pleased to comply with the provisions of the above-referenced order and appropriate signs designating the underpass as the Thomas J. Manning Underpass will be erected at the site within the next week or ten days.

Very truly yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

APPROPRIATION FROM PARKMAN FUND INCOME.

The following was received:

City of Boston,
Office of the Mayor, July 18, 1955.

To the City Council.

Gentlemen:

I am in receipt of the attached communication from the Commissioner of Parks and Recreation requesting the appropriation of $53,000 from the income of the George F. Parkman Fund, to be expended under the direction of the Commissioner of Parks and Recreation, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

The 1955 budget estimates for the personal service requirements of the Park Department included an estimate of the total yearly income from the George F. Parkman Fund. The budget allowances made provision for the appropriation of this income as it accrued for the purpose of defraying the cost of work actually performed on the Common and Parks in Existence on January 12, 1887.

I submit herewith an order appropriating the sum of $53,000, the accrued income now available from the Parkman Fund, and respectfully recommend its immediate passage by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Parks and Recreation Department,
July 11, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

You are respectfully requested to ask the City Council to transfer from the income of the George F. Parkman Fund the sum of $53.000 which is now available, to be expended under the direction of the Commissioner of Parks and Recreation, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of.....$53,000

When making up the budget estimates for the year 1955, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item 100, Permanent Employ-

ees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1955, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Parks and Recreation Department.

Respectfully yours,
FRANK R. KELLEY, Commissioner.

—

Ordered, That the sum of fifty-three thousand dollars ($53,000) be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Commissioner of Parks and Recreation, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of.....$53,000

—

On motion of Councillor Hailer the order was referred to the Executive Committee.

ENDORSEMENT OF EDITORIAL IN "THE PILOT."

Coun. HURLEY offered the following:

Ordered, That the editorial "Who Is Welcome?" from the edition of July 23, 1955, of "The Pilot," be printed as part of the minutes of the City Council meeting of July 25, 1955, and that three hundred (300) extra copies be printed and sent by the City Clerk, when printed, to all of the members of the Massachusetts Delegation in Congress and to all the members of the Great and General Court of the Commonwealth of Massachusetts.

The editorial is as follows:

"Who Is Welcome?"

For the past decade this country has witnessed something of a housing construction race. What with the post-war marriage boom, the influx of refugees and immigrants and doubled-up family groups unable to find accommodations during wartime shortages; all this, coupled with structure deterioration and the lack of critical building materials, demanded immediate and large-scale housing developments. The urgency of the situation made necessary, as never before, public construction. Thus it was, and is, that both state and federal governments subsidized housing programs, the former mainly for veterans and the latter for "low income" families.

Despite the efforts that have been made up to the present however, the rate of construction still seems insufficient, nationally and locally. More than that, market studies have shown that private enterprise has not been making decent dwellings available to the lower-income and larger-family groups at prices they can afford to pay. Single-family housing construction has been adapted to the so-called "normal" family of four persons. It is hardly fair to ask what would become of this country if we had only such "normal" families?

In his encyclical on Christian Marriage, Pope Pius XI, speaking on the very subject of inadequate housing had this to say:

> "if families, particularly those in which there are many children have no suitable dwellings . . . it is patent to all to what an extent married people may lose heart, and how home life and the observance of God's commands are rendered difficult for them; indeed it is obvious how great a peril can arise to the public security and to the welfare and very life of civil society itself . . ."

In their statement of 1949, the American hierarchy speaking on the Christian family took exception to the thinking and practices in the "land of plenty" where parents are forced to live in poverty without an opportunity to own their own homes, while governmental aids are extended in so many other economic directions. It is scant comfort to mouth pious platitudes about the integrity of American family life when parents and their children find themselves confined to cramped quarters because there is "no room" in the tenement or the new development for them.

Yes, there is a shortage of houses, and there are those experts in the field who are not overly optimistic about the long-range possibilities for improvements. But quite apart from the construction problems of the private and public interests, there is unfortunately with the "status quo" housing situation the far more serious lack of charity (and justice too!) on the part of certain individuals. Perhaps in some instances the sudden change from tenant to landlord status was too much for them. The possession of house and property has caused them to take a dim view of children, even though their offspring might but recently have set out on their own after living a normal, active childhood in the family home—or even a rented apartment. For still other property owners, there might be the failure to remember that babies, not full grown men, come upon this mortal scene. Whatever be the reasons for refusal of rentals, and they must be legion, like the scriptural unclean spirits, they are not at all Christian if based on the general unacceptability of children in the house.

This is not to say that landlords do not have problems to face with their tenants. Many a heartache as well as financial reverses have been suffered by kind house owners at the hands of inconsiderate renters. Rather is this directed to those owners who make restrictions which are prejudicial to Christian family welfare. In a sense these type people might be called accomplices of the "crusaders against children." While vehemently denouncing the birth control advocates, these property owners express the same sentiments with that polite but nonetheless frightening phrase, "No children, please."

Could it be that some otherwise good Christians forgot how the Lord chided the disciples when they tried to keep the children away from him? "Let them be, do not keep them back from me; the kingdom of God belongs to such as these. Believe me, the man

who does not accept the kingdom of God like a little child will never enter into it." Evidently a sign on the door of heaven would read, "No adults, please."

Passed under suspension of the rules.

FIRE DEPARTMENT ORDERS.

General Order No. 43.

I. RETIREMENTS.

The following retirement, in accordance with section 13 of chapter 521 of the Acts of 1922, is hereby announced, to become effective as of 8 A.M., August 1, 1955.

Fire Lieut. Charles H. McCarthy, Engine Company 31.

The following retirements, in accordance with section 7, chapter 658 of the Acts of 1945, are hereby announced, to become effective as of 8 A.M., August 1, 1955:

Fire Fighter (Engineer, Motor Squad) John K. Hayes, Maintenance Division.

Fire Fighter Joseph J. Falcone, Engine Company 4.

The following retirements, in accordance with chapter 347, Acts of 1892, as amended by chapter 237, Acts of 1939, are hereby announced, to become effective at 8 A.M., August 3, 1955:

Fire Capt. Thomas B. Maguire, Engine Company 47.

Fire Capt. Egbert R. Murphy, Engine Company 28.

Fire Fighter Frank J. Galvin, Engine Company 46.

Fire Captain Maguire was appointed to the Fire Department July 22, 1919. He was promoted to fire lieutenant July 9, 1937, and to fire captain September 26, 1945. Fire Captain Murphy was appointed to the department January 9, 1914. He was promoted to fire lieutenant March 8, 1928, and to fire captain July 9, 1937. Fire Lieutenant McCarthy was appointed to the department August 5, 1927, and was promoted to the grade of fire lieutenant October 17, 1945. Fire Fighter Galvin was appointed to the Fire Department June 7, 1918. Fire Fighter Hayes was appointed October 21, 1942, and Fire Fighter Falcone was appointed January 29, 1947.

All the foregoing-named members leave the department with the best wishes of their associates.

II. FIRE ALARM BOXES INSTALLED.

The following fire alarm boxes which were established in General Orders, No. 7, dated February 2, 1955, have been installed and connected into circuits indicated:

1216, North Margin and Endicott streets, Circuit 15.

1217, Washington Street North and Thacher street, Circuit 5.

1218, Endicott and Cross streets, Circuit 10.

1219, Hanover and Cross streets, Circuit 15.

Company commanders will add the above boxes to the circuit cards as indicated.

III. FIRE ALARM BOX ESTABLISHED.

In the near future the following fire alarm box will be installed:

12-1351, William Blackstone School, 33 Blossom street.

Company commanders will add Box 12-1351 to assignment card for Box 1351.

The circuit number for this box will be announced when the box is installed.

Due to the installation of this separate box in the William Blackstone School, the designation for Box 1351 as given on the assignment card will be corrected to read as follows:

1351, St. Joseph's Parochial School, 44 Blossom street.

IV. Fire Alarm Boxes Discontinued.

The following fire alarm boxes have been removed from service and discontinued permanently:

12-1334, Bowdoin Square Theatre, Bowdoin square, Circuit 4.

12-284, Richard Olney School, Hastings street, Circuit 65.

12-3724, Elihu Greenwood School, Metropolitan avenue and Lockwood street, Circuit 57.

6133, Boston & Albany Railroad yards, foot of Clyde street, Circuit 89.

Company commanders will delete Box 12-1334, Box 12-284, and Box 12-3724 from their respective assignment cards and also from the circuit cards indicated.

Company commanders will delete Box 6133 from circuit card 89 and return the assignment card for Box 6133 to Fire Headquarters.

V. Change in Designation of Assignment Card.

Due to the discontinuance of the Thomas Dwight School, the auxiliary system has been disconnected from Box 2362.

The designation on the assignment card for Box 2362 will be corrected by deleting the words "Aux. Thomas Dwight School" so that this assignment card will read as follows:

2362, Smith street, opposite Tobin court.

By order of Fire Commissioner Francis X. Cotter.

John V. Stapleton,
Chief of Department.

CIVIL DEFENSE KIT.

In Milwaukee residents have been notified by the city's civil defense administration to get together kits of nonperishable foods on which their families could live for a week in the open if need be. A 43-pound kit, costing $37, was used for demonstration purposes. In the kit, besides food, were a first-aid packet, water purification tablets, cooking utensils, and cans of canned heat. The entire unit packed in an aluminum laundry mail case doubles as a dishpan, wash basin, and infant bathtub.

Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Repairing Water Pipe Trestle, Fort Point Channel, Between Congress and Summer Street Bridges," and left at Room 506 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, AUGUST 18, 1955, with a certified check for TWO HUNDRED FIFTY (250) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited hy bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 506, City Hall Annex. *There will be a charge of two dollars ($2), NOT REFUNDABLE, for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

NEW SET OF CLOCK-CONTROLLED CARILLONS TO BE INSTALLED IN FANEUIL HALL AS FEATURE OF BOSTON'S OBSERVANCE OF SEPTEMBER 17th, HER 325th ANNIVERSARY.

A set of clock-controlled carillons, adjusted to chime out the time hourly as the famous historic "Cradle of Liberty" figuratively rocks with its messages of colonial and revolutionary days, will be installed in Faneuil Hall tower in commemoration of the 325th anniversary of the founding of Boston on Saturday, September 17.

The announcement was made by Mayor John B. Hynes while discussing his plans for the city's observance of its approaching birthday. Amplifiers, he said, will also be installed to transmit the music of the chimes throughout Adams square and the adjacent areas. Through the assistance of loud speakers, they will be heard three quarters of a mile or more away.

In addition to the sentimental aspect of equipping the nationally famous shrine with a musical memorial, the chimes will be of considerable value to

POLICE LISTING WORK TO UNDERGO CHANGES SO AS TO SAVE LABOR, TIME, AND EXPENSE — PROPOSAL MADE BY ADMINISTRATIVE SERVICES DEPARTMENT TO SIMPLIFY AND STANDARDIZE WORK DONE BY PRINTING DEPARTMENT AND FACILITATE OPERATIONS BY POLICE TO PREVENT DUPLICATIONS — OPERATION NOW COVERS MORE THAN SIX MONTHS OF EACH YEAR.

Proposal has been made by the Administrative Services Department to simplify and standardize police listing work done by the Printing Department so as to save both much time and money and yet have the operation performed with greater satisfaction to all involved. The proposal as presented to Mayor John B. Hynes reads as follows:

ADMINISTRATIVE SERVICES DEPARTMENT.

August 1, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

The present method of preparing and printing the police and voting lists is cumbersome, expensive, and, in a sense, wasteful. The development and printing of the two lists involve roughly 3,200,000 separate acts or operations. In the current year the direct costs alone will total in the neighborhood of $220,000, and the entire cycle must be repeated each year, since it is impossible to salvage any portion of the work performed or records produced in the previous year.

In other municipalities throughout the country the problem has been met by the use of tabulating or addressograph equipment. By the use of punch cards or plates, permanent master files have been established, and each year these files have been brought up to date by eliminating the cards or plates of persons who have moved, died, etc., by correcting those cards or plates where a change in status of the person involved has occurred, and by including new cards or plates for new residents or voters. The maximum changes involved in establishing the files on a current basis have varied in various localities between 10 and 20 per cent. This means that where it is only necessary to process each year the "exceptions" in the master file, the annual effort involved may be reduced at least 80 per cent below that required when each year involves, as at present in Boston, a complete new setup.

Philadelphia and Providence are now using tabulating equipment, whereas Newark, Baltimore, San Francisco, and Miami are using addressograph equipment. In Massachusetts, installations of this character have been made in Cambridge, Newton, Leominster, and Watertown. Staff members of this department have visited Newark, Cambridge, and Leominster and have been greatly impressed with the efficiency of the operations observed. Officials in these cities have been high in their praise of the manner in which the equipment has functioned.

Plan Proposed.

After reviewing the experience of several of the cities previously mentioned, we suggest that consideration be given to the adoption of the following plan:

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

POLICE LISTING WORK TO UNDERGO CHANGES — SAVING OF TIME AND EXPENSE.

(*Continued from page 969.*)

Install addressograph-multigraph equipment in the Printing Plant and start preparing addressograph plates for every name appearing on the police list for the current year. These plates will constitute a master file which will be located in an addressograph section to be established in the Printing Plant.

In suggesting that addressograph equipment be used, consideration was given to the fact that any reductions in cost secured by the new methods would affect adversely the income of the Printing Plant. Because of this fact it was decided that preference should be given to that type of equipment which could best be utilized in the Printing Plant not alone for the two lists directly involved but also for other types of allied work. On this basis it was agreed that an addressograph-multigraph installation would be more advantageous, since it could be installed and operated in the Printing Plant throughout the year.

In Massachusetts cities where the proposed system is actually in operation, shortly before the next annual listing is to start, the listing cards to be used by police officers are preprinted from the master file with all the information appearing on the plates. These preprinted cards are given to the officers as they start their visitations of all places of residence. While at any particular address, the officer verifies the information on the cards of those persons still residing at the address, makes notations on the cards of former residents of any change in status or location, and prepares new cards for those residents on which he has no preprinted card. Typewritten lists are then prepared from all cards on which changes have been recorded or which relate to new residents. These lists are then checked against the master file and appropriate changes and alterations made on the plates contained therein. When all exceptions and changes have been made, the master file reflects a current list of residents from which the printed list may be prepared.

According to the records of the Boston Election Department, 20,000 persons move annually to new addresses in the city and 40,000 persons "disappear" for one reason or another. The significance of these figures with relation to the proposed change is this—whereas, at present, police officers must annually fill out in their entirety 550,000 listing cards, under the proposed system a maximum of 60,000 cards would require attention beyond the verifications of the prelisted information. Eliminating almost 90 per cent of the present clerical burden borne by police officers should, it would seem, greatly expedite the completion of the annual listing operation. In addition, the typewritten lists reflecting these changes would contain only 60,000 names, whereas the lists now prepared by the Police Department include every name recorded by the police officers.

It was originally contemplated that the listing operations used in the Police Department for years could be revised to conform with the practice in other Massachusetts cities where the proposed system is in operation, thus simplifying procedures and securing substantial savings. Conferences with the Police Commissioner, however, raised questions as to whether the proposed system conforms with the provisions of the special laws relating to police listing in Boston and also whether it is desirable to furnish preprinted cards to police officers. Since it will take time to resolve these questions and possibly require amendments to the special laws, it has been decided to make no change, for this year at least, in the listing operations of the Police Department. Despite this decision, we believe it is feasible to apply the proposed system to the operations involved in the printing of the two lists and secure worthwhile savings and improvements in existing procedure. Briefly, the operations will proceed as follows:

Plan of Operation.

The typewritten list furnished by the Police Department to the Printing Plant will be checked against the plates in the master file. The plates of persons not found will be removed from the master file and placed in a suspense file. Subsequently, this file will be used to address the notices sent each year by the Election Department to "dropped persons," thus relieving the department of the great effort now involved in the manual preparation of such notices. New plates will be prepared for new residents as well as for changes in name, occupation, etc. Plates of those persons who moved will be associated, wherever possible, with "new residents" appearing at locations to which transfer in residence has taken place.

When every name appearing on the typewritten list has been checked and the appropriate changes and alterations made on the plates in the master file, they will be used in conjunction with the multigraph process to print the "List of Residents." Whereas, under the present system, the printing of this list requires the setting in type of 550,000 names, under the proposed system the preparation of the master files for the printing operation will involve the handling of approximately 60,000 names or plates.

In establishing the master addressograph file, tabs will be placed on all plates bearing the names of registered voters. When it comes time to print the voting lists, the addressograph machines can be adjusted so as to by-pass all plates not tabbed. In preparing for the printing of the voting lists, therefore, the only new operation will be the preparation of plates for those names which are added by the Election Department through supplementary registration.

At the present time, in preparing the current year's voting list, the Election Department checks every name on the police list against the voting list of the previous year. This work, which consumes about four months' time of the Election Department personnel, will be entirely eliminated under the proposed system. Also eliminated will be the necessity for the Printing Plant to set in type for the voting lists approximately 300,000 names.

The elimination of these two specific operations, together with reductions in and simplification of other phases of the present cumbersome system, will, it is estimated, produce savings in excess of $100,000.

To establish the proposed system will require the purchase of equipment costing in the neighborhood of $75,000. Funds for this purchase are available within the equipment loan. In addition, supplies costing approximately $8,000 will be needed, and in the initial stages of the installation clerical services involving an expenditure of $5,000 will be required. The final stages of the installation will be handled by the personnel of the Printing Plant, who will also operate the system when once established. It is interesting to note, we believe, that the initial cost will be completely extinguished by savings secured during the first year the system is in operation.

Simplification.

One very desirable result from the system previously described will be the simplification and standardization of work in the Printing Department. At the present time, the printing of the police and voting lists consumes approximately six months of the time of Printing Plant personnel. During this six months it is necessary to have a substantial force at work in the department, and when the work is completed very often there is not enough new work to keep the large staff busy. Under the new system, it should be possible to establish a work program in the plant which would be constant throughout the year and ensure a production schedule which would satisfy the needs of all departments using the Plant.

At the present time, during the six months when the Plant is engaged with the two lists, production of other work suffers, thus occasioning many complaints from departments concerning the service rendered. Much of the machinery at present in use in the Printing Plant is old and outmoded, thus limiting the character of work performed. The new equipment will give the Plant modern, high-speed machines for producing a wide variety of work.

With your approval, steps can be taken so as to place the system, as outlined, in operation at the beginning of 1956.

Respectfully submitted,
Charles J. Fox, *Chairman,*
John A. Sullivan,
John V. Moran,
James E. Gildea,
Joseph P. Lally.

NEW CARILLONS TO BE INSTALLED IN FANEUIL HALL.

the entire market district. They will also help the time schedule of the many tourists who come from all sections of the country to make a pilgrimage to Faneuil Hall and view the colonial style shrine and to revive memories of the stout-hearted revolutionary heroes who rocked the building with their fiery demands for liberty and freedom from the tyranny of King George the Third.

The antiquated cast-iron bell in the Faneuil Hall tower, installed by the city in 1867 in commemoration of the end of the Civil War and the reestablishment of United States peace, is such a heavy, cumbersome affair that its only value is that of an antique.

It was cast in Philadelphia, weighs 5,860 pounds, is 5 feet high, has a 6-foot mouth, has no tongue and is rung only through manually striking it with a 25-pound hammer. Its over-all appearance is the same as that of the Liberty Bell at Independence Hall, Philadelphia. Under the Mayor's plan, it will remain undisturbed in the lofty belfry for future administrations to utilize as they will. Faneuil Hall, thanks to the patriotism of the people of Boston down through the years, has been remarkably well preserved.

With the installation of the chimes, Faneuil Hall will be more completely equipped musically than any building in the city. At the instigation of the Mayor, it was provided in 1951 with a beautiful colonial style spinet piano, donated by the Ancient and Honorable Artillery Company of Boston; equipped in 1953 with a handsome Hammond electric organ, donated jointly by the Christmas Festival Committee and the public school children of Boston, and furnished in 1954 with a valuable set of wall chimes with organ attachment, donated by Harry J. Blake, well-known Boston wool merchant.

RETIREMENT BOARD REPORT.

CITY OF BOSTON TO OBSERVE 325th ANNIVERSARY WITH SERIES OF ELABORATE EVENTS.

(Continued from page 969.)

Another feature will be a reproduction by members of various Boston youth organizations of John Winthrop and his band of Puritans crossing the Charles River on September 17, 1630, to formally found and settle historic Boston. It was at Charlestown that Winthrop and his hardy followers from Devonshire, England, dwelled prior to selecting Boston as their permanent abode.

One of the characters to be portrayed in the pageant will be William Blackstone, who landed in Boston from a passing ship some time before the coming of the Puritans, and who established his hermitage on the west side of Beacon Hill. It was Blackstone who welcomed them to the area and who later, after he had sold his interest in lands to the settlers for 30 pounds, moved down into what is now called Blackstone Valley, Rhode Island.

Efforts will also be made by those assisting in the observance of Boston's 325th birthday to pay homage to St. Botolph, the great Benedictine monk, from whose name the word Boston is derived. St. Botolphston and Botolphson are but two of the stages the name passed through before it finally became Boston.

St. Botolph settled in the Fens of Devonshire in the sixth century and made such a lasting impression on the natives whom he converted to Christianity that, even centuries after his death, their descendants built the tallest church in the British Isles to his memory. The crumbling tower of the church was rebuilt in 1930 on the occasion of the 300th anniversary of the founding of Boston, Massachusetts. The $75,000 spent on the repairs was raised by a committee of leading citizens as a gesture of good will from Boston of the new world to the Boston of the old.

The custom of observing significant dates in the history of Boston is nothing new. From time to time over the past three centuries it has been done, mainly through the efforts of old Boston, Massachusetts, families whose roots were in the County of Devonshire, of which Boston, England, is the largest and best-known city.

The last observance was the 1930 Tercentenary Celebration observed in the most elaborate manner in memory. A lengthy colorful float parade depicting various historic events in the annals of Boston, Massachusetts, in which the Mayor of Boston, England, participated, an official City of Boston dinner, the marking of a number of historic sites with official City of Boston emblems were only a few of the events that were staged in honor of the occasion.

The entire program this year will be conducted by the Mayor's official staff under his personal direction.

CIVIL SERVICE EXAMINATIONS.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon July 11 the Mayor approved a contract as requested in the following letter:

BOSTON, July 1, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In response to an advertisement in the *City Record* of May 28, 1955, bids, as per attached detail, for furniture for the new addition to the Curtis Guild School, East Boston, were received and publicly opened and read aloud on June 9, 1955.

Since there was only one bidder on Item 15 (stage equipment), that firm being Massachusetts Motion Picture Service, at $3,089 and an alternate bid of $3,051, I am, subject to your Honor's approval, awarding a contract to the Massachusetts Motion Picture Service, 35 Market street, Lynn, Mass., the only and responsible bidder on stage equipment, in the amount of three thousand fifty-one (3,051) dollars.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

—

Upon July 11 the Mayor approved a contract as requested in the following letter:

BOSTON, July 1, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

Real Property Department.

Upon July 27 the Mayor approved a contract as requested in the following letter:

Boston, July 25, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

This department extended invitations to several reputable contractors to submit bids for roofing and metal work at the West Roxbury courthouse.

Bids were received from three roofing contractors with the following results:

H. A. Smith Company, 39 Rochester street, Boston, $4,524; John F. Shea Company, Inc., 41 Hollingsworth street, Mattapan, $4,610; B. Feneno Company, Inc., 218 Camden street, Roxbury, $4,722.

As time is an important factor in the above situation, and in my opinion nothing could be gained by publicly advertising, as the low bidder's estimate is a very fair one, I respectfully request that permission be granted to award a contract to the H. A. Smith Company, of 39 Rochester street, Boston, in the sum of four thousand five hundred and twenty-four (4,524) dollars.

Very truly yours,

George P. Donovan,
Assistant Commissioner.

WITHOUT ADVERTISING.

On varying dates as indicated the Mayor approved contracts with contractors, commercial houses, etc., for furnishing labor and supplies. Communications from heads of the departments interested were as follows:

Hospital Department.

Boston, July 22, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

Funds are available for various projects involving alterations and repairs to various water and sewer lines, signal systems, pumps, catch basins, and sewage ejectors in various buildings and at various locations at Boston City Hospital.

The trustees of the hospital have voted to request your Honor's permission to award a contract, without public advertising, to J. M. McCusker Associates, engineers, 17 Chestnut avenue, Jamaica Plain, for engineering services for this work. The approximate total amount of the contract will be $50,000.

Since this contract involves professional engineering services and the fees are standard it is obviously not in the best interests of the city to publicly advertise for proposals.

Respectfully yours,

Richard J. Condon,
President, Board of Trustees.

—

Boston, July 22, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

It is proposed to make alterations to various operating rooms, laboratories, and patient areas in various buildings in various areas at Boston City Hospital. Funds for this purpose are available.

The trustees of the Hospital Department have voted to request your Honor's permission to award a contract, without public advertising, to the firm of Curtin & Riley, architects, 45 Newbury street, Boston, for architectural services for this work. The approximate total amount of the contract will be $215,000.

Since this contract involves professional architectural services and the fees are standard it is obviously not in the best interests of the city to publicly advertise for proposals.

Respectfully yours,

Richard J. Condon,
President, Board of Trustees.

—

Boston, July 22, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

It is proposed to make various alterations and repairs in several areas of the Administration Building at Boston City Hospital, including the establishment of a central mailing room.

The trustees of the Hospital Department have voted to request your Honor's permission to award a contract to the firm of Anderson & Beckwith, architects, 11 Beacon street, Boston, without public advertising, for architectural services in connection with this work. The approximate total amount of the contract will be $20,000.

Since the contract involves professional architectural services and the fees are standard it is obviously not in the best interests of the city to publicly advertise for proposals.

Respectfully yours,

Richard J. Condon,
President, Board of Trustees.

—

Boston, July 29, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

Extensive work is necessary at Long Island Hospital to modernize electric services, the sewage system, and the water supply system. Funds have been made available through the Extraordinary Repair Loan.

Engineering studies and coordinated programs are necessary for the conversion of existing electric services and facilities from direct to alternating current with an underground distribution system, for a complete system for collection, treatment, and disposal of all of the hospital sewage, and for necessary modifications and repairs to the present water supply system.

The trustees of the Hospital Department have voted to request your Honor's permission to dispense with public advertising and to award a contract to Jackson & Moreland, engineers, 600 Park Square Building, Boston, for engineering services in connection with this work. The approximate total amount of the contract will be $760,000.

Since this contract involves professional engineering services and the fees are standard it is obviously not in the best interests of the city to publicly advertise for proposals.

Respectfully yours,

Richard J. Condon,
President, Board of Trustees.

—

Boston, July 29, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

The air-conditioning installation on the ninth floor of the Dowling Building at Boston City Hospital has failed completely. This unit, approximately twenty years old, supplies the operating room floors where most of the hospital's surgery is done. This failure during the heat of the summer presents a critical situation affecting the welfare of surgical patients and seriously inconveniencing the surgeons and operating floor personnel.

The unit has been inspected by representatives of Westinghouse Electric Corporation, the manufacturer, and of Cavanagh & Murphy, Inc., with which firm the hospital has a service contract for maintenance.

The unit's compressor must be removed and shipped to the factory for reoperation. A defective chiller must be removed. The reoperated compressor must be reinstalled. A new horizontal dry expansion chiller must be installed and new piping must be furnished and installed. The condenser and discharge system must be dehydrated. The system must be recharged. Piping and chiller must be covered.

The estimated cost of all work and material except compressor reoperation is $4,600. The cost of reoperation of the compressor by the factory on a time and material basis will not exceed $2,200.

The trustees, in view of the emergency nature of this breakdown, and in view of the existing service contract with a firm which is acceptable to the manufacturer of the unit have voted to request your Honor's permission to dispense with public advertising and to award a contract for repairing this unit to Cavanagh & Murphy, Inc., 65 Kilmarnock street, Boston, in an amount not to exceed $6,800.

Respectfully yours,

Richard J. Condon,
President, Board of Trustees.

Boston, July 29, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

Funds have been made available for extensive alterations and repairs to the plant at Boston City Hospital. Among the projects upon which work is to be done is a utilities tunnel passing under Massachusetts avenue and connecting the main hospital tunnel system with that of the South Department. The hospital's present electric service and fa-

cilities are to be converted from direct to alternating current.

The electric service conversion will require engineering studies and a coordinated program. A study must be made of the source or sources of power supply, primary distribution system voltage, primary distribution system location and arrangement, metering, source or sources of direct current for special purposes, and means of assuring reliability of supply. Detailed plans and specifications will be required for the utilities tunnel.

The trustees of the Hospital Department have voted to request your Honor's permission to dispense with public advertising and to award a contract to Jackson & Moreland, engineers, 600 Park square, Boston, for engineering services in connection with these projects. The approximate total amount of the contract will be $650,000.

Since this contract involves professional engineering services and the fees are standard it is obviously not in the best interest of the city to publicly advertise for proposals.

Respectfully yours,

RICHARD J. CONDON,
President, Board of Trustees.

—

BOSTON, July 29, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On July 11, 1955, your Honor authorized the execution of a contract with General Electric X-Ray Corporation, 1256 Soldiers Field road, Brighton, Mass., for repairs to Paco developing machine in the Main X-Ray Department, Boston City Hospital, at a cost not to exceed $1,400.

It now appears, according to our best estimate, that the total cost of the services to be performed under the proposed contract will not exceed $1,850.

Therefore, your permission is respectfully requested that the proposed contract sum be increased in the amount of $450, making the total contract sum not to exceed $1,850.

Respectfully yours,

BOARD OF TRUSTEES, HOSPITAL DEPARTMENT AND OF THE BOSTON CITY HOSPITAL,
RICHARD J. CONDON,
President.

—

BOSTON, August 1, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The trustees of the Hospital Department on February 21, 1955, requested your Honor's approval of the selection of the firm of J. M. McCusker Associates to furnish certain engineering services in connection with the replacement of underground sewer lines beneath the basement of the Medical Building at Boston City Hospital. Approval was granted and the communication was published in the *City Record* of March 5, 1955.

In order to undertake this work it was necessary to relocate the hospital's biochemistry laboratory. This important patient service continues on a 24-hour basis in temporary and inadequate quarters.

The sewer lines replacement project was publicly advertised and a contract awarded to the Parkman Construction Company, the low bidder. Work continues under this contract.

When the sewer work is completed the biochemistry laboratory will return to its former location in the basement of the Medical Building. The laboratory will be modernized in both layout and equipment in order to increase its efficiency and improve the volume and caliber of services to patients.

It will be necessary to prepare plans and specifications for extensive changes in exhaust hoods and ducts, and for plumbing, heating, and other work associated with the installation of new laboratory equipment.

The trustees have voted to request your Honor's authorization to dispense with public advertising and to award a contract for additional engineering services in connection with this work to the firm of J. M. McCusker Associates, 170 Chestnut avenue, Jamaica Plain. The approximate total amount of the contract will be $60,000.

Since this contract involves professional engineering services and the fees are standard it is the opinion of the trustees that the interests of the city will best be served by awarding this contract to J. M. McCusker Associates and that nothing would be gained by publicly advertising for proposals for this work.

Respectfully yours,

RICHARD J. CONDON,
President, Board of Trustees.

EXTENSION OF CONTRACTS.

PARKS AND RECREATION DEPARTMENT.

Faletra Brothers, Inc., have been granted an extension of time until September 1, 1955, for the completion of the contract for constructing a play area at William Gary Walsh Playground, Dorchester.

PUBLIC WORKS DEPARTMENT.

Approval has been given for an extension of time for the completion of the contract with John McCourt Company, 28 Walcott street, Readville, for work on Southampton street, Boston, from July 1, 1955, to July 30, 1955. This is a "Chapter 90" project. This extension was requested because the State Department of Public Works voted to extend the time limit on the work.

—

John McCourt Company has been directed to perform the following extra work under the contract for sheet asphalt pavement in Columbus avenue, Station street to Roxbury street, dated December 14, 1954:

In Columbus avenue, remove 60 cubic yards of material by hand excavation in sidewalk area, for relocation of edgestone, at $3 per cubic yard. Estimated cost of extra work, $180.

OMIT AND SUBSTITUTE WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

John McCourt Company has been directed to omit and substitute the following work under the contract for sheet asphalt pavement in Columbus avenue, Station street to Roxbury street, dated December 14, 1954:

In Columbus avenue, omit 16 linear feet of 15-inch drain at $4 per linear foot. Substitute 16 linear feet of 8-inch drain at $3 per linear foot. Estimated cost of omitted work, $64; estimated cost of substituted work, $48; estimated decrease in cost, $16.

AMENDMENTS TO ORIGINAL AWARDS OF DAMAGES.

The Public Improvement Commission has voted as follows:

That the amount of $200 be, and the same hereby is, awarded to Cornelius and Catherine O'Driscoll for all damages sustained under the order of the Board of Street Commissioners and Mayor of November 27, 1953, for the revision of grade of Gould street, West Roxbury.

—

That the amount of $40 be, and the same hereby is, awarded to John J. and Ann M. Concannon for all damages sustained under the order of the Board of Street Commissioners and Mayor of November 24, 1953, for the revision of grade of Gould street, West Roxbury.

—

That the amount of $30 be, and the same hereby is, awarded to Angelo and George P. Duclos for all damages sustained under the order of the Board of Street Commissioners and Mayor of November 21, 1952, for the laying out and construction of Quarley road, West Roxbury.

—

That the amount of $150 be, and the same hereby is, awarded to Theodore J. and Ella F. Metzger for all damages sustained under the order of the Public Improvement Commission and Mayor of August 4, 1954, for the widening of Summit street, Hyde Park.

—

That the amount of $35 be, and the same hereby is, awarded to Austin B. and Helen J. Eldridge for all damages sustained under the order of the Board of Street Commissioners and Mayor of July 17, 1953, for the laying out and construction of Deforest street, Hyde Park.

—

That the amount of $163 be, and the same hereby is, awarded to Gaetano F. Abbondanzio for all damages sustained under the order of the Board of Street Commissioners and Mayor of November 16, 1953, for the laying out and construction of Abby road, Brighton.

Proposals for Redecking and Repairing the Reservation Road Bridge, Over Mother Brook, Hyde Park.

The Commissioner of Public Works of the City of Boston, Room 506 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for redecking and repairing the Reservation Road Bridge, over Mother Brook, Hyde Park. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 506 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Redecking and Repairing the Reservation Road Bridge, Over Mother Brook, Hyde Park," and left at Room 506 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, AUGUST 25, 1955, with a certified check for NINE HUNDRED AND FIFTY (950) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex, on Thursday, August 25, 1955.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 506, City Hall Annex. *There will be a charge of two dollars ($2), NOT REFUNDABLE, for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. $530,000 ESTIMATED TO COMPLETE IMPROVEMENTS AT CHARLESTOWN BRIDGE.

(Continued from page 989.)

Public Works Department.
Boston, August 2, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

Under date of May 9 a contract was awarded to the engineering firm of Charles A. Maguire and Associates, providing, in part, for an investigation and study of the drawspan of the Charlestown Bridge.

The study has been satisfactorily completed, and a detailed report made to the department containing the findings and recommendations of the above-referenced engineers. They recommend that substantial repairs be made to the drawspan, fender pier, and drawtender's house, and that a new mechanical and electrical system for operating the drawbridge be installed. It is estimated that the cost of the latter-referenced work will total $530,000.

At the present time a contract in the amount of $931,965.50 is in the process of being awarded for the reconstruction of the approach spans of this bridge, and it is most essential to have the above-referenced improvements to the drawspan effected at an early date, in order to coordinate them with the work involved in the approach spans, and, of more importance, to insure the safe and proper functioning of the drawspan of this bridge, which is the most important one in the City of Boston.

In view of the circumstances, therefore, it is advisable at this time to award a contract for the preparation of preliminary sketches, design drawings, contract plans, and specifications for the repair of the drawspan structure and related improvements, including the design of a new mechanical and electrical system for operating the drawbridge. To publicly advertise for proposals for the furnishing of such professional services would tend to encourage the submitting of bids by those not qualified, and places a premium on incompetency, as those less qualified could very easily submit a low bid. In general, therefore, I feel that professional services of the type contemplated in the subject contract should be provided by negotiating with a competent firm of consulting engineers, with the understanding that the fee will be established in accordance with the manual prepared by the American Society of Civil Engineers.

I have followed this procedure in the subject case, and recommend that a contract be awarded to Charles A. Maguire and Associates for the rendering of the above-referenced professional services, including consultation and advice during the construction period. The latter-referenced firm is eminently qualified to render the services required, and is recognized as one of the leading firms of consulting engineers, particularly in the structural field.

I therefore respectfully request your authorization to dispense with advertising, and to award a contract to the engineering firm of Charles A. Maguire and Associates, 14 Court square, Boston, for the preparation of preliminary sketches, design drawings, contract plans, and specifications for the repair and re-

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with contractors, commercial houses, and business establishments for furnishing labor, supplies, etc. Communications from heads of departments interested were as follows:

Administrative Services Department.
Purchasing Division.

Boston, August 9, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr Mayor:

The Printing Section of this division is desirous of renting six (6) tape perforators for the period from September 6, 1955, to December 31, 1955, from the Addressograph-Multigraph Corporation. Inasmuch as these perforators are obtainable only from this company, no advantage would be gained by publicly advertising for prices.

Authority is therefore requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Addressograph-Multigraph Corporation for four months rental of six (6) tape perforators, Model No. 7780. Contract period will be from September 6, 1955, to December 31, 1955. This contract includes full maintenance of the machine by the Addressograph-Multigraph Corporation during the contract period.

Total amount of contract will be $1,918.32, net.

Respectfully yours,

John V. Moran,
Purchasing Agent.

—

Boston, August 9, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

The Printing Section of this division is in need of addressograph machines and equipment as specified below. This equipment is obtainable only from the Addressograph-Multigraph Corporation. Prices have been submitted by this company.

Inasmuch as Addressograph-Multigraph Corporation is the manufacturer of the equipment required and since it will be purchased directly from this company, it is my opinion that no advantage would be gained by publicly advertising for prices. Authority is therefore requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Addressograph-Multigraph Corporation for the following:

3 Class 2000 automatic addressograph machines at $7,387.50 each, $22,162.50.

2 Class 6781 automatic graphotypes at $6,279.10 each, $12,558.20.

1 Class 6381 manual graphotype, $1,468.90.

2 Class 100 proofing addressograph machines at $115.30 each, $230.60.

30 Style SB 133 cabinets, at $352.30 each, $10,566.90.

3 Model 1275 multilith machines at $4,337 each, $13,011.

600,000 Style P Pivoloktav frames, $19,350.

600,000 Style P plates, $5,340

600,000 cards in strip, $270.

2 card cutters, at $28 each, $56.

350,000 selector tabs, $770.

480 rolls tape for Model 7780 tape perforator at 65 cents each, $312.

Total amount of contract, $86,096.10, net, 30 days.

Respectfully yours,

John V. Moran,
Purchasing Agent.

Department of School Buildings.

Boston, August 11, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

On August 10, 1955, your Honor approved a contract with Gledhill Brothers, the low bidder, for items of furniture for installation in the new Curtis Guild School.

We now have determined that we would like to obtain in addition to the materials specified in the contract, certain additional pieces of furniture from this contractor, namely, Gledhill Brothers, 20 woodworking benches at a unit price of $81.75, totaling $1,635, which unit price is the same as that stated in the bidder's original proposal.

Therefore, as the Gledhill Brothers submitted the lowest price for benches it is not felt that advantage is to be gained by additional public advertising and your authorization is respectfully requested to dispense with the same and to amend the contract in the amount of $1,635 to cover the cost of the aforementioned furniture.

As amended, the new total contract sum will be four thousand six hundred and sixty-seven (4,667) dollars.

Respectfully yours,

James H. Mooney,
Superintendent of Construction.

Hospital Department.

Boston, August 5, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

The number of polio patients being received at Boston City Hospital requires that certain recently unused facilities in the South Department be rehabilitated. Some of this work has been done. More work is in progress.

There is urgent need for painting the entire floors of the building housing Wards PP and OO, including the stairhalls of these wards. The corridors of Wards AA and BB and certain ironwork also need painting.

The trustees of the Hospital Department voted today to request your Honor's authorization to dispense with public advertising and to award a contract to the painting firm of Albert D. Howlett Company, 110 Worcester square, Boston, to do this work at an estimated cost of $8,460.

This firm was the low bidder and received a contract for work done previously in the hospital's Children's Building. The work was performed promptly and in a very satisfactory manner.

The present work must be done promptly to prepare these areas for the proper continuing care of polio patients. We are assured that the contractor can do this urgently needed work immediately.

This request to award without advertising is made in view of the pressing needs of our present situation. The delay caused by the solicitation of bids through advertising would not be in the best interest of the care and welfare of these patients.

Respectfully yours,

Richard J. Condon,
President, Board of Trustees.

Real Property Department.

Boston, August 10, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

This department extended invitations to several reputable roofing contractors to submit bids for roofing work at the Dorchester Courthouse.

Bids were received from three roofing contractors to submit bids for roofing work at the building with the following result:

B. Feneno Company, 213 Camden street, Roxbury, $6,390; H. A. Smith & Co., 39 Rochester street, Boston, $6,436; John F. Shea & Co., 41 Hollingsworth street, Mattapan, $6,532.

A good deal of the work to be performed on the above will have to be at

irregular hours due to the court being in session and so as not to interfere with the business of same. In view of this fact, and in view that nothing could be gained by publicly advertising as the low bidders estimate is a very fair one, I respectfully request permission be granted to award a contract to the B. Feneno Company, 213 Camden street, Roxbury, in the sum of six thousand three hundred and ninety (6,390) dollars.

Respectfully yours,

George P. Donovan,
Assistant Commissioner.

A 10-inch pipe sanitary sewer, 10-inch pipe surface drain, and two catch basins and connections in Rocky Nook terrace, between Glen road and 260 feet northerly, in the West Roxbury district, at an estimated cost of $4,800.

A 15-inch pipe surface drain in Canterbury street, between American Legion Highway and 260 feet northeasterly, in the West Roxbury district, at an estimated cost of $2,100.

POLICE DEPARTMENT ORDERS.

General Order No. 2,084.

Acting under provisions of chapter 32, section 7, as amended (State-Boston Retirement System), the Boston Retirement Board has approved for retirement, on account of accidental disability, the following-named police officer, effective at the close of business Wednesday, August 31, 1955.

In view of this operation of law, after August 31, 1955, the said police officer shall no longer be an active member of this department, and it is hereby ordered that its records be so amended.

Patrolman Joseph W. Quinn, Traffic Division.

The Superintendent of Police will promulgate this order.

Thomas F. Sullivan,
Police Commissioner.

General Order No. 2,085.

Sergt. John J. Donovan of Division 3 is commended and granted one week's additional vacation for outstanding police work performed on August 12, 1955.

In the early morning while Sergeant Donovan was riding alone on the division, he observed three men in the front seat of an automobile acting in a suspicious manner. As he approached to investigate, the car sped off without lights. The sergeant gave chase through several streets before finally forcing the car to the side of the road. At this point the operator jumped out and Sergeant Donovan, with drawn revolver, ordered all three not to make a move. Not being satisfied with their answers to his questions, he called for assistance and they were brought to the station.

A search of the automobile uncovered two fully loaded revolvers under the front seat and a large assortment of men's wearing apparel and merchandise, apparently stolen. In the rear seat, three more guns were found as well as boxes of ammunition and burglarious tools.

Sergeant Donovan recognized the similarity of the prisoners' descriptions with those of men wanted for an armed holdup and ransacking of a house in the Cape Cod area, and the armed holdup and slugging of a motel manager in Saugus. Subsequent investigation and interrogation linked these men with both crimes, and the firearms and merchandise stolen in breaks were identified by their rightful owners.

The commissioner is pleased to recognize the outstanding courage and devotion to duty shown by Sergeant Donovan in singlehandedly effecting the arrest of these dangerous criminals, and the thoroughness of his investigation which resulted in the solution of a number of crimes in other jurisdictions.

The commissioner is pleased to promote Sergeant Donovan to the rank of sergeant-detective, effective August 17, current.

The Superintendent of Police will promulgate this order.

Thomas F. Sullivan,
Police Commissioner.

IMPORTANCE OF FOOD-BORNE DISEASE.

The relationship of food to disease continues to be an important public health program. The United States Public Health Service reported 327 outbreaks of food-borne disease in the United States in 1948, which resulted in 9,962 cases and 17 deaths. As only one out of ten cases of food-borne disease is ever reported, the resulting situation is far more important than available statistics would indicate.

The United States Public Health Service reports that there occurred in the United States in 1948, 30 cases and 6 deaths resulting from botulism; 74 cases and 1 death resulting from chemical food poisoning; 120 cases of dysentery; 8,832 cases and 7 deaths resulting from food infection and gastroenteritis; 270 cases of scarlet fever.

BOSTON TRAFFIC COMMISSION.

PROPOSALS FOR FURNISHING AND INSTALLING UNDERGROUND CONDUIT AND CONCRETE BASES FOR TRAFFIC SIGNAL POSTS IN THREE (3) INTERSECTIONS IN THE CITY OF BOSTON.

The Boston Traffic Commission, office 112 Southampton street, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for furnishing and installing underground conduit and concrete bases for traffic signal posts in three (3) intersections in the City of Boston. A bond will be required for doing the work of a surety company approved by the Commission in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at 112 Southampton street. Each proposal should he enclosed in an envelope, sealed, marked "Proposal for Furnishing and Installing Underground Conduit and Concrete Bases for Traffic Signal Posts in Three (3) Intersections in the City of Boston," and left at 112 Southampton street, before 12 M. on Thursday, September 1, 1955, with a certified check for five hundred (500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read.

Proposals must be made in duplicate, the sealed duplicate, without check, to he deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the lump sum price of any item appears to the Commission to he abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Boston Traffic Commission. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

NO PUBLIC HEARING NEEDED FOR CONSTRUCTION OF GARAGE UNDER BOSTON COMMON, CORPORATION COUNSEL WILLIAM L. BAXTER RULES — BUT IF EXPLOSIVES AND INFLAMMABLE MATERIALS ARE TO BE KEPT FOR SALE AND DISPOSAL, COMPLIANCE WITH PROVISIONS OF BUILDING CODE PERTAINING TO SUCH MUST BE ADHERED TO.

The following is a copy of a communication as of August 18, which has come to the attention of the Mayor's Office:

MR. CHARLES A. CALLANAN,
Building Commissioner.

DEAR COMMISSIONER CALLANAN:

This is in reply to your letter of August 2, 1955, inquiring whether if the city enters into a contract and lease with a private corporation for the construction and operation of a garage for motor vehicles under Boston Common pursuant to St. 1946, c. 294, as amended, there must be full compliance with the provisions of the Boston Building Code (St. 1938, c. 479, as amended), the Boston zoning law (St. 1924, c. 488, as amended), the act requiring permits for the erection and maintenance of garages in Boston (St. 1913, c. 577 as amended), and the statute prohibiting the use of any structure for the keeping, storage, or sale of explosive and inflammable fluids and compounds without the land on which such structure is situated being licensed (G.L. [Ter. Ed.] c. 148, s. 13, as amended).

Without doubt, the general aim of all the legislation mentioned above is the promotion of the public welfare in a broad sense. Compare *Marchesi* v. *Selectmen of Winchester*, 312 Mass. 28, 31. The building code and the inflammables licensing statute are, however, so particularly concerned with the public safety that it is difficult to impute to the Legislature an intent to override their provisions by the passage of St. 1946, c. 294, as amended. On the other hand, *Burnham* v. *Mayor and Aldermen of Beverly*, 309 Mass. 388, 392–393, would seem to make it plain that St. 1946, c. 294, as amended, should not be so construed as to thwart its general aim and object, which is expressly declared to be the abatement of a parking nuisance by the construction and maintenance of a garage under Boston Common. See St. 1946, c. 294, s. 1. If the garage permit act were interpreted as being still applicable, the denial of a permit by the licensing authority would prevent the achievement of the aim of the Boston Common garage statute. Similarly, since the Common is in a district zoned for purposes other than garages, if the Boston zoning law were not construed as superseded by the Boston Common garage statute, the general aim and object of the Boston Common garage statute would be effectively thwarted. You will note that the provision in St. 1946, c. 294, s. 2, empowering the city to enter into a contract and lease with a private corporation for the construction and operation of a garage for motor vehicles under Boston Common begins with a phrase of sweeping import, namely: "Any general law or special law to the contrary notwithstanding." "The Legislature must be presumed to have meant what the words plainly say. . . ." *Condon* v. *Haitsma*, 325 Mass. 371, 373. See, also, *Clements* v. *Treasurer of Cambridge*, 324 Mass. 73, 74–75, and *Booker* v. *Woburn*, 325 Mass. 334, 336.

For the reasons set forth above, it is my opinion that, if the city enters into a contract and lease with a private corporation for the construction and operation of a garage for motor vehicles under Boston Common pursuant to St. 1946, c. 294, as amended, there must be full compliance with

ORDER REVOKED.

The Public Improvement Commission has voted that permission granted to Stony Brook Village Corporation on April 30 1954, in accordance with the provisions of chapter 117 of the Acts of 1947 to prepare for public travel Perry court, Hyde Park district, leading easterly from Dietz road for a distance of approximately 178 feet, as shown on a plan by Arnold E. Schaier, dated March 22, 1954, be, and the same hereby is, revoked.

WHITE FUND TRUSTEES VOTE TO ERECT NEW SIX-STORY STORE AND OFFICE BUILDING ON BOYLSTON STREET, OPPOSITE NEW ENGLAND MUTUAL BUILDING — SUBSTANTIAL INCREASE IN INCOME TO FUND EXPECTED— TO COST $1,000,000.

The trustees of the George Robert White Fund at their meeting voted unanimously to erect a new six-story store and office building on the property now owned by the fund at 478-488 Boylston street, opposite the New England Mutual Building. The new building will be of first-class construction and will be completely air conditioned, the only completely modern office building erected in the city for many years.

The trustees are assured of complete occupancy of the entire building. It will provide the fund with a substantial increase in income as compared with the income from the old buildings now at this location. The services of Mr. Thomas McDonough have been secured as architect, and plans and specifications will be prepared for bids at an early date. The building should be finished, ready for occupancy by late spring or early summer of 1956. The cost, including the land, will approximate $1,000,000.

The existing buildings are better than 75 years old and this new project is intended to compensate for depreciation of some of its older buildings and to strengthen the principal account of the fund. This is the first time in the 25-year existence of the White Fund that new construction has been authorized and an effort made to restore the principal account to its former strength.

LIENS CANCELED.

The Public Improvement Commission has voted as follows:

Whereas, An order of the Board of Street Commissioners, approved by the Mayor June 26, 1953, recorded in the Registry of Deeds, July 16, 1953, Book 6883, page 167; said order providing for the laying out and construction of Mt. Vernon street, Dorchester district, from William T. Morrissey Boulevard (formerly Old Colony Parkway) to land of the City of Boston;

Whereas, Assessment liens were created on the following-named parcels of land, as follows:

Parcel.		Amount.
1.	Salada Tea Company, Inc.	$8,368 35
2.	Salada Tea Company, Inc.	$2,549 70

Voted, That said assessment liens be, and the same hereby are canceled.

Whereas, An order of the Public Improvement Commission approved by the Mayor March 14, 1955, recorded in the Registry of Deeds March 15, 1955, Book 7040, page 85; said order providing for the taking of an easement for sewerage purposes in Cutter road, West Roxbury district, between Baker street and Dow road;

Whereas, Assessment lien was created on the following-named parcel of land, as follows:

COMMONWEALTH AVENUE REPAIRS ORDERED.

The Public Improvement Commission has voted that this commission, having passed the order of notice relating to the public improvement, hereinafter described, and having caused a copy of said order to be published May 27, 28, 31, and June 1, 1955, in the Boston *Globe* and Boston *Post*, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public necessity and convenience require, does hereby order that specific repairs be made in Commonwealth avenue, Brighton district, between Harvard avenue and Thorndike street, consisting of the construction of two crossovers in the southerly divisional island, as shown on a plan marked "City of Boston, Commonwealth Avenue, Brighton, August 3, 1955, George G. Hyland, Commissioner of Public Works," and on file in the office of said department.

PERMIT FOR PLACING DUCT.

The Public Improvement Commission has voted that permission be granted to the New England Deaconess Hospital, 16 Deaconess road, Boston, to place and maintain a subsurface (4 feet x 9 feet) reinforced concrete air-conditioning exhaust duct, approximately 13 feet from the existing curb line on the turn in Autumn street, substantially as shown on a plan marked "Deaconess Hospital, July 8, 1955," and filed in the office of the Commissioner of Public Works.

The Commissioner of Public Works is hereby authorized to issue permits for opening and occupying the street for placing and maintaining said duct, under the conditions set forth in the city ordinances, and such other terms and conditions as the said commissioner may deem proper.

The work of locating said duct to be subject to the approval of said Public Works Commissioner, and the street above referred to is to be kept open for both pedestrian and vehicular traffic during the laying and construction of said duct.

EXTENSION OF CONTRACTS.

Department of School Buildings.

Approval has been given for an extension of time for the completion of the contract with Joseph P. O'Hearn for additions and alterations to heating and ventilating systems at the John Winthrop School, from September 1, 1955, to November 30, 1955. This extension was requested due to delays in delivery of motors and pumps.

Public Works Department.

Approval has been given for an extension of time for the completion of the contract with Susi & DeSantis Company, Inc., dated June 13, 1955, for the building of sewerage works in David road and outlet in Mossbank Footway to Louder's Lane, West Roxbury, from August 12, 1955, to September 12, 1955. This extension was requested because the contractor was delayed due to inability to secure materials to complete the work caused by the recent truck strike.

—

Approval has been given for an extension of time for the completion of the contract with J. D'Amico, Inc., 49 Ellison avenue, Dorchester, for bituminous concrete pavement in Ansonia road, Cricket Lane, Highfield road, Ledgewood road, and Searle road, from July 31, 1955, to September 30, 1955. POLICE DEPARTMENT ORDERS.

General Order No. 2,086.

Patrolman John B. Harrington of Division 17 is commended and granted two days' extra vacation for meritorious police work performed on May 27, 1955.

While on his way home after completing a first half tour of duty, Patrolman Harrington observed two men carrying cardboard cartons from a variety store to a parked automobile. As the officer approached, the two men fled leaving a third man seated behind the wheel. With his service revolver drawn, Patrolman Harrington ordered the man from the car. He identified himself as the owner and operator of the car but denied acquaintance with the men who had fled. In the rear seat of the car was several hundred dollars worth of merchandise and a steel pinch bar which had been used to jimmy the door of the variety store.

Patrolman Harrington arrested the owner of the automobile as a suspicious person and he was arraigned in court for breaking and entering in the nighttime, larceny, and possession of burglar tools. Upon further questioning he admitted knowing the identity of the two men who had fled and warrants were obtained for their arrest.

The commissioner is pleased to recognize the alertness and devotion to duty shown by Patrolman Harrington as his prompt action undoubtedly prevented further breaks by this gang.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,087.

The resignation of Patrolman Joseph P. Ryan of Division 16 having been presented, it is hereby accepted, to take effect on Wednesday, August 24, 1955, at 7.45 o'clock A.M.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

SCHOOLBOY PARADE TO BE HELD ANNUALLY ON MAY 1

Mr. Ward offered the following:

On May 1, 1955, Pope Pius XII proclaimed that May one should be "a day of rejoicing for the concrete and progressive triumphs of dignified labor." In this manner, May one would be a psychological stimulation among the Christian people of the world for social peace. Dissension, deadly hatred, and bloody violence would give way to peace, love, and law. The honest workman has projected a dignified personality before God, and has raised the state of manual labor to one of honor and respect. Among the zealous and honest workmen of America, Communism has raised its poisonous fangs to sting the workman and destroy his ideas of justice and law that are so necessary to our democratic way of life. It is the moral order established by God that will destroy the discordant and ugly sirens that secretly endeavor to lure the laborer to pits of debasement.

Lacking a solid foundation America becomes defenseless against such a foe, a foe who bores quietly from within with empty slogans, and false words that confuse and bewilder the ordinary man until he gropes along in a state of amazement. These breeders of malice skillfully conceal the truth. Against this hidden manipulation of secretly formed groups of terror, American education must meet this challenge by action. It is only a fool who in his intellectual snobishness believes that "all is safe" when the enemy is at our gates. Too long have we waited for the fatal blow to strike. We must prepare, not tomorrow, but now! In order to put our ideas into action I submit to the members of the School Committee the following order:

ORDERED, That, beginning in 1956, the Annual Schoolboy Parade be held on May 1 of each year when such date falls on a school day; provided, however, that when May 1 falls on a Saturday or Sunday, the Annual Schoolboy Parade be held on the following Monday.

On roll call, the foregoing statement and order was ordered spread in full on the record of this meeting, by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Messrs. Lee and Musco—4.

PRESENT—Mr. Ward—1.

RESOLUTIONS

The following preamble and resolutions were offered by Mr. Ward:

WHEREAS, Louis F. Museo on May 16, 1945 brought into reality a need of long standing by the founding of the only nationally famous travel business school in New England, specializing in training of students for key positions in business and air transportation, and

WHEREAS, His patience and wisdom foresaw that the demand for trained personnel in our present air age would have a phenomenal growth, and

WHEREAS, His belief in our American Democracy and heritage prepares the student of today as the leader of tomorrow in an Air Age whose growth is as boundless as the stars, and

WHEREAS, His early attempts and pioneering spirit envisioned and founded a unique institution in the educational field of aviation so that its graduates are worthy, cultured, and qualified, and

WHEREAS, His kindness, his boundless energy, his facility to visualize the need of the morrow, his philosophy of education that develops a sense of right, duty, and honor, and

WHEREAS, His Alma Mater, Boston College, in 1952 selected him as the man of the year, and his election for six continuous years as President of the Massachusetts Council of Private Schools, stamp him as an outstanding citizen, and

WHEREAS, The Honorable John B. Hynes, Mayor of the City of Boston, presented to him on May 16, 1955 a plaque which cited him as a capable leader in the field of education, and

WHEREAS, His judgment of self is one of sincerity, his judgment of others one of charity; his determination to suspend decision until both sides have been heard are qualities that endear him to us, and

WHEREAS, His thoughtfulness of others, his loyalty to a cause, and his true gentleness are founded upon a sense of justice which is native to him; therefore be it

RESOLVED, That the Boston School Committee by formal action hereby records that these characteristics are found in its fellow member, Louis F. Museo, and it is the hope of this Committee that success may follow his endeavors in the field of education, and be it further

RESOLVED, That the Secretary send a copy of these resolutions to the family of School Committeeman Louis F. Museo.

The following preamble and resolutions were offered by Miss Fitzgerald:

WHEREAS, Michael E. Hennessy, the Boston Globe's brilliant reporter, political writer, and analyst, and beloved friend of plain, ordinary people of America, has been taken in death, and

WHEREAS, He was a great reporter "who never wrote a mean line" in all his writings and malice was ne'er set down to blight his page, and

WHEREAS, He was a simple, humorous, modest, and home loving man whose happiest hours were spent with his newspaper friends and his family, and

WHEREAS, He was honored by presidents, educators, associates, statesmen, and clergy for his accurate reporting, his kindliness, his knowledge of Boston's social and political background, his political editorship for sixty years on one of Boston's outstanding newspapers, and

WHEREAS, His loss to the people of Boston, Massachusetts, and the nation will be an irreplaceable one, whose brilliant reportorial ability will be a monument in the field of political journalism for others to follow, whose standards of fairness and wisdom place him among the "worthy ones" of newspaper row, be it therefore

RESOLVED, That the School Committee place upon its records these writings of sincere regret at the death of the late Michael E. Hennessy, who has won a crown of glory for a job well done; and, be it further

RESOLVED, That the School Committee in meeting assembled extends its deep sympathy to the family of Michael E. Hennessy and directs that a copy of these resolutions be sent to the owner of the Boston Globe and to the family of the late Michael E. Hennessy.

The following preamble and resolutions were offered by Mr. Ward:

WHEREAS, James Morgan, famous editorial writer and political analyst of the Boston Daily Globe, has written his last by-line in this life, and

WHEREAS, He labored among the high and lowly with a courtesy that stamped him as a Lord Chesterfield of his day in journalism, grateful for the opinion of the taxi-driver as well as the views of statesmen, and

WHEREAS, He wrote for seventy-five years with such learning and such wise comments concerning justice in human affairs, that his writings became admired and loved by thousands of New Englanders, and

WHEREAS, He traveled the world over, blessed by his Maker with a photographic memory by which he retained in his mind a storehouse of facts about every city, or town, or country that he visited, and

WHEREAS, He left his unmistakable mark in the column so familiarly known to many as "Uncle Dudley" in which his occasional contributions of friendly counseling and kindly thoughts aided the general public in such matters, and

WHEREAS, He wrote many lines of golden thoughts, one of the best which will remain forever in our memories as an inspiration is, — "We are not responsible for the binding of our book of life, but we are for the contents," be it therefore

RESOLVED, That the School Committee place upon its records an expression of loss at the departure from this life of the late James Morgan. Therefore, be it further

RESOLVED, That the School Committee of the City of Boston in meeting assembled extends its sympathy to owners of the Boston Globe, to his fellow workers, to his friends and relatives, and closes with the memory, "that to know him was to love him."

SALARY OF SUPERINTENDENT OF CONSTRUCTION

The following communication was presented:

City of Boston
Department of School Buildings
26 Norman Street
May 20, 1955.

To The Members of the Boston School Committee:—

Chapter 351 of the Acts of 1929 as amended by Chapter 90 of the Acts of 1955 reads in part as follows:—

"His salary shall be established by said Board of Commissioners with the approval of the School Committee."

Consistent with the provisions of Chapter 351 of the Acts of 1929 as amended by Chapter 90 of the Acts of 1955, the Board of Commissioners of School Buildings at a regularly called meeting which was held on Thursday, May 19, 1955, established the salary of James H. Mooney, Superintendent of Construction, at Thirteen Thousand Five Hundred (13,500.00) dollars per annum, effective June 1, 1955 and hereby requests the approval of the School Committee of such established salary.

Very truly yours,
Board of Commissioners
of School Buildings,
(Signed) Joseph F. O'Connell, Jr.
Chairman.

Placed on file.

The following was offered:

ORDERED, That this Committee hereby approves the establishment by the Board of Commissioners of School Buildings of the salary of the Superintendent of Construction at the rate of thirteen thousand five hundred dollars ($13,500) per annum, to take effect June 1, 1955, in accordance with the provisions of Chapter 351 of the Acts of 1929 as amended by Chapter 90 of the Acts of 1955.

RESOLUTIONS

The following preamble and resolutions were offered:

WHEREAS, The Most Reverend Richard J. Cushing, Archbishop of Boston, has ministered to God's people for thirty-four years, and

WHEREAS, His every thought and deed have hungered for relief to those whose lives have been forgotten by family and friends in a whirlpool of enjoyment, and

WHEREAS, His scholarly presentations of good counsel and ecclesiastical truths have soothed the aching hearts of thousands in this age of worry and turmoil, and

WHEREAS, His organizational power, his charity to all, and his faith that truth and justice will prevail, and

WHEREAS, His love and paternal anxiety, to the aged, to the sick, to the poor, to the weary wanderer, and to God's forgotten children, and

WHEREAS, His love to all mankind shines triumphantly through the mist where disappointment, sorrow, and suffering have raised their ugly heads to mock and to discourage him, and

WHEREAS, His dynamic applications of the use of modern science through the media of T. V. and Radio have brought solace and peace to thousands of people, and

WHEREAS, His life has been dedicated to the thought that to live another day for prayer, for love of and charity toward all men are eternal truths as everlasting as God's eternal justice and wisdom; be it therefore

RESOLVED, That the School Committee of the City of Boston extends to the Most Reverend Richard J. Cushing, Archbishop of Boston, its earnest and heartiest wishes to a great man who has served God for thirty-four tireless years, and hopes that his

future days will be crowned by success and heart's-ease, and be it further

RESOLVED, That these resolutions be placed upon its records and a copy sent by the Secretary to the Most Reverend Richard J. Cushing, Archbishop of Boston.

IN MEMORIAM

The Superintendent regretfully reported the death on June 1, 1955, of Bernard J. Kilroy, submaster, James J. Chittick District.

Placed on file.

—

RESOLUTIONS

The following preamble and resolutions were offered by Mr. Ward:

WHEREAS, Bernard J. Kilroy, Submaster of the James J. Chittick School in Mattapan, and assistant football coach at Boston Technical High School, has closed his eyes in long last sleep, and

WHEREAS, the School Committee genuinely recognizes the outstanding achievement of Mr. Kilroy in the classroom, on the athletic field, and in civic affairs, and

WHEREAS, His life at the High School of Commerce, at Mercerburg Academy, at St. John's Preparatory School, and at Boston College prepared him for that deserving recognition known as "All-American Center," and

WHEREAS, His courage, his kindness, his alertness, and his desire "to win" within the rules are truly great qualities possessed by him, and

WHEREAS, His loss to education and athletics will be felt by administrators, coaches, teachers, pupils, friends, and family, and

WHEREAS, His name, "Bernie" J. Kilroy, and his life have endeared him as a faithful, courteous and efficient teacher to his associates who held him in the highest esteem, be it therefore

RESOLVED, That The School Committee of the City of Boston enter upon the records a heartfelt expression of sorrow at the death of Bernard J. Kilroy, whose life beyond may be crowned with the thought,—"That whatever God chooses for us is better than that which we ourselves could choose;" therefore, be it further

RESOLVED, That The School Committee of the City of Boston in meeting assembled extends its sincere sympathy to the family of Mr. Kilroy and directs a copy of these resolutions be sent to his wife, Louise, and his children as an expression of the great loss that has come to them.

Chairman: I would like to have included in the record of the meeting the conference notes of this date commending Mr. Domas and his work. I think it is important for the people to know the reason for the extension of his leave of absence.

—

The following is the extract from the Conference Notes of this date referred to by the Chairman:

Superintendent: Now Mr. Domas' case is an unusual one. You know I have stood on two years' leave of absence, as far as my recommendations are concerned. However, Mr. Domas is doing a special piece of work, he is doing it for the Massachusetts School Buildings Assistance Commission, and whatever the wishes of the Committee are are certainly all right with me.

Chairman: I would like to add this much to the record. I know this to be true from personal discussions with John Marshall, who is the head of the School Buildings Assistance Commission. He states that the connection of Mr. Domas with the Boston school system is a very great public relations advantage for us. In other words, the fact that he is connected with the Boston schools and goes out as a consultant to other states and to other cities and towns in Massachusetts makes good public relations for our schools. Although it is an unusual request to have it continue for so long, I do think that we should go along with it.

Mr. Musco: Madam Chairman, I had an occasion to observe this man in action at the Massachusetts Association of School Committees convention just last month. I did not know he was a Boston teacher but I was very much impressed with his delivery. I was more happy when I learned that he was a Boston teacher. He did a fine job.

Mr. Carr: Madam Chairman, may I add that at present, I believe, the director or one of those in one of the important positions up there is out because of illness, and Mr. Domas has taken over his place. He is filling a position of great responsibility. I think it would be a public service on the part of this Committee to allow him to stay.

NEW ENGLAND VACATIONLAND

Mr. Musco: Madam Chairman, inasmuch as we are reaching the end of the school year—and I have attended some of the seminars at some of these colleges in the vicinity—and also because of the Boston Chamber of Commerce and the Department of Commerce in Massachusetts and also the New England Council doing quite a lot of promotion work in relation to our own state regarding its vacationland possibilities, I would like, with your approval, to insert the following into the record so that our children, our staff of school personnel, and the public in general will be cognizant of and can take advantage of the fine territorial vacationland that we have in this area.

With that in view I would like to read this article which appeared in a p. m. paper recently:

"In any business, success is not a question of what you have to sell but of how well you sell it. The old theory that the world will beat a path to your door if you make a good mousetrap is only half a theory at best. The more important half lies in the fact that you have to get out and promote the mousetrap until even the mice get interested.

"Here in Massachusetts we have a good product to sell: Massachusetts as Vacationland. For too many years we left the product gathering moss in the shed. Then we discovered that the rest of the nation was interested in buying. Happily we have been doing a fairly good selling job in recent years, though not the full job that could be done. We'll learn that, though, as time goes on and the profits grow bigger.

"One example of our progress in that line is the "Visit Massachusetts" booklet published and distributed by the Massachusetts Department of Commerce. It makes a good sales pitch for our vacationland product. Its colorful pictures, its make-up, its descriptive phrases, all form an attractive combination that should make any traveler eager to stop here for relaxation regardless of the season.

"Another related example has just been produced at Boston University. That's the announcement of a new travel-study program called "A Course on Wheels." It's based on a 12-day, 700-mile trip through a five-state area of New England with accompanying lectures. Those taking part will get the full treatment from Boston's shrines to bean suppers, from the Mohawk Trail to the old Mystic fishing village, from Provincetown artists to Salem witches.

"Efforts like these two show the sort of imaginative approach that is needed to sell the vacationland product and to line up repeat sales. Whether the direct objective is to spread culture and knowledge through study participation or to make the cash registers ring, the result is good for the state. It arouses interest and brings visitors. Any boost for Massachusetts helps us all."

CANOEWAY

Mr. Lee: Madam Chairman, I would like to pursue Mr. Musco's ideas a little further, and a little more concretely in one particular, and this might call for a letter from the Committee to one of our state officials.

As one of the most attractive parts of this gateway to New England recreation, which the City of Boston is, our Charles River Basin stands prominently; and within the last five years some $200,000 was spent to still further improve that—to build a little canoeway or canal along the shore of the new Storrow Memorial Drive; and yet that new waterway has been blocked by floating obstructions since then.

As you know, our crews are now rowing on the river, and it would be nice variation of their daily routine if they could row through that canal. I think it would be helpful if we could direct Miss Reynolds to send a letter to Mr. Greenough, Chairman of the Metropolitan District Commission, saying we would look with favor on the opening of the canoeway to navigation. It would be nice for people coming from our Back Bay hotels on the way to the recreational paradise of the North and South Shores and of Maine and New Hampshire to be able to stroll down at sunset time and see boats going through that little canoeway instead of having it blocked up.

I would hope the Committee might direct Miss Reynolds to send that letter.

Mr. Ward: I would second that. I think this is a very good thing. The MDC should recognize elected bodies like this body here when they find something they feel is good for the welfare of the child. We are closer to the picture than they are, and we can act in an advisory capacity and tell them what we think.

I think it would be an excellent idea if we instructed the Secretary to write a letter to the MDC, if the Committee wants it, following Mr. Lee's suggestion.

Mr. Lee: Just say we look with favor on the opening of the canoeway to navigation. That is all I want to say.

TRANSPORTATION OF PUPILS, GIRLS' LATIN SCHOOL

It was agreed that the following extract from the Conference Notes of this date be printed in the record of the meeting:

Chairman: Before we go on with the regular agenda, I think there is an item that all members are very much concerned about and interested in, and I know you will be anxious to have an early report on it.

Mr. Superintendent, in recent weeks there has been concern expressed by residents of various parts of the city who have girls who will be attending Girls' Latin School in the fall. I believe you have been making a study of that situation and arrangements for such transportation.

Would you be ready with a report at this time that you could give the members?

Superintendent: Yes, Madam Chairman. We don't have a formal report here to give you a copy of, but we do have a very fine report which I am sure Mr. Daley will be willing to give to you verbally.

Would you care to do that now, Mr. Daley, telling the School Committee what you did in keeping with their wishes and what the most recent outcome of what you did is as of this afternoon.

Mr. Daley: Yes, sir.

Miss Fitzgerald and Members of the Committee, following directions given to me early in the current school year by the School Committee, and by the Superintendent, I have held several conferences with representatives of the M. T. A. Indeed, my discussions with M. T. A. officials go back to the previous school year.

Chairman: In other words, 1954?

Mr. Daley: Yes, Miss Fitzgerald.

Chairman: In 1954 and 1955?

Mr. Daley: 1954 and 1955. We have been studying constantly the overall picture of expediting transportation from all sections of the city to the Girls' Latin School, which will be located in the Codman Square school building as of September, 1955.

The particular areas of concern were Roslindale, West Roxbury, and Brighton.

Our study and examination of transportation facilities culminated in meetings with Mr. Richard Sullivan, General Superintendent of Transportation and Mr. John J. Callahan, Supervisor, South Surface Lines for the MTA.

Today I received by phone call this information—Mr. Dana and the trustees of the MTA have approved two-way bus service from the West Roxbury and Roslindale areas, and return service to Brighton.

The West Roxbury busses will depart from Spring and Centre Streets at 8.15 A. M., and they will operate via Centre Street, Belgrade Avenue, Corinth Street, Washington Street, Cummins Highway, American Legion Highway, Blue Hill Avenue, Talbot Avenue, to Codman Square. The A. M. operation from Washington and Corinth Streets will be express to Codman Square.

The question of two-way bus service from Brighton to Codman Square was considered at great length. Mr. Sullivan and Mr. Callahan pointed out that street car service and rapid transit transportation from Brighton to Codman Square during the morning hours would allow youngsters to arrive at this destination, Codman Square, more rapidly than the bus service.

In view of this, for the Brighton youngsters, when the traffic is not so heavy in the afternoon, a bus will be available at 2:40 which will operate directly from Codman Square to Brighton. Mr. Callahan also told me by phone that a letter of confirmation is in the mail. This letter approves the two-way bus service from Roslindale and West Roxbury and the one-way afternoon bus service for Brighton.

Chairman: Mr. Daley, isn't this a remarkable kind of cooperation from the MTA?

Mr. Daley: Yes, it is. The MTA has been most cooperative.

Chairman: And isn't it based on the good relationships that we have with them?

Mr. Daley: Yes. We have during the last several years revised the time schedules of our high schools so that there would not be heavy traffic at focal points during the morning hours.

Girls' Latin School will be dismissed at 2:30. Dorchester High School, in the Peacevale Road area, will be dismissed at 2:15; and moving down, the Jeremiah E. Burke High School is dismissed at 2:30. The Roxbury Memorial Girls, at 2:15; and the Roxbury Memorial, Boys, at 2 o'clock. Boston Latin School is dismissed at 2 o'clock; English High School at 2:30. The MTA is very grateful for the cooperation of the head masters in revising their time schedules to avoid congestion at dismissal time.

Chairman: And they were willing to give us this unusual amount of service as far as transportation is concerned because of their past experience with us?

Mr. Daley: Yes.

Mr. Ward: I think we have been kind to the MTA in the past in the requests they have made to us, and I think this is reciproeating in a sense. We have been changing our schedules.

Chairman: I would like to request the approval of the members of the School Committee to have the remarks of Mr. Daley

printed in the public meeting if that meets with your approval.

Mr. Musco: Yes, I endorse that heartily.

Chairman: That will be official.

Mr. Musco: I would like to suggest, too, that the Superintendent's office put a copy of that particular plan on the desk of each one of the members, please.

Mr. Daley: I had it in tentative form today, Madam Chairman and Mr. Musco, but I am awaiting the official letter from Mr. Dana.

Mr. Ward: Madam Chairman, all of these pupils will be advised of this if they live in those areas?

Mr. Daley: Yes. By the way, Mr. Louis McCoy, Head Master of the Girls' Latin School, participated in two of the conferences and is pleased with the arrangements.

Chairman: So all the girls going to the school in September will know how to get there?

Mr. Daley: We plan to inform the girls from all over the city, Madam Chairman.

Chairman: I certainly think you should be commended for the work you have done, Mr. Daley.

Mr. Lee: I wasn't sure I heard you correctly about mornings from Brighton. Mornings from Brighton they would not have a bus but would go—

Mr. Daley: Surface transportatiton in the morning would be slower from the Brighton area to Dorchester than rapid transit is.

Mr. Lee: Just to refresh myself at least on the whole situation, what was the reason we didn't let those who live in Brighton go to the old school? I mean there are plenty of rooms for a portion of the school in the old building, and those who wanted to go to Dorchester could go to Dorchester. Was it because it left too few members to organize a school? Was that it?

Mr. Daley: Yes, I would say so. That is one of the reasons.

Mr. Lee: There are still some reasons we could have had.

Mr. Ward: You would need two head masters, too.

Mr. Daley: Commissioner Desmond has notified the Superintendent—and I believe I was at the conference with him and with Mr. McCoy—that the State Department intends to move in the day the school closes in order to renovate the building for use by the State Teachers' College.

Chairman: Are there any further questions?

Mr. Ward: No.

Mr. Lee: How much of a demand have you heard that those Latin School boys who would like to go to school in Dorchester and go to a coed school be let into this new building?

Mr. Daley: I haven't had any requests.

Mr. Lee: But you have had requests from the girls that it be made coed, have you not?

Mr. Daley: I may have had one or two girls who were hopeful that it might be coed, Mr. Lee.

Mr. Lee: I believe that was the nub of this whole problem, Mr. Daley!

RESOLUTION ON DEATH OF JAMES MORGAN

It was agreed that the following extract from the Conference Notes of this date be printed in the record of the meeting:

Mr Ward: Madam Chairman, at the meeting on May 16, 1955, at my request, the Committee adopted a preamble and resolutions on the death of James Morgan, who was with the Boston Globe for many years.

I now want to read a memorandum and letter on this matter and ask permission to have them both inserted in the record of the meeting.

This is a memorandum from Agnes E. Reynolds, Secretary:

"Mr. Winship, Managing Editor, Boston Globe, called to say that Mrs. Morgan, the widow of James Morgan, was especially pleased with the resolution which was recently adopted by the School Committee.

"He asked that the person who wrote this resolution, Mr. Francis J. O'Connor, also be so informed.

"Mrs. Morgan will include the resolution in a Memory Book which she is having prepared."

The letter to Miss Reynolds says:

"Dear Miss Reynolds:

"None of the hundreds of letters I have received has touched me more deeply than the tribute of the Boston School Committee.

"Bless every member of it for saying what I would most like to hear about Mr. Morgan. Such rare, discriminating insight into a man's real character is seldom seen or expressed. You so sweetly touched on the inner spirit that made him a little different from other men.

"I always have felt he possessed a rare combination of soul and mind. In your tribute you sensed that quality and I am grateful beyond words to you all.

"Very sincerely,

"Helen Morgan (Mrs. James")

I ask that this be inserted in the public record.

Chairman: I am sure that we would all be glad to have that done.

Mr. Ward: We owe a little debt of gratitude to Mr. O'Connor, who composed the preamble and resolutions.

MUSIC ENCOURAGEMENT AND PROMOTION

It was agreed that the following extract from the Conference Notes of this date be printed in the record of the meeting:

Mr. Musco: Madam Chairman, under Chapter 137 of the Massachusetts laws, enacted on Mar. 5, 1953, the subject of music was included in that particular chapter, and it was my feeling as I went about the various high schools and junior high schools and the fourth, fifth and sixth grades in the elementary level that we should try to encourage and promote music within the school system, both vocal music and instrumental. I believe I asked the Superintendent at one time a few weeks back in relation to that particular promotion and encouragement of music. I believe he may have a report ready.

Superintendent: Madam Chairman, Mr. Ohrenberger has been discussing the problem of music encouragement and expansion with Mr. Tierney and perhaps other members of the Music Department. Now I don't know whether you care to make a verbal report at this time, Mr. Ohrenberger.

Mr. Ohrenberger: Mr. Tierney asked for an expansion in his department of an assistant serving immediately under him, and he made other recommendations which we will consult concerning the termination of certain titles with the present office-holders.

In other words, for example, he wanted to expand the teaching of instruments in the junior high schools and even in the lower grades if possible, and also the teaching of vocal music.

I have not had the opportunity to discuss it as yet with the Superintendent, but I have had conferences with Mr. Tierney and other members of the Department. I think there is a provision in the budget for additional funds for the purchasing of instruments to implement this phase of the music program.

Chairman: And that is the status of it at the present moment?

Mr. Ohrenberger: Yes.

Superintendent: Pursuing it further, and following Mr. Musco's original thought, will we be able to make for this School Committee sometime within a month or so a real formal report with recommendations on possible expansion?

Mr. Ohrenberger: Yes, Mr. Superintendent. I would say it would be ready by the next meeting if you want it.

Mr. Musco: Madam Chairman, may I ask, too, that the minutes of this particular meeting be inserted in the public record so that the teachers and the staff and also the parents may be advised of the entire Committee's interest in the promotion and encouragement of music?

Chairman: You mean the discussion on Item 12—this present discussion of Item 12?

Mr. Musco: Yes.

Chairman: Is there any objection to that?

Mr. Ward: I think Mr. Musco's idea is a splendid idea, and I wish we could find some means or methods to encourage it.

Chairman: I think Mr. Ohrenberger will have that at the next meeting.

Mr. Ward: I think one of the most important ways to encourage it is the motion made by Mr. Musco to put it on the public record to let people read it and let them see it. It's a very strange thing. It's strange how few people know what we have to offer in the Boston Public Schools.

Chairman: That's right.

Mr. Ward: That is the strange thing. If they read it, they know it and they know what we are trying to do.

Chairman: That is right.

MILK CONTROL

Mr. Lee: I would like to alert the Committee to the situation regarding milk inasmuch as we have a milk-giving program in our schools.

I have given attention to this matter over the last fifteen years without much success. I find that in the last week or so a gentleman named Mr. Foster Furcolo has brought up the same matter, and his voice has carried much further than mine. On the front pages of more than one Boston newspaper—I just hold one in front of me—he has pointed out that the State Milk Control Board compels producers to sell milk at a higher price than some of them otherwise would, and the citizens of the state are compelled, if they buy milk at all, to buy it at a policedly high price.

I also hold in my hand a copy of Collier's Magazine for April 29th which features a heading: "Milk, 12 cents," and runs a large article on the different prices of milk in different states, pointing out it varies from 12 cents a quart in some states to more than double that in other states.

Now Mr. Furcolo didn't mention one very strange aspect of this situation. At least it wasn't published in the papers. If you buy milk for your family, it's classified as "fluid milk,' and the State Milk Control law compels you to pay a high price for it; whereas if you are a manufacturer of cheese or candy or casein glue or other by-products which use milk, then what you buy is called "surplus milk" and sells at a great deal lower price. So, people who are using milk in unessential ways can buy it very cheaply under Massachusetts law, whereas the housewife must buy it for a high amount.

And when this dealer, whom Mr. Furcolo was concerned with in the western part of the state, and who has been in business with his family, or his family has been in business, since 1814, I believe, tried to sell milk for fewer dollars, he was hauled into court and fined and told not to.

The law says you must not sell milk at less than cost. The gentleman replied that he certainly was not selling milk at less than cost. He was in business to prosper; but nevertheless he had to pay a high fine and desist from his present practice. In other words, the Massachusetts law compels milk dealers to gouge the public.

I bring that up for two reasons —partly, because we should take note of these militaristic trends where the government by force of courts and judges and police prevents citizens from supplying each other on their own pleasant terms and compels them to supply each other on disagreeable terms; and, in the second place, after all, we do buy a certain amount of milk in the schools. We buy it because we are concerned with the high price that mothers must pay for milk. Therefore, if we could use our strength to call public attention to this most ungracious law and help, as Mr. Furcolo is trying to do, to let the milk flow to the dollar in greater quantities, we would be relieving the very difficulty which we have our school milk program to offset. It would be enabling families, as they should, to buy milk without these policedly high state compulsory prices.

On the particular point of our Federally supplied milk, that is really getting off the subject somewhat, because that is where the Federal government comes in again, bidding up the price of milk, making it hard for the housewife to buy it, then taxing the housewife and buying the same milk she wasn't allowed to buy directly, and then giving back in driblets to her children in school the milk it forced her to buy through taxes.

So, now, for a dollar and a half you only get a dollar's worth of milk, and the whole thing is one of obvious obstruction to the supplying of human needs in a happy way between both suppliers and consumers.

I realize that this Committee is not the legislature, and cannot repeal that totalitarian law that is gouging the public. But I did want to help bring it to attention; and, in particular, I would like to ask that Mr. Gillis, who, I think, is in charge of our milk-buying program, take note of the present situation, as I have tried to bring it out. Possibly a way will develop in which this Committee can help in doing away with an obnoxious state law which at pistol point compels dealers to sell their milk to the housewife at a very high amount and lets them dump their milk at often only 50% of that amount to manufacturers and industry.

Chairman: Thank you very much, Mr. Lee, for calling that to our attention.

EDUCATORS' AIR-LIFT

Chairman: I would like to commend Committee member Musco who has arranged for an educational flight for members of our faculties and staffs throughout the city and for School Committee members in order to promote air education and the efficiency of air travel.

Mr. Musco: Madam Chairman, up to this date we have forty complete flights of forty passengers each for a total of 1600 school personnel.

Chairman: They are going to have the experience of flying?

Mr. Musco: They will fly next Saturday between the hours of 8 o'clock in the morning and 7 o'clock at night, and we hope that this "Educators' Air-Lift" will be the greatest mass flight of educational people in this part of the country. It has been very successful so far.

Mr. Lee: Could you tell us just what it is seeking to accomplish, Mr. Musco?

Mr. Musco: Well, actually it is to bring into the air those people who haven't flown as yet, and we have found from our responses that about 70% of the school personnel in the City of Boston who have returned reservation cards—and they total just 1600—have not been in the air, it acquaints them with the thrill of flying, a geography lesson, and an educators' flight over the whole area of Cape Cod and return.

The Committee adjourned.

Attest:

AGNES E. REYNOLDS,
Secretary

June 13, 1955.

A special meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 3:35 P. M., the Chairman presiding.

Present: Mr. Carr, Miss Fitzgerald, Messrs. Lee, and Ward.

CIVIL DEFENSE KIT.

In Milwaukee residents have been notified by the city's civil defense administration to get together kits of nonperishable foods on which their families could live for a week in the open if need be. A 43-pound kit, costing $37, was used for demonstration purposes. In the kit, besides food, were a first-aid packet, water purification tablets, cooking utensils, and cans of canned heat. The entire unit packed in an aluminum laundry mail case doubles as a dishpan, wash basin, and infant bathtub.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

REPAIRS TO BOSTON VENTILATION BUILDING, SUMNER TUNNEL.

The Commissioner of Public Works of the City of Boston, Room 506 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for repairs to Boston Ventilation Building, Sumner Tunnel. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 506 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Repairs to Boston Ventilation Building, Sumner Tunnel," and left at Room 506 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, SEPTEMBER 8, 1955, with a certified check for FIVE HUNDRED SEVENTY-FIVE (575) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 506, City Hall Annex. *There will be a charge of two dollars ($2), NOT REFUNDABLE, for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal contnining such price. The rate per hour of the wnges to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

PLANS PROPOSED FOR COUNTRY-WIDE PUBLICITY POINTING TO ADVANTAGES, BUSINESS, INDUSTRIAL AND OTHERS, OF BOSTON — MAYOR HYNES SENDS NOTICE TO CITY COUNCIL OF OBTAINING SERVICES OF LARGEST PUBLIC RELATIONS FIRM IN WORLD TO SERVE AS PLANS BOARD IN "BOOM BOSTON" EFFORT — ASKS $5,000 TO CARRY ON WORK OF SPREADING INFORMATION.

The following communication has gone forward from the Mayor's Office:

To the City Council.

GENTLEMEN:

On several occasions in recent months, your Honorable Body has adopted orders suggesting that steps be taken to publicize throughout the country the

(*Continued on page 1047.*)

MAYOR HYNES ANNOUNCES $10,000 GIFT FROM FORMER GOVERNOR ALVAN T. FULLER FOR RED CROSS FLOOD RELIEF USE — ALSO GETS CONTRIBUTION FROM MILITARY ORDER OF LADY BUGS, AUXILIARY OF VETERANS OF FOREIGN WARS, IN BOSTON FOR CONVENTION.

Mayor Hynes announced on August 30 that he had received a check in the amount of $10,000 from former Governor Alvan T. Fuller for the American Red Cross. The Mayor extended to former Governor Fuller his personal appreciation for his generous contribution for flood relief and he is forwarding the check to Mr. Thomas Motley, Local Director of the American Red Cross.

The Mayor was in receipt of another check for $372.10 for American Red Cross flood relief presented to him by Miss Anne Perry, Chief of Staff of the Military Order of Lady Bugs, an auxiliary of the Veterans of Foreign Wars. The check represented collections made by the Lady Bugs from members of the Veterans of Foreign Wars who are in Boston. The Mayor extended his gratitude to the Military Order of Lady Bugs through Miss Perry and informed Miss Perry that the check would be forwarded to the American Red Cross.

RULES FOR PAYMENTS OF FLOOD DAMAGES WORKED OUT BY AUDITING DEPARTMENT AFTER APPROVAL BY MAYOR JOHN B. HYNES — INSTRUCTIONS AS TO PROCEDURE ISSUED TO HEADS OF ALL DEPARTMENTS — TO BE CHARGED TO SPECIAL APPROPRIATION FOR "FLOOD EMERGENCY," PROVIDED FOR PURPOSE.

With the approval of Mayor John B. Hynes a set of instructions as to manner and methods of payment to citizens due to the recent flood emergency. These expenditures have been incurred on account of repair of damages caused by the flood. Instructions as to procedure have been issued to heads of all departments. All expenditures are to be charged to a special appropriation. The instructions read as follows:

AUDITING DEPARTMENT.

August 24, 1955.

To: Department Heads.

Subject: Flood Emergency Expenditures.

The following procedure will be adopted in connection with expenditures and liabilities to be incurred on account of the repair of damages caused by the flood.

All expenditures will be charged to the special appropriation: FLOOD EMERGENCY — 3 52-61.

PAYROLLS. — Payrolls for regular service will be chargeable to this account, provided that the employees are performing duties directly connected with flood emergency work and provided, further, that these duties are not the same as duties the employees would ordinarily be required to perform. The payroll charge will be made partly to the regular department appropriation and partly to the special appropriation. Indicate in the remarks column of the preliminary payroll which employees are to be charged to the special appropriation. Please submit separate payroll requisitions for each respective charge and type the words "Flood Emergency" in capital letters at the top of the requisition for the charge to be made to the special appropriation.

Payrolls for overtime service will be chargeable to the special account, provided that the employees are performing duties directly connected with flood emergency work regardless of whether or not the duties are the same as duties that the employees would ordinarily be required to perform. When the emergency overtime work has ended, submit for the approval of the Director of Administrative Services a writing indicating thereon the names, titles, number of hours worked, rate per hour, and total compensation to be paid. Rules and regulations included in the Executive Order of the Mayor pertaining to overtime service will apply. Payment of payrolls for overtime emergency work will be made by means of a special payroll. Please type the words "Flood Emergency" in capital letters at the top of the payroll requisition.

SERVICE ORDERS. — The following statement will be required on all service orders to be charged to the special appropriation, "Flood Emergency":

"I hereby certify that the work proposed to be done under this Service Order is for the repair of damages caused by the flood on August 18-19, 1955."

Signed.....

Department Head or Authorized Official.

MAYOR HYNES APPROVES PLAN OF AUDITING DEPARTMENT REGARDING PAYMENTS TO CITIZENS FOR FLOOD DAMAGE.

(Continued from page 1045.)

The requirement of the Executive Order of the Mayor that three bids be obtained when the estimated cost of proposed work might be more than three hundred dollars but less than one thousand dollars will be waived. The above certification will be accepted in lieu of a letter of explanation. Please type the words, "Flood Emergency," in capital letters at the top of all service orders concerning emergency flood work.

Purchase Orders

The usual procedure for the requisitioning and purchase of supplies, materials, and equipment to be used in connection with flood emergency work will be followed in every respect. The following statement will be required on all requisitions transmitted to the Purchasing Agent for the purchase of such supplies, materials, and equipment:

"I hereby certify that the supplies, materials, or equipment requisitioned hereon are necessary and will be used in connection with the repair of damages caused by the floods of August 18-19, 1955."

Signed:

Department Head or Authorized Official.

Contracts

All statutory requirements regarding the execution of contracts when the estimated cost of work to be performed or supplies, materials, or equipment to be furnished amounts to or exceeds one thousand dollars must be complied with in every respect.

Certificate Required by Commonwealth

In order to obtain reimbursement from the Commonwealth of Massachusetts, the following certification must be on every payroll requisition, service order invoice, purchase order invoice, and special draft to be charged to the special account — FLOOD EMERGENCY — and must be signed by the department head or majority of boards in charge of departments:

"I hereby certify under the penalties of perjury that the work indicated has been performed or that the goods, materials, or supplies have been used for the purpose stated and for no other purpose."

Damage to Buildings

Prepare a list in triplicate of all municipally-owned structures or buildings which have been damaged by the flood with a completely detailed description of the damage and an approximate estimate of the cost of repairs and indicate whether the repair is to be temporary or permanent. A survey of the damage to each building or structure reported will be made by building inspectors of the Department of Public Safety of the Commonwealth.

Estimated Departmental Costs

Transmit the triplicate list of damage to buildings referred to above and an itemized estimate of other costs, for payrolls, and purchases of supplies, materials, and equipment, to the City Auditor, *as soon as possible, but not later than ten o'clock a.m., Thursday, September 1, 1955.*

Your cooperation with the above regulations will be greatly appreciated.

JOSEPH P. LALLY,
City Auditor.

MAYOR ASKS APPROVAL OF CITY COUNCIL FOR PLAN TO "BOOM BOSTON."

(Continued from page 1045.)

business, industrial, and other advantages of Boston. I am pleased to advise you that tentative arrangements have been worked out to accomplish the objectives set forth in the several orders.

The proposal under consideration provides that Public Relations Management Corporation, 380 Madison avenue, New York, the largest public relations firm in the world, with 25 offices in the United States and Canada, will select a group of five of its agency principals, representing different geographical areas, to serve as a Plans Board. This group will meet not oftener than bimonthly, or less than quarterly, with the Mayor and department heads to

(*a*) Advise on public relations problems.

(*b*) Create promotion projects aimed at attracting favorable publicity and good will for Boston.

(*c*) Plan news and feature material for release to newspapers and periodicals throughout the country.

(*d*) Coordinate existing publicity activities.

(*e*) Develop ideas for "selling" Boston to businessmen and visitors.

(*f*) Exploit every opportunity to tell the city's good points and to correct misconceptions.

The Board members will receive no compensation but will be reimbursed for actual expenses incurred in attending meetings.

Mr. Paul A. Newsome, who is president of Newsome & Co., Inc., with offices in the Statler Building, is affiliated with Public Relations Management Corporation and has agreed to serve as chairman of the proposed Plans Board. Colonel Paul H. Hines, industrial counselor in this office, will act in a liaison capacity between the Board and the City.

It is anticipated that the expenses of Board members in attending meetings, together with charges for postage, mimeographing, telephone service, and other administrative expenses, will not exceed $5,000 on an annual basis.

I submit herewith an order providing for the transfer from the Reserve Fund of this amount, and I respectfully recommend adoption of the order by your Honorable Body.

Respectfully submitted,

J. B. HYNES,
Mayor.

CONGRESS STREET BRIDGE CLOSING.

Public Works Commissioner George G. Hyland has announced that Congress Street Bridge, over Fort Point Channel, has been closed to vessel traffic, from eight o'clock, Tuesday, August 30, to four o'clock, Thursday afternoon, September 1, 1955.

This closing was necessary, the commissioner stated, so as to allow repairs and adjustments to be made on the bridge.

During this period there was no interference with pedestrians or vehicles crossing the bridge, Mr. Hyland added.

FURTHER STUDY OF PORT AUTHORITY BILL PROPOSED AFTER CONFERENCE OF MAYOR WITH GOVERNOR AND STATE COMMISSIONER OF PUBLIC WORKS.

On August 25, in company with Corporation Counsel William L. Baxter, Mayor Hynes discussed with Governor Herter and Commissioner of Public Works, John Volpe, the pending bill for the establishment of a Port Authority, which would take over the facilities of the Port Commission, the Sumner Tunnel, the Airport, and the Mystic River Bridge.

The following statement on the Port Authority bill has been issued by Mayor Hynes:

In the opinion of Corporation Counsel Baxter, in which I concur, there is need for some further consideration with respect to some features of the pending bill which affect the City of Boston now and in the future. These matters will be further discussed by legal representatives of the state and city with a view to possible changes in the proposed legislation.

In my opinion, the objectives and over-all purpose of the proposed Authority bill are good, and I am hopeful that the proposed bill can be so worded as to fully protect all of the vested rights in the City of Boston.

TRANSFERS OF APPROPRIATIONS.

The Mayor has approved the following requests for transfers of appropriations:

ADMINISTRATIVE SERVICES DEPARTMENT.
Purchasing Division.

BOSTON, August 1, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Bids on proposals for furnishing "Instant Coffee" to the Boston City Hospital from August 1 to September 30, 1955, inclusive, were publicly opened and read in this office on July 29, 1955.

Subsequent to the public opening of bids, Standard Brands, Inc., one of the bidders, advised us that they were in a position to supply us with our requirements at a price substantially lower than the lowest bidder in the public bid.

Inasmuch as this offer represents a minimum saving of 37 cents per pound over the lowest bidder on the publicly opened bids, it appears to be in the best interests of the city to reject all bids on the public bid and award a contract, without public advertisement, to Standard Brands, Inc., for "Instant Coffee" at a price of 58.75 cents per 4-ounce unit.

Approximate total amount of contract will be $4,993.75, net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BOSTON, August 5, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Hospital Department will need many items of hospital equipment and supplies to cope with the predicted, probably epidemic, increase in polio cases. Amounts and types of equipment and supplies cannot be estimated but will be needed for immediate emergency delivery as soon as determined.

In order to be prepared for any emergency that may arise, it is requested that permission be granted me to dispense with publicly advertising for prices and award contracts, without public advertisement, when and if necessary to the following companies for any hospital equipment and supplies needed during the polio emergency. All purchases will be based on competitive bidding but preference will be given to companies offering immediate delivery wherever the lowest bidder cannot offer immediate delivery. It is estimated that the approximate amounts of contracts will be as follows:

American Sterilizer Company, $10,000, net; E. F. Mahady Company, $2,000; Thomas W. Reed Company, $6,000; Atlantex Corporation, $2,000, net; T. J. Noonan Company, $2,000; J. H. Emerson Company, $2,000, net; W. J. Fitzgerald Corporation, $2,000.

E. F. Mahady Company, Thomas W. Reed Company, and T. J. Noonan Company are offering a 2 per cent discount, time of payment; also W. J. Fitzgerald Corporation.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BOSTON, August 11, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Printing Section of this division is in immediate need of various sizes of paper blocks, ruled and plain. Owing to the urgency for these paper blocks, informal requests for prices were solicited from several companies. Five bids were received, the lowest being that of William R. McAdams, doing business as William R. McAdams Company.

Inasmuch as time is of the essence, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to William R. McAdams, doing business as William R. McAdams Company, for 4,100 dozen paper blocks, various sizes, to be delivered immediately to the Printing Section of the Purchasing Division of the Administrative Services Department.

Approximate total amount of contract will be $2,336, less 2 per cent discount for payment within 10 days.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

CIVIL DEFENSE.

BOSTON, August 19, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MAYOR HYNES:

I am hereby requesting permission to award a contract, without advertising, in an amount not to exceed $8,000 to the R. G. Mearn Company, 363 Albany street, Boston, for the purchase of 11 portable pumps of varying capacities, a sufficient quantity of hard suction and discharge hose with couplings for each of the above, and other civil defense pumping equipment necessary for emergency use.

This equipment will supplement civil defense rescue equipment already in use.

It is my belief that no great advantage will be gained by advertising and the needless delay that would result is not in the interest of public safety.

I hope that this request will meet with your approval.

Respectfully submitted,

JOSEPH L. MALONE,
Director.

HOSPITAL DEPARTMENT.

BOSTON, August 19, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

It is proposed to enlarge, alter, and surface various areas at Boston City Hospital to make increased parking space available. The estimated cost of the proposed work is $20,000.

The trustees of the Hospital Department have voted to request your Honor's authorization to engage the services of Wallace B. Orpin of 1382 Commonwealth avenue, Brighton, as engineer for the proposed work. The engineer shall be paid a fee of 5 per cent of the full amount of the cost of the work, not to exceed $1,000, this contract to include supervision of the work to be done.

Since this contract involves professional engineering services, no benefit would be gained by advertising for bids. It is respectfully requested that permission be given to award the contract to Wallace B. Orpin, without public advertising.

Respectfully yours,

RICHARD J. CONDON,
President, Board of Trustees.

PARKS AND RECREATION DEPARTMENT.

BOSTON, August 16, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

After receiving publicly advertised proposals for removal of dead or diseased elm trees in the City of Boston, Mass., on July 19, 1954, a contract was awarded with your Honor's approval to the low bidder, Fred Ralston & Co., Inc., 22 Linden street, Allston, Mass., in the estimated amount of $137,088.

Under this contract, which is now about completed, we removed about 1,900 dead or diseased elm trees. However, recent surveys show that in spite of all our efforts, the ravages of the Dutch elm disease still continue and we find it necessary to proceed immediately to remove about 700 trees which have recently become infested and are very dangerous.

The Ralston Company has expressed a willingness to negotiate a contract with this department for the removal of these additional dead or diseased trees at the same unit price and under similar specifications as in its previous low bid contract.

We believe the unit price bid under the previous publicly advertised contract was fair and reasonable and our experience has shown that the Ralston Company has the proper type of organization and equipment to do the work with safety and expediency. It is therefore our opinion that nothing could be gained by publicly advertising for bids and that it would be in the best interests of the city to award this company the contract at the same unit price as previously bid.

In view of all this, I respectfully request your approval to award a contract, without publicly advertising for bids, to Fred Ralston & Co., Inc., 22 Linden street, Allston, Mass., for removal of dead or diseased elm trees in the City of Boston, at the unit price of $72 per tree. The estimated number of trees to be removed being 694, the total sum of the contract shall not exceed $50,000, same to be charged to the special appropriation, "Eradication of Dutch Elm Disease" (6-61-43).

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

PENAL INSTITUTIONS DEPARTMENT.

BOSTON, August 19, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

I respectfully request your approval to dispense with publicly advertising for bids and to enter into a contract with Mr. Joseph F. Page, 20 Pemberton square, Boston, Mass., providing for the furnishing of engineering services in connection with the proposed construction of a 300-foot addition to the reinforced concrete sea wall, near the men's prison building, on Deer Island, Boston Harbor, Mass.

The construction of such an addition to the sea wall has become a practical necessity in order to prevent future, periodic, direct and forceful assaults of the ocean's waters upon the aforementioned building and nearby roads which would cause serious and irreparable damage.

The cost of constructing the said addition to the sea wall is estimated to be no more than $30,000. The engineer will be paid the customary fee of 6 per cent of the total cost of construction.

In view of the professional nature of the services involved, and also in view of the fact that Mr. Page was the engineer in charge of construction of the first and second sections of this sea wall and has full knowledge of the requirements for this project, it is felt that nothing would be gained by publicly advertising for proposals for this work.

Very truly yours,

EDWARD L. FRIEL,
Penal Institutions Commissioner.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Joseph Rugo, Inc., has been ordered to remove and replace water pipes so as to accommodate the installation of the new boiler in the J. J. Chittick School, for the sum of $154, and the amount of $154 will be added therefor, making the account as follows: contract price, $307,307; total additions, $1,097.12; amount of contract, $308,404.12.

—

John W. Egan Company has been ordered to make the following deduction from the contract for the Brighton High School:

Omit the painting of Room 210 other than the painting of the ceiling for the sum of $68, and the amount of $68 will be deducted therefor, making the account as follows: contract price, $20,608; total deductions, $68; amount of contract, $20,540.

—

M. Solimando has been ordered to make the following changes in the contract for the Roxbury Memorial High School for Girls:

Item 1. Under Section 6, Playground Equipment. The two coaster slides shall be supplied with stainless steel bedways as opposed to galvanized steel bedways, for the sum of $92.

Item 2. The drinking fountain shown on plan in picnic area shall be relocated in driveway just outside of entrance to tennis and skating area. It is understood that there is no change in contract price to the City of Boston.

Item 3. Install 3-inch min. D. D. copper-bearing galvanized steel corner and line posts to extend 15 feet above grade of yard at locations where fence and conduit posts coincide and install all electrical work as shown. It is understood that there is no change in contract price to the City of Boston.

Total addition, $92, and the amount of $92 will be added therefor, making the account as follows: contract price, $90,624; total additions, $92; amount of contract, $50,714.

EXTRA WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

Park Construction Company has been directed to perform the following extra work under the contract for construction of office building and garage at Arborway and Forest Hills street, Ward 11, Boston, dated January 5, 1955:

Furnish and install ¾-inch galvanized mesh screening over glass in seven doors at Forest Hills yard for the sum of $219.

Furnish and install wire mesh cages over six exterior spotlights for the sum of $31.35.

Estimated cost of extra work, $250.35.

—

Builders Iron Works have been directed to perform the following extra work under the contract for redecking the drawspans of the Congress Street Bridge, over Fort Point Channel, and the Chelsea Street Bridge, over Chelsea River, with steel mesh pavement, dated March 14, 1955:

Furnish and install, as directed, approximately 60 tons of counterweight units for the Congress Street Bridge, as follows:

1. Approximately 46 tons of concrete block units at $75 per ton, in place, $3,600.

2. Approximately 12 tons of pig iron units at $50 per ton, in place, $1,080.

Estimated cost of extra work, $4,680.

EXTENSION OF CONTRACTS.

HOSPITAL DEPARTMENT.

Approval has been given for an extension of time from July 25, 1955, to September 30, 1955, on the contract of John R. Lentine for electrical work in various buildings, Boston City Hospital. This extension was requested because, due to the truck drivers' strike, delivery of materials necessary for the completion of the contract was delayed, therefore, the contractor was unable to complete his work on time.

PARKS AND RECREATION DEPARTMENT.

Dorchester Plate and Window Glass Company have been granted an extension of time until September 15, 1955, for the completion of the contract for repairing and painting greenhouses, Franklin Park, West Roxbury.

PUBLIC WORKS DEPARTMENT.

Approval has been given for an extension of time for the completion of the contract with Baker & Co., Inc., 3475 Washington street, Jamaica Plain, for bituminous concrete pavement in Neponset avenue, from Adams street to Neponset Traffic Circle, from August 15, 1955, to September 30, 1955. This extension was requested because the State Department of Public Works voted to extend the time limit on the work.

PROCEEDINGS OF CITY COUNCIL.

Monday, August 1, 1955.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President HURLEY in the chair, and all the members present.

The Reverend Thomas A. Brennan, S.J., of St. Mary's Roman Catholic Church, Boston, was escorted to the rostrum.

INVOCATION BY REV. THOMAS A. BRENNAN.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Direct, we beseech Thee, O Lord, all our thoughts, words, actions, and deliberations of this Council session that every good work that begins through Thee may by Thy gracious assistance be happily concluded. Through Christ, our Lord.

Eternal God, on this occasion, we recommend to Thee the departed souls of our relatives, friends, and benefactors, especially the former members of our Council Chamber who with the passage of time have gone to the bosom of God to reap the harvest of their labors in life.

During these days of calamity and fear when our nation, our churches, and our homes are a prey to subversive forces, we pledge ourselves to rally under God's standard—a standard echoed by angelic voices—Glory to God in the highest and on earth peace to men of good will.

May the peace and harmony of today's session be but the harbinger of that lasting peace and celestial harmony that we wish to attain in our own lives and by our good example foster in the lives of all those with whom we come into contact. Through Christ, our Lord. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

OLD COLONY HOUSING DEVELOPMENT RENTALS.

The following was received:

City of Boston,
Office of the Mayor, August 1, 1955.

To the City Council.

Gentlemen:

I transmit herewith communication from the chairman of the Boston Housing Authority relative to your order of July 25, 1955, concerning the rentals in Old Colony Housing project.

Respectfully,
J. B. HYNES, Mayor.

—

Boston Housing Authority,
July 29, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Subject: City Council Order of July 25, 1955, on Rentals at the Development at Old Colony, Mass.-19051.

Dear Mayor Hynes:

In reply to your letter of July 28, 1955, on the above subject order be advised that the information requested in that order was forwarded to the chairman of the Executive Committee of the Council, Mr. Joseph White, on June 29, 1955. A copy of that communication is enclosed.

On the same day the Authority forwarded the information to Councillor White a copy of that communication was sent to you for your information.

Respectfully,
JAMES J. MAHAR, Chairman.

Joseph White,
Chairman, Executive Committee.

Subject: Various Estimates of Possible Average Rentals in Relocation Housing.

Dear Councillor White:

In compliance with the request of the several councillors at the meeting on Monday, June 27, 1955, a schedule is enclosed showing various rent possibilities.

This schedule has been reduced to figures on the apartment level instead of treating with a whole development as it is felt this method is more easily understood.

As pointed out in a previous letter to the Council through his Honor the Mayor, any

Referred to the Executive Committee.

estimates are made up of numerous variables all of which can affect rents. Among these variables are:

1. The cost or purchase price of the development;
2. The term of bond amortization;
3. The interest rate of bonds or notes;
4. The payment to the city in place of taxes; and
5. Operating costs.

The present maximum rents being charged at the development at Old Colony are as follows:

Number Bedrooms.	Number Rooms.	Maximum Rent.
1	3—3½	$48.
2	4—4½	$54.
3	5½	$60.
4	6½	$66.

The present average rent at this development is $54.34 a month.

The average rent that would be collected under the new Public Housing Administration schedule would approximate $65.22 a month.

Ten copies of this letter are enclosed so that each member of the City Council may have a copy of it.

The Authority appreciates the kind cooperation of the Council in discussing these problems of mutual interest.

Very truly yours,
JAMES J. MAHAR, Chairman.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments:

Measurers of Grain, for the term ending April 30, 1956: William O'Brien, 37 Prescott street, East Boston; Thomas L. Forrest, 32 Fremont street, Winthrop.

Weigher of Goods, for the term ending April 30, 1956: Joseph Perry, 73 Telegraph street, South Boston.

Severally referred to the Committee on Confirmations.

TO EXTEND FENCE AT MURPHY PLAYGROUND.

The following was received:

City of Boston,
Office of the Mayor, August 1, 1955.

To the City Council.
Gentlemen:

I transmit herewith communication from the Commissioner of Parks and Recreation relative to your order of July 11, 1955, concerning the extension of the fence in the left field of Murphy Playground, Jamaica Plain.

Respectfully,
J. B. HYNES, Mayor.

—

City of Boston,
Parks and Recreation Department,
July 25, 1955.

Harold B. Flemming,
Chief Clerk, Mayor's Office.
Dear Sir:

I desire to acknowledge your memorandum, with enclosure, City Council order of Councillors Hurley and Kerrigan that the Park Commissioner be requested, through his Honor the Mayor, to extend the fence in the left field of the Murphy Playground in Jamaica Plain.

The Chief Engineer of this department reports to me that after examining the height of this fence he deems it not practical to extend it.

Very truly yours,
FRANK R. KELLEY, Commissioner.

Placed on file.

SURVEY OF SEAWARD FENCE AT CASTLE ISLAND.

The following was received:

City of Boston,
Office of the Mayor, August 1, 1955.

To the City Council.
Gentlemen:

I transmit herewith communication from the Commissioner of Parks and Recreation relative to your order of July 11, 1955, concerning the surveying of the seaward fence at Castle Island, with a view to making the fence more secure.

Respectfully,
J. B. HYNES, Mayor.

—

City of Boston,
Parks and Recreation Department,
July 20, 1955.

Harold B. Flemming,
Chief Clerk, Mayor's Office.
Dear Sir:

I have your memorandum of July 13, 1955, with enclosure, City Council order of Councillors Foley, Kerrigan, and McCormack, that the Park Department, through his Honor the Mayor, be requested to make a survey of the seaward fence at Castle Island with a view to making the fence more secure in order to prevent small children from falling into the harbor.

There is approximately 2,400 linear feet of fence at this location. The type of fence to be erected is chain link which costs $2 a foot, the total cost of which would be $4,800. I regret that we have no money in the budget to take care of this work.

Very truly yours,
FRANK R. KELLEY, Commissioner.

Placed on file.

REMOVAL OF OBSTRUCTION AT MAVERICK SQUARE.

The following was received:

City of Boston,
Office of the Mayor, August 1, 1955.

To the City Council.
Gentlemen:

I transmit herewith communication from the General Manager of the Metropolitan Transit Authority relative to your order of June 6, 1955, concerning the removal of the so-called "hump" over the old East Boston Tunnel entrance at Maverick square.

Respectfully,
J. B. HYNES, Mayor.

—

Metropolitan Transit Authority,
July 20, 1955.

Mr. Harold B. Flemming,
Chief Clerk, Mayor's Office.
Dear Sir:

In connection with your communication of June 10, Mr. Downey reports as follows:

"The tunnel was built under specific authority contained in St. 1897, chapter 500, section 17.

"The commission did not have to make a taking for the incline in the park, but did on February 18, 1905, vote to make use of so much of the public street as was necessary to provide an adequate approach to the East Boston Tunnel. (B. T. C. Records, page 3205).

"Apparently the portion of the park in the square not included in the incline or approach remained in the control of the Boston Park Department. It is listed among the public grounds, squares, etc., under the Park Department, in the Municipal Register for 1951, page 69, containing 4,396 square feet. This agrees with the Atlas of 1922.

"It seems clear that the Metropolitan Transit Authority, as successor to all the powers and privileges of the Transit Commission, under the provisions of St. 1947, chapter 544, section 8A (h), is not required to remove this 'hump,' so called, in accordance with the order of the Boston City Council, referred to you June 10, 1955, for the following reasons:

"Mr. Myott reports, as of June 30, 1955, that this opening now affords natural ventilation to the tunnel and that if the hump was removed and the surface paved it would be necessary to construct a ventilating chamber with a power fan to take its place. The 'hump,' therefore, presently serves a useful and necessary purpose. The estimated cost of this work is about $100,000."

Very truly yours,
EDWARD DANA,
General Manager.

Coun. AHEARN in the chair.

The foregoing message was placed on file.

INQUIRY OF CONDITIONS AT BARRY'S LEDGE.

The following was received:

City of Boston,
Office of the Mayor, July 26, 1955.

To the City Council.
Gentlemen:

A recent order adopted by your Honorable Body requested the appointment of a Board of Inquiry to investigate the chronically disturbing situation at Barry's Ledge, off Cummins Highway. Such a Board was appointed by me and has made a survey of the situation. The report of the Board is forwarded herewith. It would appear, from the report, that this matter is being given every possible attention to eliminate the bothersome condition at this location.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Fire Department, July 21, 1955.

Hon. John B. Hynes,
Mayor of Boston.
Re: Report of Board of Inquiry on Situation at Barry's Ledge, Roslindale.
Sir:

1. There has been no permit for dumping at Barry's Ledge, 453 Cummins Highway, since 1943. Recent inspections by the Health Department have shown no visible dumping being done there.
2. The drilling and blasting at Barry's Ledge is being conducted under a valid outstanding permit which carries a bond, and at no time has the Fire Department been informed by the Insurance company of any violation of the terms of the permit. The Fire Department has had an inspection made and finds the blasting operations being conducted under the proper manner.
3. The Fire Prevention Division has contacted all persons suspected to dump there and warned them against the practice.
4. Fires have ceased.
5. The district chief visits the location on his tour of duty. The health inspector and supervisor are making daily inspections. There does not appear to be violations of any matter within the jurisdiction of the Building Commissioner.
6. Police at Station 18 have been asked to keep area under constant surveillance.
7. Recommendations had been made to Mr. Charles Barry
   (a) to post no trespassing signs.
   (b) to cover with clean fill the present area as soon as possible.
   (c) to fence the area in question on the Cummins Highway side.
   (d) to prevent any further dumping.

Mr. Barry has complied with (a), (b), (d), and will comply with (c).

The Police Commissioner was not present at the meeting; he is not permitted to be a member of city boards.

Very truly yours,
FRANCIS X. COTTER, Chairman,
JOHN H. CAULEY,
THOMAS L. FLYNN,
WILLIAM D. QUIGLEY.

Placed on file.

THE NEXT MEETING.

On motion of Councillor Hailer the Council voted that when it adjourn it be to meet on Monday, August 29, 1955, at 2 P.M.

APPROVAL OF BOND.

The constable's bond of Domenic Fagone, having been duly approved by the Collector-Treasurer, was received and approved.

AMENDMENT TO COUNTY CLASSIFICATION AND COMPENSATION PLANS.

The following was received:

City of Boston,
Adminstrative Services Department,
August 1, 1955.

To the City Council.
Gentlemen:

In order to comply with the decision of his Honor, the Mayor, to increase the compensation of the officer personnel at the Deer Island House of Correction and the Suffolk County Jail so as to coincide with the proposed increase for the uniformed forces of the Police and Fire Departments to be effective September 7, 1955, there is forwarded herewith an order amending the County Classification and Compensation Plans which will accomplish the desired results.

These increases in compensation for the officer personnel at the House of Correction and Jail places the maximum salaries on approximately the same level as the officers at the State Prison and complies generally with the recommendations of a recent survey of conditions at both of these institutions.

Your favorable consideration of the accompanying order is hereby recommended.

Respectfully,
JOHN A. SULLIVAN,
Supervisor of Personnel.

Passed under suspension of the rules.

TRANSFER OF APPROPRIATION.

The following was received:

City of Boston,
Office of the Mayor, August 1, 1955.

To the City Council.

Gentlemen:

As you are aware, the 1955 tax rate was declared this year, July 25, nearly six calendar weeks beyond the normal date for such action. This has delayed the work of preparing the tax bills, which constitute the chief revenue producing instruments of the city. In order to avoid unnecessary borrowing, I believe immediate action should be taken to expedite the preparation and mailing of the tax bills. I therefore submit herewith an order providing for the transfer of $10,000 from the reserve fund to the personal services appropriation of the Assessing Department. The amount involved will be used to compensate regular employees who will work beyond regular working hours in order to offset the delay in the processing of the tax bills which has been occasioned by the late declaration of the tax rate.

I respectfully recommend adoption of the accompanying order by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, $10,000, to the appropriation for Assessing Department, 1, Personal Services, $10,000.

The rules were suspended and the order was passed, yeas 8, nays 0:

Yeas—Councillors Ahearn, Foley, Hailer, Hurley, Kerrigan, McCormack, Piemonte, White—8.

Nays—0.

EXECUTIVE COMMITTEE REPORT.

Coun. WHITE, for the Executive Committee, submitted the following:

1. Report on message of the Mayor and order (referred July 11) for appropriation of $70,000 for off-street parking facilities in the Uphams Corner district—recommending that same ought to pass.

The report was accepted and the order was given its first reading and passage, yeas 8, nays 0:

Yeas—Councillors Ahearn, Foley, Hailer, Hurley, Kerrigan, McCormack, Piemonte, White—8.

Nays—0.

The order was assigned for 14 days for final action.

2. Report on message of the Mayor (referred June 13) concerning rentals in the Old Colony Housing development—recommending that same be placed on file.

The report was accepted, and the message was placed on file.

3. Report on message of the Mayor and order (referred June 6) to amend Rule 9 of the County Compensation and Classification Plans to grant credit for prior service in cities of Chelsea, Revere, and the town of Winthrop—recommending that the order ought to pass.

The report was accepted, and the order was passed.

4. Report on notice from Department of Public Utilities (referred July 11) of a public hearing to be held on changes in rates and services of the Metropolitan Transit Authority—recommending that the notice be placed on file and recommending passage of the following order:

Ordered, That the Corporation Counsel be requested to appear before the Department of Public Utilities and strenuously oppose any increase in MTA fares which would prevent people from coming into Boston.

The report was accepted, the notice was placed on file, and the order was passed.

REPORT OF COMMITTEE ON CONFIRMATIONS.

Coun. KERRIGAN, for the Committee on Confirmations, submitted the following:

Report on appointment by the Mayor (referred July 25) of Edward A. Keefe to be constable with authority to serve civil process upon filing of bond for term ending April 30, 1956—recommending that appointment be confirmed.

The report was accepted, and the question came on confirmation. Committee, Councillors Ahearn and White. Whole number of ballots 8, yeas 8, and the appointment was confirmed.

STUDY OF TRAFFIC CONDITIONS AT CONGREVE, WALTER, AND SOUTH STREETS.

Coun. HAILER offered the following:

Ordered, That the Traffic Commission be notified through his Honor the Mayor to make a study of the traffic conditions at the intersection of Congreve street, Walter street, and South street, in Roslindale, in order to alleviate the traffic conditions in that section.

Passed under suspension of the rules.

PLAYGROUND FACILITIES AT CLIFFORD AND STANBRO STREETS.

Coun. HAILER offered the following:

Ordered, That his Honor the Mayor be requested and the Park Commissioner study the possibility of converting city-owned land at the corner of Clifford street and Stanbro street, in Hyde Park, into playground facilities for local residents.

Passed under suspension of the rules.

CONGRATULATIONS TO PRESIDENT HURLEY.

Coun. AHEARN, for All the Councillors, offered the following:

Whereas, Our esteemed and beloved President of our City Council, William F. Hurley, will celebrate a milestone in his career, namely, his 60th birthday on Wednesday, August 3, 1955; and

Whereas, He has determined not to be a candidate for reelection although it is obvious to everyone his reelection would be assured because of his distinguished career and the high esteem in which he is held by the people of Boston; and

Whereas, During his years in office, the longest continuous service in elective office in the history of the City of Boston, he has befriended countless thousands; therefore be it

Resolved, That his colleagues in the Boston City Council extend to President Hurley their felicitations on his birthday and wish him good health, good luck, and Godspeed in his future years.

The resolution was adopted under suspension of the rules.

President HURLEY thanked the City Council for their good wishes, and wished them success in their reelection to the City Council.

CRITICISM OF NORTH CAROLINA OFFICIALS ON LITTLE LEAGUE STAND.

Coun. McCORMACK offered the following:

Whereas, It is a basic tenet of sportsmanship that an athlete's ability is judged, not by the color of his skin, the site of his birth, or the place of his worship, but on his agility, coordination and prowess; and

Whereas, The "Little League" movement has been highly effective in the promotion of this objective in the youth of our nation in inculcating in them at an early age the true spirit of sportsmanship and democracy; and

Whereas, This movement has recently been used to violate these basic premises by the State of North Carolina, in refusing to allow teams to compete in an elimination tournament because there was a difference in the color of the skin of the participants; and

Whereas, This move to flame the embers of hatred and bigotry has been endorsed by the leaders in the "Little League" in refusing to recognize the rightful champions of the State of North Carolina; therefore, be it

Resolved, That the Boston City Council, in meeting assembled, express its disgust in the North Carolina officials who have taught these youngsters to hate, and the Council's disappointment with the "Little League" officials for not taking appropriate steps to rectify this odious situation.

The resolution was adopted under suspension of the rules.

Adjourned at 4.09 P.M., on motion of Councillor Kerrigan, to meet on Monday, August 29, 1955, at 2 P.M.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

(Stenographic copy of such debate on file in office of City Clerk.)

EDUCATIONAL TELEVISION

Mr. Musco: Some time ago I mentioned to the Superintendent the potentiality of educational television, both in school and out of school, for children and adults, and since that time, since our convention in St. Louis, I have had a chance to talk to the Director of the television station, and we feel that educational television for the children and for adults is just around the corner.

We want the administration to do some thinking about it and probably get ready for it within the next few months or few years. Therefore, I would like to submit this the accompanying statement to the Superintendent, to the press and for the public record so that we can start working on it and be ready for it.

Chairman: Mr. Musco, you have served, have you, on a committee for educational television?

Mr. Musco: Yes. I brought the question before the Massachusetts Association of School Committees on May 12, 13, and 14, and they feel this way at WGBH —that the schools should request a study and that their Director would be very happy to consult with the administration.

Chairman: On any program that might tell of the services of the Boston Public Schools?

Mr. Musco: That's right. They feel that the schools should initiate the request, so I would like at least to initiate this request with the Superintendent through the Director so that we may be ready for it some time in the fall.

Chairman: Then you are asking the School Committee to make a resolution, are you Mr. Musco, that the Superintendent arrange with Mr. Joseph A. Hennessey, Director of Visual and Radio Education, is it?

Mr. Musco: Both Mr. Hennessey and Mr. Haley to discuss it with Edward Sherborn, who is the Director of the station.

Chairman: WGBH?

Mr. Musco: Not so much a resolution—

Chairman: Arrange for a program and for program materials for them, is that right?

Mr. Musco: Yes.

Chairman: There is no objection to that.

Superintendent: I will be glad to.

—

The following is Mr. Musco's statement pertaining to Educational Television:

Two years ago Educational Television was but a vision of building a completely new system of telecasting. It was an insight on two levels: one for those who like to walk among familiar workaday things; and another for those who prefer "the wide horizon's grander view."

I. At the pedestrian level, Educational TV simply promised that the wonderful new medium of video would be used more effectively, and more widely, to do a number of useful things. It promised, for example, to bring better teaching into the community's schoolrooms; to bring constructive after-school TV programs to children; to bring more and better cultural programs to those who want them; to bring high school and college courses into the homes for adults; to bring increased know-how to workers and professionals and housewives and craftsmen and business people. And to bring all these things on a continuing schedule at hours when most people are free to tune in their television sets. Such was the pedestrian view of the vision projected by Educational Television.

II. The soaring view of Educational Television cast all this in much bigger terms. It was Educational Television as a great national asset which could:

Open up a great national school available for all to attend—the school of your own living room.

Invigorate the whole democratic process at community, state and national levels.

Increase the real income of workers and professionals and thus raise the prosperity of communities and the whole nation.

Liberate millions of people from the bondage of ignorance and set free their talents for fuller expression.

This vision, at both levels, turns out to be a progressive and forward looking step. A new and positive force has been brought into the lives of those millions who today live within range of Educational TV stations. It is a force that can be made available to all.

So from the viewpoints of formal education, personal safety, economic progress, a healthy society, and national security—from all viewpoints—the need for more information and facts, for more knowledge and understanding, and for more skills is a vivid one.

The urgent case for a better-informed citizenry could be built up indefinitely.

Now is the time for the Boston Public Schools to look ahead into the future and prepare for the use of "in-school Educational Television" for its future citizens. It can project us into unexplored areas of thought and action.

The establishment of Channel 2 WGBH-TV in this area prompts us to study and investigate the advantages of this media of education.

Thus the need for the communication of facts and ideas to

millions of people; and the demand by millions of people for more facts and ideas are both demonstrable.

So, here is where this movement of public school Educational Television comes into our living and learning, and we must accept it.

May I follow-up my initial request to the Superintendent of some weeks ago by asking the administration to confer with the directors of Educational Television, Channel 2, WGBH-TV of 84 Massachusetts Avenue, Cambridge, Mass., to conduct a study of the possibilities of instituting facilities, accommodations, and new equipment in one of our approved school construction projects with a view to future Educational Television programs in the Boston public school system.

PUBLIC SERVICE AWARD TO BOSTON HOME AND SCHOOL ASSOCIATION

The Chairman presented the following communication:

June 20, 1955

Miss Mary K. Fitzgerald,
Chairman
Boston School Committee
15 Beacon Street
Boston, Massachusetts

Dear Miss Fitzgerald:

You will be pleased, I am sure, to know that the Boston Home and School Association has been signally nationally honored by McCALLS magazine for our play program for mentally retarded children, established through the efforts of members of our Special Education Chapter.

The accompanying magazine article appeared in the June issue of McCALLS. Congresswoman Edith Nourse Rogers made the presentation of the Certificate of Merit and the check for $100 on Sunday, June 12, 1955 at the official opening of the Pleasure Island playground at Castle Island, South Boston.

The framed citation has been presented to me to be hung in my office, Room 24.

Very truly yours,
(Signed) GRACE F. MATTAIR
Special Manager

Play program for retarded children wins McCall's monthly club award

McCall's public-service award of $100 goes this month to parents and teachers of the Boston, Massachusetts, Home and School Association, who started a summer recreation program for mentally retarded children and proved that such youngsters often respond wonderfully to a natural atmosphere in which they can play and learn.

Led by Miss Helen Freeman, who teaches exceptional children in Boston Schools, the group received the city's permission to use grounds of historic Castle Island for a "Pleasure Island." Approximately 150 children, aged 7 to 16, came there last summer -and will come again this year—to play, swim and learn according to their energies and talents.

Free transportation is provided by the local transit company. Parents help prepare hot lunches and serve free milk. Normal youngsters are encouraged to accompany their brothers or sisters.

In the winter, recreation and instruction are provided for these same children at Curtis Hall Recreation Center.

"The reward in this work is watching the unfolding of personalities which hitherto have been stifled because no one dared give them a real chance to enjoy life," said Mrs. Edward Reardon, a mother member of the association.

Chairman: I think it is very significant that Boston has been singled out for this citation from McCall's Magazine. There was an article in the magazine which told just exactly what is done at Pleasure Island. Approximately 150 children between the ages of seven and sixteen came there last summer for the first time, I believe it was, and will come again this year for the 1955 season to play, swim, and learn according to their energies and talents.

Parents help prepare hot lunches and serve free milk. Normal youngsters are encouraged to accompany their brothers and sisters. In the winter, recreation and instruction are provided for these same children at the Curtis Hall Recreation Center.

I think it is a unique effort on the part of the City of Boston to take care of children who heretofore have not received such consideration.

Would you care to make any comment at this time, Dr. Gillis?

Dr. Gillis: We are all delighted with the national recognition of our Home and School Association. Mrs. Edith Nourse Rogers came on from Washington and, with Mr. Carr, presented the check for $100. Then she turned around and gave $10 of her own money.

BOSTON PUBLIC SCHOOL TEACHERS RETIREMENT FUND

The following communication was presented:

March 9, 1955

Dr. Dennis C. Haley
Superintendent of Public Schools
15 Beacon Street
Boston 8, Massachusetts

Dear Dr. Haley:

At the regular meeting of the Board of Trustees of the Boston Public School Teachers' Retirement Fund held on March 8, 1955, the Secretary was ordered to send to you the notarized results of the ballots voted upon by the teachers in the service of the City of Boston in January 1955, with the request that these be reported to the School Committee at its next meeting.

The increase in assessments approved by the vote of the teachers on Item No. 1 of the ballot will be effective upon the passage of the bill by the legislature and the other proposals voted upon at this time will be taken care of as soon as possible.

Very truly yours,
(Signed)

ANNUAL REPORT OF THE SUPERINTENDENT

A communication was received from the Superintendent, under date of June 27, 1955, submitting the 72nd annual report of the Superintendent of Schools.

The report covers the school year ending Aug. 31, 1954.

Placed on file.

Chairman: I would like to ask this question, Mr. Superintendent, and perhaps you can enlighten the Committee as to the method of distributing this Annual Report. I have heard this school system undersold in many places in the Commonwealth. I would like to see that this Report gets to other cities and towns in the Commonwealth—to Superintendents of Schools elsewhere, and within the City, to those people who are editors, opinion-molders like editors of papers and so forth. Do you have such a plan?

Superintendent: Yes, I do, Madam Chairman. I will send them to editors, to the Chamber of Commerce, and to the libraries. I have picked out a large number of doctors, dentists, barbers and I am sending these to those particular spots.

In other words, I have selected two or three thousand spots where people come together and have a chance to sit down and read.

Chairman: I would just like to commend the Superintendent for the pictorial presentation which is excellent.

Mr. Ward: I agree with you. I want to go back just a few years. At that time the Superintendent's Annual Report was a booklet, just a small printed booklet. In my lifetime I never have met one person out of a thousand who ever picked it up and read it. This Annual Report really has something lively in it.

Chairman: May I, for the members, commend the Superintendent for presenting it in this form, and hope that he will distribute it as he has reported.

SINGLE SALARY SCHEDULE

A statement from Mr. Lee, condensing proposals made by him in discussion of the Budget last

spring—printed at the request of Mr. Lee with the consent of the Committee:

The "Single Salary Schedule" is neither single, a salary, nor a schedule.

It is not single. It is twenty-two dissimilar amounts of money, paid each year to different classroom teachers—quite aside from still other amounts paid to teachers with administrative duties.

It is not a salary. It is a collection of various salaries.

It is not a schedule. It is twelve different schedules.

You can no more call it a "Single Salary Schedule"—merely because it treats teachers in lower schools and teachers in higher schools alike—than you can say that a perambulator is the same thing as a locomotive because neither of them can climb trees.

Not only does the "Single Salary Schedule" call for one schedule of pay for those with a bachelor's degree of education, and another schedule of pay for those with a master's degree of education, but it affords still another schedule for the individual who starts steady teaching with a bachelor's degree and then gains a master's degree after his first year, and another schedule still for him who starts with a bachelor's degree and gains a master's degree after two years, and another schedule yet for the teacher who starts with a bachelor's degree and gains a master's degree after three years, and so forth.

Those teaching in our school system may experience any one of these twelve different schedules—if we are to follow a proposal made by the "Teachers' Alliance" in a plea to the School Committee entitled "Petition . . . for the completion of the $5500-$5900 Single Salary Schedule . . ." submitted on January 25, 1955.

The different teacher salaries embodied in this proposal by the Alliance are set forth in the following column.

$14 a day.
$16.67 a day (long-term "temporaries" at $3,000 a year).
$19.47 a day (when bachelors first appointed to steady work).
$20.70 a day.
$21.68 a day (when masters first appointed to steady work).
$21.93 a day.
$22.91 a day.
$23.17 a day.
$24.14 a day.
$24.40 a day.
$25.38 a day.
$25.63 a day.
$26.61 a day.
$26.87 a day.
$27.84 a day.
$28.10 a day.
$29.08 a day.
$29.33 a day.
$30.31 a day.
$30.60 a day (tops for bachelors).
$31.54 a day.
$32.80 a day (tops for masters).

It is clear, then, that the proposal before us is not for a single salary. Nor is it for a single salary schedule, or "single salary experience," to be shared by all alike in their teaching lives. It can, however, be descriptively, if obliquely, termed a "Wolladoo Salary Schedule."

For this "Single Salary Schedule"—or more properly "Wolladoo Salary Schedule"—does not care, in its many distinctions of salary, toward what subject of instruction the teacher is heading, nor toward what pupils, in high school or low school. But this salary schedule, in the various salaries accorded by it, wants to be perfectly sure where the teacher has been, when last a pupil himself. An instructor teaching first grade spelling, for instance—under this "Wolladoo Salary Schedule" that looks not where the teacher is going—would receive no more nor less than an instructor of 12th grade algebra. But the schedule does look backward to see whether either of these instructors had a master's or a bachelor's degree when he was a pupil, and pays them diverse amounts accordingly. In short, under the proposal placed before us by the Alliance, one teacher's pay is not to be differentiated from another's by virtue of degrees of teaching, but only by virtue of teaching degrees.

(It will be recalled that the Wolladoo bird flies backward because he does not care where he's going but wants to be perfectly sure where he's been).

A Specialized World Ahead of Us

However, this is a specialized world. If citizens outside the school system persist in coming forward with many dollars to engage machinists and engineers to make American products, and if, then, our industrial courses, our trade courses, and our shop courses are left with few mechanical teachers—which is on the brink of happening today—one could hardly blame the School Committee for going out into the byways with an offer to men with mechanical ability larger than its offer to teachers with only academic abilities.

Surely, it takes more ability and preparation in a person to become a machine-tool designer than to become a lawyer or professor.

Indeed, it is pressing the free world into an unsubstantiated and impractical uniformity to expect that teachers of kindergarten, teachers of industrial courses, and teachers of Latin, all with their diverse backgrounds, will come forward in just the right numbers to meet our different numerical requirements for these dissimilar subjects—if we offer only the exact same number of dollars to each.

Where we need three times as many English teachers as bookkeeping teachers, why assume that the same payment will entreat just the right numbers of each into those different-sized fields?

—

Feminine Teachers Unregimentable

Women teachers inject a special and unconformable factor into the multiple series of salaries called a "Single Salary Schedule" as well as into any biographically ascending salary series.

Most women get married in their 20's. The average marrying age for women today in the United States is twenty years and four months. Women teachers are not peculiar.

If the average woman teacher, then, gets married at least in her 20's, after four or five years of teaching, how can it be said that she has enjoyed the same salary experience as a man whose career is not interrupted by marriage?

Under the proposed "Single Salary Schedule," or under any other salary schedule arranged on yearly increments, it is almost impossible to equate the woman's salary experience with the man's.

Even if the lady teacher, marrying in her fifth year of teaching, comes back to teach after fifteen years—when her youngest child can go to school with her—she still does not share quite the same salary experience as the man: and certainly half of our teachers will not come back to teach when their family grows up.

High School Salaries Already Reduced Under "Single Salary" Trend

In the respected efforts of the Alliance, so far, to leave some teachers with higher salaries than others, but not because one teaches in high school and another in lower school, it is noteworthy that those in our lower schools are today receiving a salary five per cent greater in buying power than twenty years ago—while those in our upper schools are receiving today a salary twenty-five per cent lower in buying power than twenty years ago.

—

Recommendations

With these various circumstances in mind, it is my suggestion that those entering our teaching ranks in the lower schools come in upon an initial salary two or three rungs higher than the present minimun, but that their maximum salary in our lower schools be set no higher than at present. The lower schools, in short, would have a shorter range of salary increments than now. Such a higher starting salary for those entering our lower schools would turn the finest young women in our region toward teaching in our elementary schools. That the maximum salary attainable in our lower schols would be no

higher than now would hardly be a discouraging factor for young women who expect to get married long before they reach their maximums anyway.

On the other hand, maximum salaries in our upper schools, higher than those in our lower schools, would be a very favorable factor in turning young men toward teaching in our higher schools—since a high maximum is very much of a factor in the uninterrupted teaching careers of men.

The net result of such a salary establishment on our part would be to attract young women into our lower schools where they ought to be, and to attract young men into our upper schools, where they ought to be.

And salaries received in the young ladies' short career in lower schools before marriage, would be more nearly equal to the average salary received by men in their long career in the upper schools.

Should a young lady decide ahead of time never to give her hand in marriage, the door is still open for her to teach in our higher schools with their greater maximum. Or, if such a one still prefers to enter the elementary schools, she would partway make up, in her early high minimum, what she loses in her ultimate lower maximum.

—

"Temporaries"

It goes without saying, in this, that teachers classed as "temporary" in either our lower or higher schools should receive more than their present $14 a day. Perhaps they should receive only 3 increments less than the minimum salary received by those appointed for life. That would mean $17 a day for "temporaries".

It is irrational to pay the 213 women over fifty years of age—many of whom have either bachelor's or master's degrees—now teaching in our schools year after year, only the present $14 a day, when other teachers of the same age are today receiving at least $27.40 and often $31.20—about twice as much.

—

MA and AB Degrees Foist Needless Salary Rift.

It is also apparent that I would recommend no differences of salary between holders of bachelor of art's degrees and master of art's degrees.

As already stated, it is when shop teachers withdraw into industrial occupations outside of our schools that we rush forward with dollars to bring them back—in a greater offer than to other teachers, never mind who has a master's degree and who hasn't.

Or, again, if kindergarten teachers jumped into matrimony with particular rapidity, we wouldn't just close up our kindergartens. We would press a higher offer of dollars upon those who teach our kindergartens, irrespective of their holding a bachelor of art's or a master of art's degree.

If we want to make distinctions of salary between one teacher of arithmetic and another teacher of arithmetic working side by side with the same pupil ages, we can give more dollars to the good teacher and less to the bad, rather than more to the one whose background is supposed to make him good and less to the one whose background is supposed to leave him less good.

—

Junior High Schools

In the foregoing, references to high schools or upper schools are meant to include junior high schools. This, then, would and does imply the receiving of larger salaries by junior high school teachers every year, until they reach the present 1955 maximum of high school teachers.

CONSULATES IN ARREARS ON TAXES.

New York City reports that 12 foreign countries are in arrears a total of $116,985 in real estate taxes on 27 properties, most of them bought within the last 15 years as consulates and headquarters for United Nations delegations.

Nearly all of the defaulting governments claim the right to city realty tax exemption under treaties and international doctrines, but the city has refused to waive its claims. Total assessed valuation is $5,324,000, with $720,000 exempt from tax. Finland, the Netherlands, and Israel have kept their real estate accounts paid up to date.

PRINTING SECTION OF LIBRARY DEPARTMENT TO BE TRANSFERRED TO CITY PRINTING DEPARTMENT IN MOVE FOR ECONOMY — ADMINISTRATIVE SERVICES DEPARTMENT ANNOUNCES—ECONOMY AND SAVINGS IN MAN POWER COSTS AND LABOR AIMED AT.

Plans are under way for the transfer of the Printing Section of the Public Library to the City Printing Department. This is a move in the interest of economy aimed at effecting huge savings in man power, costs, and labor, according to the proposal of the Administrative Services Department. The letter to Mayor John B. Hynes announcing the plans and seeking his approval reads as follows:

CITY OF BOSTON,
ADMINISTRATIVE SERVICES
DEPARTMENT,
August 15, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

LIBRARY PRINTING SECTION TRANSFERRAL TO CITY PRINTING PLANT.

(*Continued from page 1081.*)

Printing Plant, which will result in substantial reductions in the amount of time previously consumed in the printing of police and voting lists, this Board is of the opinion that the establishment of a new work program at the City Printing Plant to utilize efficiently the time saved in this one operation alone should include plans at the present time for the abandonment of the Printing Section at the Boston Public Library, and transfer of its operations to the City Printing Plant.

This proposed consolidation has been contemplated since August of last year after a survey was conducted by an expert on municipal printing operations whose findings were checked by employees of the Administrative Services Department, but definite action has been deferred until such time as the City Printing Plant's electrical power has been converted from direct to alternate current, and this is being accomplished at the present time. This conversion is mandatory because of the fact that all up to date, modern printing equipment requires AC current, including the addressograph-multilith equipment now being installed.

At the beginning of 1954, the present staff in the Printing Section of the Library Department consisted of five employees, and due to the retirement of three employees during the latter part of 1954, which vacancies were never filled because of the contemplated consolidation, only two members of the staff, one linotype operator and one cylinder pressman, remain, and it is proposed to transfer these two employees to the Printing Plant upon consolidation. It will be unnecessary to fill the positions caused by retirements in the event the consolidation is effected, as the Printing Plant has an ample supply of skilled help.

The operating costs of the Printing Section at the Library increased over 58 per cent in the 10 year period from 1945 through 1954; its present equipment is outmoded and worn out except for one press with an AC motor which can be transferred to the City Printing Plant; all other machine equipment has an average age of 35 years and its turn-in value is estimated in the vicinity of $1,000; lighting is poor; costs for paper stock are extremely high because of small lot purchases. To place this section in first-class condition would cost in the neighborhood of $100,000, requiring the purchase of three new typesetter machines, two new presses, new lighting equipment, and the acquisition of at least two additional employees.

To accomplish the consolidation proposed, it would require the transfer of two employees plus usable equipment which has an estimated value of $25,000. All other equipment would be turned in toward the planned purchase out of the Equipment Loan of a new Mergenthaler linotype machine to be installed in the Printing Plant. This purchase was proposed in connection with the over-all equipment replacement program of the Printing Plant, but nevertheless it will serve to handle not only the printing requirements of the Library Department but other departments as well.

From the standpoint of good administration and good business, I am summarizing herewith several reasons why the

Board believes this proposed consolidation should be effected at the earliest possible date:

1. It will eliminate a division whose work is a duplication of work now being performed by another division.

2. It will make unnecessary the filling of three positions at a savings of $14,625 annually.

3. It will centralize printing operations in an area consigned to such work.

4. It will decrease the costs of paper and other materials required through volume purchases.

5. It will relieve the Public Library of all accounting, record keeping, maintenance, personnel problems, purchasing, and other functions which attend the operation of a printing plant.

6. It will obviate the necessity of purchasing new equipment and renovating the Printing Section of the Library at a cost of approximately $100,000.

7. It will place at the disposal of the Public Library a shop staffed by a larger group of skilled and versatile craftsmen which is capable of producing many times the volume now possible in the Public Library Plant, even if it were fully staffed.

8. It will make available additional space for the Library to possibly expand its bindery operations which section at the present time is inadequate and poorly lighted.

Excessive costs at the City Printing Plant are due, without question, to non-productive time in the book composing and cylinder press rooms in the printing of police and voting lists.

The ideal and permanent solution would be to secure sufficient additional volume to increase the production hour percentage of the entire plant. We believe the consolidation of the Boston Public Library Printing Plant is a major step in this direction, since the character of the work is within the skill range of the City Printing Plant's personnel. As the volume of productive work rises, production costs will decrease, thereby making it possible for the Printing Plant to offer more attractive prices to city and county departments utilizing its services.

With your approval, the Board will suggest to the Library Trustees that steps be taken at an early date to abandon the Printing Section of the Boston Public Library and transfer its operations to the City Printing Plant as recommended.

Sincerely yours,

CHARLES J. FOX, *Chairman*,

ADMINISTRATIVE SERVICES DEPARTMENT.
Purchasing Division.

BOSTON, August 23, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Fire Department has submitted a requisition to this office for one (1) government surplus federal 10-ton wrecker as per specifications. This wrecker is obtainable only from Bertha Karas, doing business as Karas Truck Sales.

Inasmuch as this company is the only source of supply, it is my opinion that no advantage would be gained by publicly advertising for bids. Authority is therefore requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Bertha Karas, doing business as Karas Truck Sales for the above equipment.

Approximate total amount of contract will be $3,750 net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

—

BOSTON, August 24, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In accordance with the provisions of the letter approved by your Honor on January 24, 1955, authority is requested to award a contract, without public advertisement, to the following company for furnishing perishable foods to the various city departments from August 24, 1955, to March 31, 1956: Genoa Fisheries, Inc., doing business as Boston Bonnie Fisheries, 295 Northern avenue, Boston, Mass.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

—

BOSTON, August 25, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This office is in receipt of a requisition from the Treasury Division of the Treasury Department for 300 metal file drawers to be delivered immediately.

Boston Desk Company, Inc., has quoted a price on the above equipment and can make immediate delivery. Inasmuch as time is of the essence, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Boston Desk Company, Inc. It is my opinion that, in this way, the best interests of the city will be served.

Approximate total amount of contract will be $1,750, net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BOSTON, August 25, 1955.
HON. JOHN B. HYNES,
Mayor of Boston.
DEAR MR. MAYOR:

This office is in request of a requisition from the Fire Department for twenty (20) S 200 SOS nozzles to be delivered immediately.

Informal requests for prices were solicited from five companies. American-LaFrance Foamite Corporation was one of four tie bidders that responded.

Inasmuch as time is of the essence, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to American-LaFrance Foamite Corporation. It is my opinion that, in this way, the best interest of the city will be served.

Approximate total amount of contract will be $1,048, less 2 per cent discount, for payment within 30 days.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

—

BOSTON, August 25, 1955.
HON. JOHN B. HYNES,
Mayor of Boston.
DEAR MR. MAYOR:

This office is in receipt of a requisition from the Fire Department for 1,000 gas mask canisters to be delivered immediately.

American-LaFrance Foamite Corporation has supplied these canisters in the past and on previous publicly advertised bids for identical equipment this company has been one of several tie low bidders. This company has quoted a price on the above equipment and is in a position to make immediate delivery.

Authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to American-LaFrance Foamite Corporation. It is my opinion that, in this way, the best interests of the city will be served.

Approximate total amount of contract will be $6,800, less 2 per cent discount, time of payment.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

CIVIL DEFENSE.

BOSTON, August 29, 1955.
HON. JOHN B. HYNES,
Mayor of Boston.
DEAR MAYOR HYNES:

I am hereby requesting permission to award a contract, without advertising, in an amount not to exceed $3,500 to the R. G. Mearn Company, 363 Albany street, Boston, for the purchase of six portable pumps, a sufficient quantity of hard suction and discharge hose with couplings for each of the above, and other civil defense pumping equipment necessary for emergency use.

This equipment will supplement Civil Defense rescue equipment already in use.

It is my belief that no great advantage will be gained by advertising and the needless delay that would result is not in the interest of public safety.

I hope that this request will meet with your approval.

Respectfully submitted,

JOSEPH L. MALONE,
Director.

PARKS AND RECREATION DEPARTMENT.

BOSTON, September 1, 1955.
HON. JOHN B. HYNES,
Mayor of Boston.
DEAR SIR:

The lease for the refreshment privilege in the Refectory Building in Franklin Park, now held by John P. Burke of 22 Myrtle street, Jamaica Plain, expires on September 30, 1955.

This concession has been held by the Burke family since 1928, a period of 27 years. It was first granted to William J. Burke and was held by him until his decease in 1939, and since then by his son, John P. Burke. The business has always been conducted in a manner satisfactory to the officials of this department and the rental has always been paid promptly when due.

I believe nothing would be gained by publicly advertising for bids on this concession and I therefore respectfully request your permission to award a new lease to John P. Burke, 22 Myrtle street, Jamaica Plain, for the refreshment privilege in the Refectory Building, Franklin Park, for a period of five years from October 1, 1955, to September 30, 1960, at an annual rental of $5,000.

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

—

BOSTON, September 1, 1955.
HON. JOHN B. HYNES,
Mayor of Boston.
DEAR SIR:

Since 1949 this department has rented space in the golf building at Franklin Park to Mr. John P. Burke, 22 Myrtle street, Jamaica Plain, for a tonic vending machine. Mr. Burke is now paying an annual rental of $100 for the space allotted him.

This refreshment service is greatly appreciated by golfers at the Franklin Park course and has always been conducted satisfactorily by Mr. Burke, who also conducts the refreshment dispensing business in the Refectory Building.

I believe nothing would be gained by publicly advertising for bids on this small concession and I therefore respectfully request your permission to award another lease to Mr. John P. Burke, 22 Myrtle street, Jamaica Plain, for space in the Golf Building at Franklin Park for a tonic vending machine, for a period of five years from October 1, 1955, to September 30, 1960, at an annual rental of $100.

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

PUBLIC WORKS DEPARTMENT.

BOSTON, August 2, 1955.
HON. JOHN B. HYNES,
Mayor of Boston.
DEAR MR. MAYOR:

Recently, work was started on a contract in the amount of $15,000 for repairing the highway bridge which spans the right-of-way of the New York, New Haven & Hartford Railroad, and is located on Massachusetts avenue, South End, between St. Botolph street and Columbus avenue.

When the granite block surface was removed and the concrete deck exposed, the latter was found to contain badly disintegrated concrete, due, in our opinion, to frozen concrete placed at the time that the bridge was constructed in 1926. Investigations disclosed that the concrete was placed in January of the above-referenced year during cold weather, and this disclosure seems to confirm our opinion that the concrete was frozen when poured or that the concrete was seriously weakened by an additive that was introduced to prevent freezing. In any event, when the above-referenced condition of the concrete deck was found, we decided to effect whatever temporary repairs were necessary and to cancel the remainder of the contract, as the condition of the bridge did not justify spending a large amount on repair work at this time, particularly in view of the fact that the plate girders of the bridge, as explained below, present a definite hazard to the safety of motorists, and the entire bridge should be replaced in the next three or four years.

Massachusetts avenue, at the site of the bridge, is divided into three distinct roadway areas, separated by two plate girders that loom ominously 4 to 5 feet above the roadway surface. Such a condition is basically dangerous, as it provides an extreme hazard for the safe passage of motor vehicles on this highly-congested and relatively high-speed highway. Generally speaking, all such bridges in the city should be removed and replaced with continuous beam spans, if possible, so as to eliminate all girders that extend above the roadway surfaces. The latter condition has been the cause of many fatal accidents in this city over the years.

A preliminary study has determined that it will be feasible to eliminate the existing girder structure and replace it with a continuous beam span, at a cost of approximately $200,000. I feel therefore that no further steps should be taken to effect major repairs to the existing hazardous structure, as the money would be better spent for a new structure. In order to provide for the removal of the present bridge and its replacement with a new modern structure before the end of the current construction season, immediate steps should be taken to award a contract to a competent firm of consulting engineers for the preparation of the necessary plans and specifications.

I have therefore negotiated with the newly-organized engineering firm of William A. Fisher Company, Inc., and said firm has agreed to undertake the work involved in the preparation of plans, specifications, and related services for the construction of a new highway bridge at the above-referenced location, at a fee based on 6.31 per cent of the construction cost, in accordance with the schedule of fees provided in the manual of the American Society of Civil Engineers. While the above-referenced firm is new in the consulting engineering field, I am familiar with the qualifications and background of its officials and key personnel, and I am confident that said firm can render the required services in an efficient and satisfactory manner, in keeping with the high standard of services rendered by consulting engineers that have been engaged by this department over a period of years. There obviously is no advantage in publicly advertising for proposals for professional services of the kind to be included in the subject contract, as it is my unqualified opinion that this type of contract should

not, in the best interests of the public, be awarded on the basis of publicly advertised proposals.

I respectfully request, therefore, your authority to dispense with advertising, and to award a contract to the engineering firm of William A. Fisher Company, Inc., 14 Court square, for the furnishing of design drawings, contract plans, specifications, and related services for the construction of the above-referenced highway bridge which is located on Massachusetts avenue, between St. Botolph street and Columbus avenue, with the understanding that the fee will be computed on the basis of 6.31 per cent of the cost of construction, provided that if any or all of the work designed is not constructed, the engineer shall be paid a fee based on 5.81 per cent of that part of the work designed and not constructed, and with the further understanding that the total fee will not exceed $12,620.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

CHANGE IN CONTRACT.

DEPARTMENT OF SCHOOL BUILDINGS.

M. Solimando has been ordered to make the following changes in the contract for the Girls' Latin School:

Additions.

Rooms 55 and 57, in the Annex, are shown as storage rooms on present plans, but are to be made into classrooms.

Install 21 No. 7050P Gill classroom fixtures in place of the 15 DER Wheeler fixtures that are shown on plans. Two Simplex classroom clocks are to be added with a feeder of 3/12-inch conduit to be run back to the low-tension panel in basement corridor. Install additional outlets for the extra number of fixtures. Also, a feed for an additional pump in the Fan Room is to be run back to a location of the oil tank. Install a 30-ampere switch at the location of the new pump motor and pump connected to same.

Total cost of this additional work will be $525, less a credit of $55 for the fixtures which were originally specified for Rooms 55 and 57. Addition, $470, 10 per cent general contractor, $47; total addition, $517.

Deduction.

For omitting preparation of floor and installation of asphalt tile in Room 44 of Main Building, deduct, $200.

Total addition, $517; total deduction, $200; net addition to be added to contract, $317, and the amount of $317 will be added therefor, making the account as follows: contract price, $172,842; total additions, $5,894; amount of contract, $178,736.50.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for an extension of time for the completion of the contract with John M. Kennedy Company, Inc., for interior and exterior painting, including fire escapes, at the Chapman School, from August 30, 1955, to September 30, 1955. This extension was requested because of excessive heat and rainy weather which prevented finishing of outside painting.

Approval has been given for an extension of time for the completion of the contract with M. Solimando for general modernization work at the Girls' Latin School, from September 2, 1955, to September 30, 1955. This extension was requested because of additional work added to original contract and the steel strike.

—

Approval has been given for an extension of time for the completion of the contract with Faneuil Construction Company for interior and exterior painting, including fire escapes, at the Peter Faneuil School, from September 2, 1955 to October 30, 1955. This extension was requested because of labor conditions.

—

Approval has been given for an extension of time for the completion of the contract with D. Antonellis, Inc., for modernization of plumbing facilities at the Bigelow School, from September 2, 1955, to October 30, 1955. This extension was requested because of delay in obtaining necessary marble to complete plumbing work.

PUBLIC WORKS DEPARTMENT.

Approval has been given for an extension of time for the completion of the contract with C. Russo, Inc., for sewerage works in Wilton street, Hyde Park, from August 22, 1955, to September 16, 1955. This extension was requested because the floods caused by the recent rains halted the work.

POLICE DEPARTMENT ORDERS.

General Order No. 2,995.

Patrolmen John J. Carroza and Joseph A. Vellante of Division 10 are commended and each is granted two days' additional vacation for meritorious police work performed on July 7, 1955.

While on their way home after completing a tour of duty, these officers observed an automobile containing four men, two of whom answered the descriptions given out on the teletype earlier that evening as wanted for an assault and robbery in a liquor store. The officers pursued this car to a point where they forced it to the curb and, with drawn revolvers, placed all four suspects under arrest.

The victim of the holdup made positive identification of two of the men as those who had assaulted and robbed him and also identified liquor found in the car as having come from the stock in his store. All four men, including the owner of the car used in the holdup, are being held in substantial bail for the Grand Jury.

The commissioner is pleased to recognize the alertness and courage of Patrolmen Carrozza and Vellante in effecting these important arrests while off duty.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

CITY OF BOSTON.

HOSPITAL DEPARTMENT (SANATORIUM DIVISION).

INVITATION FOR PROPOSALS FOR FABRICATION AND INSTALLATION OF FURNISHINGS; AND THE DELIVERY AND INSTALLATION OF EQUIPMENT, FOR THE NURSES' AND EMPLOYEES' CAFETERIAS AT THE BOSTON CITY HOSPITAL, SANATORIUM DIVISION, 249 RIVER STREET, MATTAPAN 26, MASS.

The City of Boston, by the Board of Trustees, Hospital Department, and of the Boston City Hospital, hereinafter referred to as the Awarding Authority, invites sealed proposals for fabrication and installation of furnishings; and the delivery and installation of equipment, for the nurses' and employees' cafeterias at the Sanatorium Division of the Boston City Hospital, 249 River street, Mattapan 26, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, September 28, 1955, at the office of the Assistant Superintendent, Sanatorium Division, 249 River street, Mattapan 26, Mass., at which time and place they will be publicly opened and read aloud.

Proposals must be submitted in duplicate on forms obtained from the office of the Assistant Superintendent. Each copy of the proposal shall be properly filled out, signed and enclosed in an envelope, sealed and plainly marked with the description of the work to be done. One copy shall be filed at the office of the Assistant Superintendent, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of $600, shall be submitted with the copy of the proposal filed with the office of the Assistant Superintendent. The bid deposit shall be in a separate envelope, properly marked.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of the contract.

Specifications may be obtained at the office of the Assistant Superintendent on or after 12 o'clock noon, Tuesday, September 13, 1955.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any or all bids if it be in the public interest so to do.

The Awarding Authority also reserves the right to reject all bids in accordance with the provisions of sections 44A to 44E, inclusive, of chapter 149 of the General Laws, as amended.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 47 SATURDAY, SEPTEMBER 17, 1955. NO. 38

CERTIFIED MAIL MAY NOW BE USED IN PLACE OF REGISTERED MAIL AT CONSIDERABLE SAVINGS IN EXPENSE — CHARLES J. FOX, DIRECTOR OF ADMINISTRATIVE SERVICES, ISSUES EXPLANATION TO CITY DEPARTMENTS — STATUTE AND ORDINANCE CHANGED TO MEET SITUATION.

The following instructions have been issued to all heads of departments:

ADMINISTRATIVE SERVICES DEPARTMENT,
BOSTON, September 15, 1955.

To Department Heads.

Your attention is directed to circular letter issued by this department under date of July 20, 1955, regarding the establishment of a Central Mailing Unit which is now in operation. Under paragraph 5, Item F, reference is made to the use of certified mail rather than registered mail, wherever possible or permissible. At the time of writing, there was some question as to the legality of utilizing certified mail in lieu of registered mail when the statutes or ordinances specified registered mail.

MAYOR HYNES ISSUES APPEAL TO CITIZENS, IN BEHALF OF BOSTON SYMPHONY ORCHESTRA, TO HELP SHARE IN EDINBURGH FESTIVAL IN AUGUST, 1956.

Mayor Hynes, as a matter of civic pride, has made the first announcement that the Boston Symphony Orchestra and its music director, Charles Munch, have accepted an invitation to appear at Europe's famous Edinburgh Festival during the last week of August, 1956. This will be the first visit of the orchestra to Scotland, which was not included in its European tour of 1952. The tour, the Mayor pointed out, won high tributes from the critics in England, France, Holland, and Germany.

Present plans also call for return engagements in London and Paris following the orchestra's five concerts in Edinburgh, which will be the climatic week of the festival. The Mayor said he joined with officials of the Boston orchestra in the hope that its European engagements may be extended in the following weeks.

MAYOR JOHN B. HYNES GIVES ACCOUNTING OF THE MANAGEMENT OF BOSTON'S AFFAIRS IN BROADCAST BY TELEVISION — EXPRESSES THANKS TO CITIZENS FOR SUPPORT IN EFFORT TO LIVE UP TO RESPONSIBILITIES OF LEADERSHIP ENTRUSTED TO HIM IN THE ACCOMPLISHMENTS AND ACHIEVEMENTS OF HIS ADMINISTRATION — FACED ALL PROBLEMS CONFRONTING HIM WITH COURAGE, BELIEVING HE HAD GOODWILL OF ALL — ASKS THAT GOODWILL BE CONTINUED.

Following are the remarks of his Honor the Mayor, John B. Hynes, broadcast over WBZ-TV on Monday, September 12:

Good Evening, Ladies and Gentlemen.

In this telecast, and in the others I shall make between now and election day early in November, I shall give an accounting, as complete as time will permit, of my stewardship as the Mayor of Boston.

Before I proceed, may I express my gratitude to all those citizens who supported and voted for me on the two previous occasions I have been a candidate for mayor, and may I also, at this time, extend my appreciation to all those who have been helpful to me, and to the City of Boston, during my years of service as mayor.

And, in that vein, may I mention the encouragement I feel in the knowledge that the friends who aided me six years ago and four years ago are again supporting me in my present contest for re-election.

Looking back over the period of my service as Chief Executive of Boston, I have come to the conclusion that no mayor, no matter who or what he may be, no matter how intelligent or capable he may be, no matter how informed or experienced he may be, can hope to accomplish much unless he has behind him the confidence of the people whom he serves. And it follows, as night follows day, that no mayor can expect to have the inspiration and the weight of public confidence as his strong allies unless by his own acts he earns and justifies that confidence.

Confidence of All People.

If a mayor is a self-seeker, a demagogue, a political opportunist, or one who favors one element in the community over another — that mayor will not, and cannot, have the confidence of the whole public. And he will not, and he cannot, be a good mayor for our city and all the people of our city.

The day I was first inaugurated Mayor of Boston, I declared that our city did not belong to any one man, to any one group, to any select few. I stated that it belonged to all the people, and that I intended to be mayor of all the people. And to be mayor of all the people of Boston, regardless of political considerations, and regardless of my own future prospects, has been my aim, my purpose, my objective, and my policy during each day, each month, and each year of my service.

If it is the judgment of the voters of Boston that I should be re-elected and returned to office, I shall continue to serve, to the best of my ability, all of the people of our city.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

MAYOR HYNES GIVES ACCOUNTING OF HIS ADMINISTRATION IN TV BROADCAST.

(*Continued from page 1097.*)

It would be the statement of a supreme egotist were I to say that the future of Boston would be dark and forbidding unless I were re-elected. I make no such claim. I do submit, however, that no other candidate for mayor in the present contest has a greater love for our city than I; no candidate has a more intimate knowledge of Boston's current problems than I; no candidate for mayor has greater concern for the future of our city than I; nor a better conception of what should, what can, and what must be done, if Boston is to improve, and hold its place as one of the leading cities of our country.

Despite the bombastic assertions and gloomy prediction of those whose political aspirations becloud their thinking, Boston is not a pathetic, infirm, bedraggled, ghost city. On the contrary, it is a live, vibrant, substantial, wholesome city—yes, a proud old city—whose future, if we wish to make it so, if we are willing to share a little bit in the responsibility for making it so, can far outdo and excel its past.

The average citizen cannot, I acknowledge, become deeply involved in the long-range or short-range problems of the city government. You must depend on your elected officials to assume that responsibility. But, every citizen can, and does, share in the present and future prospects of our city by the choice made of the officials who are elected to manage the affairs of the city government. It is, therefore, of the utmost importance for every citizen to vote on preliminary election day, September 27, and at the final election on November 8. It is by your vote that the right kind of officials are elected.

Boston Has Many Problems.

The City of Boston has many problems, some of them deep-rooted, and of long duration. They are not insurmountable. They are not the kind of problems that should be entrusted for solution to individuals who seek as through a glass darkly, or whose consuming political ambitions preclude any rational estimation of Boston's future place in our form of democratic government.

It is my hope that my service as mayor, the achievements and the accomplishments of my administration, and the tone and atmosphere of that administration, are adequate proof that I have not shied away from the responsibilities of office, and that I have done everything within my power to guard the substance of our city, while, at the same time, doing what should be done to make Boston a better city. No large city in America is, today, without its problems of major consequence. I don't know of any of these cities which is ready to put up the white flag of surrender. Certainly, we are not going to do it, for whatever our problems may be, we shall fight them. We shall not run away from them. We shall never admit they cannot be solved.

Even as I speak to you tonight, there is a new spirit abroad in our city. On every side, representatives of capital, of labor, of business, of the professions, of the clergy, are joining hands in a cooperative effort to meet, head on, the problems which changing times have brought to our old city of Boston, and to our entire Boston community. The best example of that new spirit can be found in the seminars held at Boston College for the past year, and to be continued this year—seminars which focus a wealth of study, and survey, and research, and knowledge on those very problems which have such an influence on the future of this great metropolitan center we call the City of Boston. I am tremendously encouraged by this new spirit. Channeled in the right direction, this new spirit can mean a better community for all of us.

In other telecasts, it will be my purpose to discuss the progress made by my administration during my tenure of office, and to also discuss those matters of importance which affect the lives and the well-being of our city and its people.

In the time remaining tonight, I would like to present what I believe to be the fundamental purposes of government.

As I view it, a city has no justification for its existence unless it is far more than a concentrated mass of inert structures. A city, including Boston, meets its challenge when it recognizes that it is people, men and women and children of flesh and blood, who make up that city—who are the heart and the soul of that city, who are the reasons for the city's existence. The basic concern of any city must be to promote the general welfare of all its people, not merely those who are self-sufficient, but those who are old, helpless, sick, or friendless,—to aid them when they need aid, to administer to them when they need care, to provide for them when the candle of life burns low. To me, this is a primary concept of government—a concept my administration has never lost sight of, and will not, in the future. I doubt that ever, in the history of our city has so much been done, for so many people, the old, the young, the handicapped, as has been done during my terms of office.

Whatever we have done has been with that concept in mind, for in my judgment no accomplishment is worthy of mention, unless by it, and through it, humanity, the people is served in some beneficial way.

Better Days and Greater Things.

In closing this talk, may I say it is my honest belief that Boston is on the verge of better days and greater things. There will be trying days ahead. Of that I am sure, for the costs of government in all its phases, have out-paced, for the time being at least, the income of the city. For this reason, every proposal for major expenditure must be carefully analyzed and justified before it is made. For this reason, too, every economy which can be accomplished without harmful effects should be made.

On two occasions, the voters of Boston entrusted to me the job of directing the affairs of our city. At no time have I betrayed that trust. I will not in the future. It has been my policy to meet each situation as it arises without fear of the political consequences which might be expected to follow from the decisions which must be made. It has been my policy to conduct the affairs of our city in a nondramatic, nonpolitical, business-like way. I hope I have lived up to your expectations.

If you re-elect me, I shall continue these same policies. Whatever I can do to improve our city, to bring more happiness into the lives of our citizens, I shall do. Whatever I can do to promote the general prosperity of our people, I shall do. Whatever I can do to make Boston a better place to live in, I shall do.

It has been a great honor to be your mayor. If you feel that I have met the test, I most respectfully ask you to make your feelings known by voting for me on preliminary election day, September 27. In return for that vote, I pledge my every effort in behalf of the City of Boston, and all of its people.

Thank you for listening to me. I hope you will tune in your sets to subsequent telecasts I shall make.

Good night, all.

MAYOR EXTENDS NEW YEAR GREETINGS TO CITIZENS OF JEWISH FAITH.

To all my fellow citizens of the Jewish Faith, I extend both official and personal best wishes at the beginning of the Jewish New Year.

May each day in the year to come be bright and soul-satisfying.

May the Lord of ALL be your constant guide.

CERTIFIED MAIL MAY NOW BE USED BY CITY DEPARTMENTS.

(*Continued from page 1097.*)

Since the issuance of the circular letter to which I made reference, chapter 683 of the Acts of 1955, entitled "An Act Defining Registered Mail to Include Certified Mail in Certain Cases," has become effective, providing for the use of certified mail in each case where a previous statute requires the use of registered mail when used with reference to the sending of notice or of any article having no intrinsic value.

In all cases in the future where items of value are not involved and where existing statutes stipulate the use of registered mail, you are now authorized, under the provisions of the new act, to utilize certified mail, thereby realizing a saving of 25 cents on each such parcel. Since the Post Office destroys records relative to the delivery of certified mail six months after delivery, you should instruct your personnel to request a return receipt every time certified mail is utilized.

A saving of 25 cents on each parcel of mail which required mailing in "registered" form in the past should indicate substantial savings in the future and your full cooperation in complying with the instructions contained herein is respectfully requested.

Very truly yours,

CHARLES J. FOX,
Director.

MAYOR APPEALS FOR CONTRIBUTIONS FOR BOSTON SYMPHONY ORCHESTRA.

(*Continued from page 1097.*)

The Mayor also called attention to the fact that transportation costs for the Symphony Orchestra will be quite heavy and that an additional $20,000 is necessary to make certain that the full orchestra will represent Boston at the festival. Contributions for this purpose may be sent to Mr. Richard C. Paine, treasurer, Symphony Hall, Boston, Mass.

LAND-TAKING FOR SEWERAGE WORKS.

The Public Improvement Commission has ordered that sewerage works in Lorna road and Lena terrace, Dorchester, be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within thirty (30) days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Lena terrace, bounded:

Northwesterly by the southeasterly line of West Selden street, twenty-five and 00-100 feet; northeasterly by the northeasterly line of Lena terrace, two hundred forty-two and 16-100 feet; southeasterly by the northwesterly line of Lorna road, forty and 00-100 feet; southwesterly by the southwesterly line of Lena terrace, one hundred thirty-six and 00-100 feet; northwesterly by the northwesterly line of Lena terrace, fifteen and 00-100 feet; southwesterly again by the southwesterly line of Lena terrace, one hundred five and 84-100 feet, containing eight thousand ninety-two square feet, more or less.

A parcel of land, owners unknown, being the private way known as Lorna road, bounded:

Northeasterly by the southwesterly line of the public way known as Lorna road, fifty and 00-100 feet; northwesterly by the northwesterly line of Lorna road by two measurements, six hundred eighty-six and 89-100 feet and seventeen and 33-100 feet on a curve of twenty-five and 00-100 feet radius; southwesterly by the southwesterly line of Lorna road, one hundred eighty-one and 12-100 feet on a curve of forty and 00-100 feet radius; southeasterly by the southeasterly line of Lorna road by two measurements, seventeen and 33-100 feet on a curve of twenty-five and 00-100 feet radius and six hundred eighty-six and 89-100 feet, containing thirty-nine thousand six hundred ten square feet, more or less.

The sewerage works to be constructed are as follows: In Lorna road, 720 linear feet of 10-inch pipe sewer and 12-inch surface drain at an estimated cost of $10,800; in Lena terrace, 310 linear feet of 10-inch pipe sewer and 12-inch surface drain at an estimated cost of $1,650.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of Lorna road will receive benefit or advantage beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it, said parcels and the supposed owners thereof being shown on the plan hereinbefore referred to.

ADMINISTRATIVE SERVICES DEPARTMENT.
Purchasing Division.

BOSTON, August 19, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In view of the emergency existing at the present time due to flood conditions, it is requested that authority be granted me under the provisions of paragraph 2, section 13, chapter 639 of the Acts of 1950, as most recently amended by chapter 491 of the Acts of 1953, to dispense with the usual contractual formalities ordinarily attendant to purchases by the city of various supplies and equipment.

It is my opinion that the best interests of the city and its citizens will be served in this matter.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

—

BOSTON, September 8, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In accordance with the provisions of the letter approved by your Honor on January 24, 1955, authority is requested to award a contract, without public advertisement, to the following-named company for furnishing perishable foods to the various city departments from September 15, 1955, to March 31, 1956: Leo Young, Inc., 34 B & M Produce Market, Charlestown, Mass.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

—

BOSTON, September 8, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On August 5, 1955, your Honor approved a letter to award contracts, without public advertisement, to various companies for anticipated needs for emergency deliveries of hospital equipment for polio cases.

Inasmuch as the polio period has continued longer than was expected and since the number of polio cases has far exceeded the original estimate, it is now requested that the amounts of the awards to the following companies be changed to read as indicated below:

Thomas W. Reed Company, $10,000, less 2 per cent discount, time of payment; Atlantex Corporation, $6,500, net; J. H. Emerson Company, $6,500, net; T. J. Noonan Company, $1,000, less 2 per cent discount, time of payment.

The amounts of the awards to all other companies listed in the original letter dated August 5, 1955, remain the same.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

DEPARTMENT OF SCHOOL BUILDINGS.

BOSTON, August 31, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

SUBJECT: Boston Trade High School Flood Damage (Emergency Work).

DEAR MR. MAYOR:

Prior to the time the flood waters from the torrential rains of Thursday, Friday, and Saturday, August 18 to 20, reached maximum height, through the cooperation of the City of Boston Fire Department and the Department of Civil Defense, the work of pumping water from the rooms below yard grade was started, however, the pumps were not adequate to control the flood water and the build-up continued to the extent that it was necessary to augment the pumping operations by the use of pumps owned and operated by a private contractor. The firm of Donato Antonellis, 15 Sparhawk street, Brighton, were employed to do the pumping and cleaning and disinfecting work necessary, as they were familiar with this type of work having performed identical work during the hurricane of the previous year.

Emergency action had to be taken and will be continued until the flooded rooms are suitable again for occupancy.

The nature of the work precluded the possibility of obtaining public bid proposals for work involved, consequently, I request your authorization to dispense with public advertising and continue the services of Donato Antonellis Company to completion in accordance with a written contract which will be negotiated by this department in the sum of not to exceed $14,000.

The work will be done under the direction of engineers and supervisors from this department and an accurate record of time, labor, and materials involved kept, and certified to by the department employees.

The work of disinfecting is being done in accordance with directions of the City of Boston Health Department and the Sanitary Engineer representing the School Committee and will be adjudged completed by those authorities before occupancy is permitted.

It is to be noted that the amount set forth in the foregoing represents the best estimates that the department can make of the probable costs of the electrical work needed to be done in the above school and that it is entirely conceivable that as the work progresses it may become apparent that the actual cost of the repairs will be in excess of the amount stated in the contract. Therefore, if this circumstance should occur I would request from your Honor in writing authorization to increase the particular contract amounts as may become necessary.

Very truly yours,

JAMES H. MOONEY,
Superintendent of Construction.

—

BOSTON, August 31, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

SUBJECT: Boston Trade High School Flood Damage (Emergency Work).

DEAR MR. MAYOR:

Flood water from the torrential rains of Thursday, Friday, and Saturday, August 18 to 20, plus the backing up of sewage through sanitary and storm water drain inlets has created havoc with the electric generating plant, electrical systems, high pressure boilers, electric machines, motors, shop equipment, wood floors, etc. Damage from water is more severe and greater in extent than that caused by the hurricane of September 11, 1954, as the high-water mark of the flood was approximately twenty-seven inches higher than the year previous.

To correct the damage as expeditiously as possible and without the delay which would be unavoidable if public advertising took place, I respectfully request your authorization to dispense with public advertising for proposals and to engage the services of the following electrical contractors, by written contract, to perform the work necessary to make the systems and machinery operative in accordance with this department's specifications, in amounts set forth as follows:

Dorgan Electrical Company, Boston Trade High School, not to exceed $30,000.

Electric Maintenance Company, Boston Trade High School, not to exceed $12,500.

It is to be noted that the amounts set forth in each instance in the foregoing represents the best estimates that the department can make of the probable cost of the electrical work needed to be done in the above school and that it is entirely conceivable that as the work progresses it may become apparent that the actual cost of the repairs will be in excess of the amount stated in the contract. Therefore, if this circumstance should occur I would request from your Honor in writing authorization to increase the particular contract amounts as may become necessary.

Very truly yours,

JAMES H. MOONEY,
Superintendent of Construction.

BOSTON, September 1, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

SUBJECT: Thomas A. Edison School Flood Damage (Emergency Work).

DEAR MR. MAYOR:

Flood water from the torrential rains of Thursday, Friday, and Saturday, August 18 to 20, plus the backing up of sewage through sanitary and storm water drain inlets has created havoc with the electrical system, oil burner motors, sump ejector motors, boiler return pumps and control and switchboard appurtenances for the operation of the motors to the extent that it was immediately necessary to employ Ralph Dixon, electrician, to perform emergency work to protect the personnel working in the building and to make the systems again operable.

The nature of the work did not permit solicitations of public proposals, consequently, Mr. Dixon was ordered to perform the necessary work and I respectfully request your authorization to dispense with public advertising proposals and engage and continue the services of Ralph Dixon, electrical contractor, in an amount not to exceed $6.000.

The work will be done in conjunction with the specifications of this department and under the direction of this department's engineers who will be obliged to keep account of all labor and materials expended and certify to their correctness.

It is to be noted that the amount set forth in the foregoing represents the best estimates that the department can make of the probable costs of the electrical work needed to be done in the above school and that it is entirely conceivable that as the work progresses it may become apparent that the actual cost of the repairs will be in excess of the amount stated in the contract. Therefore, if this circumstance should occur I would request from your Honor in writing authorization to increase the particular contract amounts as may become necessary.

Very truly yours,

JAMES H. MOONEY,
Superintendent of Construction.

BOSTON, September 1, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

SUBJECT: Thomas A. Edison School Flood Damage (Emergency Work).

DEAR MR. MAYOR:

Flood water from the torrential rains of Thursday, Friday, and Saturday, August 18 to 20, plus the backing up of sewage through sanitary and storm water drain inlets entirely submerged floors of rooms below yard grade causing considerable damage and unsanitary conditions.

Through the cooperation of the City of Boston Fire Department and Civil Defense Department, the rise in water was kept fairly in control, however, the pumps operated by those departments had to be augmented by the use of pumps owned and operated by a private contractor. Further, a cave-in in the yard required the immediate placement of brick fill and stone rubble to fill the cave-in area of approximately 60 feet in length and 20 feet in width and depth undetermined as bottom cannot be reached with poles in excess of 12 feet.

The nature of the work was such that solicitation of public proposals could not be made and the firm of Donato Antonellis, 15 Sparhawk street, Brighton, was employed to perform the work necessary to make the building operable and the rooms occupiable. Consequently, I ask your authorization to dispense with public advertising for proposals and to engage the services of Donato Antonellis, by written contract, to perform the work of pumping, filling, yard servicing, removal of wood flooring in gymnasium, steam cleaning, and disinfecting of flooded portions of the building not to exceed $9,000.

It is to be noted that the amount set forth in the foregoing represents the best estimates that the department can make of the probable costs of the electrical work needed to be done in the above school and that it is entirely conceivable that as the work progresses it may become apparent that the actual cost of the repairs will be in excess of the amount stated in the contract. Therefore, if this circumstance should occur I would request from your Honor in writing authorization to increase the particular contract amounts as may become necessary.

Very truly yours,

JAMES H. MOONEY.
Superintendent of Construction.

ELECTION DEPARTMENT.

BOSTON, September 2, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

The Board of Election Commissioners respectfully requests that permission be given them to award the contract for printing the Preliminary Municipal Election Ballots to the firm of Wright & Potter Printing Company of 32 Derne street, Boston, without advertising for bids, at the following prices:

For 45,893 official paper ballots (46 precincts), including specimen ballots (10 for each precinct), boxed in open-window cartons, $1,697.50.

For 24,400 "Challenged" ballots (100 for each of the 244 voting machine precincts), printed "Challenged Ballot" in red ink across filing, $352.70.

For voting machine cards and Specimen Ballots for 244 precincts (3 cards each for 718 Shoup and 700 Automatic Voting Machines), with 10 Specimen Ballots for each precinct, $5,087.50.

1,000 white strips (no printing) for Shoup Machines, $72.50.

2,000 white strips (no printing) for Automatic Machines, $69.75.

Total, $7,279.95.

The ballots for the Preliminary Election will contain 290 precinct changes and 22 ward changes in the makeup. Great care will be required on the part of the printer, as the time for printing such ballots and ballot labels and making a delivery to this office is very limited.

The Wright & Potter Printing Company is the only printing concern especially equipped to do this work, having printed the State and City of Boston ballots for a long period of years. For this reason, and to safeguard the voters of the city as far as possible against error, this request is made.

Respectfully yours,

BOARD OF ELECTION COMMISSIONERS,
DAVID LASKER,
Chairman.

HOSPITAL DEPARTMENT.

BOSTON, September 2, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This will supplement my communication of July 29, 1955, approved by your Honor on August 4, 1955, relative to modernization of electric, sewage, and water supply systems at Long Island Hospital.

The cost of the engineering studies and the development of a coordinated program looking toward the accomplishment of the aforementioned projects according to our best available estimates is not now expected to be in excess of $15,000. Accordingly, and in view of the highly technical nature of the services to be rendered, it is proposed to dispense with publicly soliciting proposals and to enter into a contract with Jackson & Moreland, engineers, 600 Park Square Building, Boston, Mass., covering these services written at a cost not to exceed $15,000.

At a later date, it is proposed to enter into a contract or contracts with the same firm providing for preparation of plans and specifications for and the furnishing of supervision in connection with the actual construction contract or contracts.

Respectfully yours,

BOARD OF TRUSTEES, HOSPITAL DEPARTMENT, AND THE BOSTON CITY HOSPITAL,
by RICHARD J. CONDON,
President.

—

BOSTON, September 2, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

For your information and under the authority given to the Hospital Department by your Honor on August 4, 1955, it is the purpose of the trustees to enter into a contract with Jackson & Moreland, engineers, 600 Park Square Building, Boston, Mass., to conduct engineering studies and develop a coordinated program for conversion of the hospital's present electric service and facilities from direct to alternating current.

At the present writing, it is our expectation that the total cost of the subject engineering services will not exceed $20,000. Your authority, therefore, is requested to omit the customary advertising and to award the proposed contract to the Jackson & Moreland firm at a cost not to exceed $20,000.

In the light of the highly special nature of the services to be forthcoming under the proposed contract, it is not considered that a public solicitation of proposals would be of avail to the city.

Respectfully yours,

BOARD OF TRUSTEES, HOSPITAL DEPARTMENT, AND THE BOSTON CITY HOSPITAL,
by RICHARD J. CONDON,
President.

MAYOR'S OFFICE.

BOSTON, August 29, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In connection with the other events to be held relating to the public celebration of the 325th anniversary of the founding of Boston, it is proposed to present a spectacular display of fireworks from barges located on the Charles River in the vicinity of the Hatch Shell.

Authority is hereby requested therefore to dispense with public advertising and award a contract to Pearl Fireworks Company of Centredale, Rhode Island, to conduct the fireworks display at a total cost not to exceed $5,000.

This firm has conclusively demonstrated by its performance earlier this year and in prior years as well that it is able to execute these fireworks displays in a safe and artistic manner. Trained pyrotechnicians are in the employ of this firm, and they are under the direct supervision of the manager.

Since the nature of the skilled services involved and the quality of the materials essential for proper and safe fireworks displays are such as would be extremely difficult, if not impossible to obtain through public bidding, it is considered that no advantage would be gained by publicly inviting bids in the *City Record*.

Respectfully,
JOHN D. BROWN,
Director of Public Celebrations.

PARKS AND RECREATION DEPARTMENT.

BOSTON, August 30, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

During the recent floods we lost a rustic wooden footbridge that spanned Muddy River in the Back Bay Fens, opposite the Art Museum.

This structure should be immediately replaced, as a condition now exists which not only causes inconvenience, but could result in serious accidents.

With that thought in mind, we have asked F. C. Dolan & Sons who have done similar work satisfactorily for this department, to visit the site and submit a price to construct a similar structure in the same location, as the abutments were not seriously damaged.

They have submitted a lump sum price of $1,500 to replace the superstructure and repair the stone masonry abutments, which we feel is fair and reasonable.

As a grave emergency now exists, we feel we should start the work as soon as possible and that the best interests of the city would be served by accepting this offer to replace the structure at the price submitted.

In view of this, I respectfully request your permission to dispense with publicly advertising and award a contract to F. C. Dolan & Sons, 18 Aldworth street, Jamaica Plain, Mass., to reconstruct wooden footbridge over Muddy River, Back Bay Fens, for the lump sum price of $1,500, same to be charged to "Flood Emergency" 352-61.

Respectfully yours,

FRANK R. KELLEY,
Commissioner of Parks and Recreation.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for an extension of time for the completion of the contract with John W. Egan Company for interior and exterior painting at the Brighton High School, from August 31, 1955, to October 15, 1955. This extension was requested because of difficulty in securing necessary labor to complete work on time.

—

Approval has been given for an extension of time for the completion of the contract with L. J. Banda for modernization of plumbing at the Michelangelo School, from September 7, 1955, to December 31, 1955. This extension was requested because of delay in obtaining necessary plumbing material and marble to complete work.

—

Approval has been given for an extension of time for the completion of the contract with O. P. Killam & Son for furnishing and delivering lunchroom tables to Girls' Latin School, from September 2, 1955, to October 30, 1955. This extension was requested because of a delay in receiving materials from mill on account of flood conditions.

PUBLIC WORKS DEPARTMENT.

Approval has been given for an extension of time for the completion of the contract with D. Federico Company, 19 Osceola street, Mattapan, for laying and relaying water pipes in East Eagle street, Ward 1; Falcon street, Ward 1; White street, Ward 1; Mt. Vernon street, Ward 13, and such additional locations, if any, in Wards 1 and 13, as may be designated by the Commissioner of Public Works, to September 30, 1955. This extension was requested because the recent heavy rains retarded the progress of the work.

—

Approval has been given for an extension of time for the completion of the contract with Park Construction Company, Inc., 40 Court street, Boston, for construction of office building and garage, Arborway and Forest Hills street, Ward 11, Boston, from July 29, 1955, to September 6, 1955. This extension was requested because the contractor was authorized to do extra work which he is unable to complete before September 6, 1955.

—

Approval has been given for an extension of time for the completion of the contract with J. J. Bonavire, Inc., 209 Washington street, Boston, for construction of new garage, Public Works Department yard, City of Boston, 315 Western avenue, Brighton, Mass., from August 15, 1955, to September 15, 1955. This extension was requested because the contractor was delayed by inclement weather.

—

That the amount of $25 be, and the same hereby is, awarded to James E. and Dorothy M. Furlong for all damages sustained under the order of the Board of Street Commissioners and Mayor of June 11, 1953, for the laying out and construction of Hallron street, Hyde Park.

—

That the amount of $125 be, and the same hereby is, awarded to Raymond A. and Ruby A. Farrell for all damages sustained under the order of the Board of Street Commissioners and Mayor of June 11, 1953, for the laying out and construction of Hallron street, Hyde Park.

OMIT AND SUBSTITUTE WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

J. A. Susi & Sons, Inc., have been directed to omit and substitute the following work under the contract for bituminous concrete pavement in Pond street, dated July 13, 1955:

Omit 160 tons of bituminous concrete wearing surface at $8 per ton in Pond street.

Substitute 180 tons of sheet asphalt. Thickness of sheet asphalt to average 1½ inches. Price to be paid, $9 per ton.

Estimated cost of omitted work, $1,280; estimated cost of substituted work, $1,620; estimated increase in cost, $340.

EXTRA WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

Baker & Co., Inc., have been directed to perform the following extra work under the contract for bituminous concrete pavement in Bowdoin avenue, St. William street, and South Munroe terrace, dated June 29, 1955:

In Bowdoin avenue, construct two special drop inlets with chute connection to existing catch basins at $50 each. Estimated cost of extra work, $100.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

One thousand two hundred and seventy-one linear feet of 18-inch pipe sewer and 1,271 linear feet of 12-inch pipe surface drain in Back street, Boston Proper, between Berkeley street and Fairfield street, in the Boston Proper district, at an estimated cost of $52,000.

POLICE DEPARTMENT ORDERS.

General Order No. 2,096.

The resignation of Patrolman Joseph E. Rooney of Division 15 having been presented, it is hereby accepted, to take effect Wednesday, September 14, 1955, at 7.45 o'clock A.M.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,097.

A trial board, consisting of Captains Francis J. Hennessy, Leo E. Hoban, and John J. Cunniffe, having heard by reference a complaint made by Charles J. Deignan, captain, commanding Division 4, against Patrolman Walter E. Moore, Division 4, charging him with violation of the rules and regulations of the Police Department, has reported a finding of guilty, recommending punishment duty of 420 hours.

This recommendation is accepted, and it is ordered that the said Patrolman Walter E. Moore perform 420 hours' punishment duty.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,098.

Patrolman Joseph W. Roy of Division 3 is commended and granted two days' additional vacation for meritorious police work performed on Monday, September 5, 1955.

While on duty and in uniform in Boston Common and while near the heavily traveled intersection at Boylston and Tremont streets, this officer observed a man whom, from photograph and teletype item issued on the previous day, he recognized as being John J. Martin, escapee from State Prison, Charlestown, where he was serving an eight- to ten-year term for armed robbery.

With drawn revolver, Patrolman Roy cautiously approached Martin, confronted him with a statement as to his identity and warned him not to move or he would shoot to kill. Martin submitted to arrest, was taken to Station 3 where he was positively identified by Acting Warden Vance of State Prison, delivered to the warden and accompanying guards, and returned to the prison.

The commissioner is pleased to recognize the keen observation of Patrolman Roy and the manner in which he effected the arrest of this man who, had he not been apprehended, would doubtless have continued his long and active criminal career.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,099.

The Police Commissioner having heard the complaint of Lieut. James R. McLaughlin, in charge of Division 10, against Patrolman Samuel C. Pasquale, Division 10, on June 23, 1955, at Police Headquarters, charging him with violation of the rules and regulations of the Police Department, has made a finding of guilty.

Therefore, The said Samuel C. Pasquale is ordered dismissed from the Police Department, effective as of Friday, May 6, 1955, at 5.45 o'clock P.M.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,100.

A trial board, consisting of Captains Francis J. Murphy, George F. Snell, and Dennis F. Dalton, having heard by reference a complaint made by Captain Cornelius F. O'Brien, commanding Division 14, against Patrolman Robert M. Corbett, Division 14, charging him with violation of the rules and regulations of the Police Department, has reported a finding of guilty, recommending punishment duty of 315 hours.

This recommendation is accepted, and it is ordered that the said Patrolman Robert M. Corbett perform 315 hours' punishment duty.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,101.

Leave of absence, without loss of pay, is hereby granted to employees of the department who are of the Jewish faith for the observance of Rosh Hashonah starting at sundown on September 16, 1955, and continuing to sundown on September 18, 1955.

The same leave is also granted starting at sundown on September 25, 1955, and continuing to sundown on September 26, 1955, for the observance of Yom Kippur.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,102.

The following promotions and assignments are hereby ordered, to take effect Wednesday, September 14, 1955, at 7.45 o'clock A.M.:

To the Grade of Lieutenant.

Sergt. Richard J. Stapleton, from Division 1 to Division 3.

Sergt. Arthur C. Cadegan, Jr., from Division 8 to Division 8.

To the Grade of Sergeant.

Robert E. Short, from Division 2 to Division 19.

Oscar T. Dubois, from Division 13 to Division 1.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,103.

The following transfer is hereby ordered, to take effect on Thursday, September 15, 1955, at 7.45 o'clock A.M.:

Lieut. Harold G. Mitten, from Division 8 to City Prison.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,104.

The resignation of Patrolman Anthony Athanasia of Division 3 having been presented, it is hereby accepted, to take effect on Wednesday, September 14, 1955, at 4 o'clock P.M., seven days' notice waived.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

CONSTRUCTION OF EATONIA STREET, BRIGHTON.

The Public Improvement Commission has ordered that a public improvement be made, consisting of the laying out and construction of Eatonia street, Brighton district, as a public highway, from North Harvard street to West Sorrento street, bounded and described as follows:

A highway named Eatonia street is hereby laid out from West Sorrento street, approximately 180 feet southwesterly, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following-described land, exclusive of trees, shrubs, or structures standing upon or affixed thereto:

A parcel of land supposed to belong to William J. and Mary L. Murray, bounded:

Northeasterly by the southwesterly line of West Sorrento street, ten and 74-100 feet; northwesterly by the southeasterly line of Eatonia street, as it existed prior to this order, ten and 74-100 feet; southeasterly by the southeasterly line of Eatonia street as hereby laid out, sixteen and 42-100 feet on a curve of ten and 00-100 feet, containing approximately twenty-five square feet, more or less.

A parcel of land supposed to belong to New England Tree Expert Associates, Inc., bounded:

Northwesterly by the southeasterly line of Eatonia street as it existed prior to this order, forty-one and 40-100 feet; southeasterly by the southeasterly line of Eatonia street as hereby laid out, forty-six and 59-100 feet on a curve of twenty-eight and 00-100 feet radius, containing approximately two hundred sixty-two square feet, more or less.

A parcel of land supposed to belong to J. H. McNamara, Inc., bounded:

Southeasterly by the northwesterly line of Eatonia street as it existed prior to this order, thirty-six and 71-100 feet; northwesterly by the northwesterly line of Eatonia street as hereby laid out, forty and 04-100 feet on a curve of twenty-eight and 00-100 feet radius, containing approximately one hundred seventy-two square feet, more or less.

Said Eatonia street as hereby laid out is bounded:

Northeasterly by the southwesterly line of West Sorrento street, fifty and 81-100 feet; northwesterly by the northwesterly line of Eatonia street as hereby laid out by two measurements, one hundred twenty-three and 45-100 feet and forty and 04-100 feet on a curve of twenty-eight and 00-100 feet radius; southwesterly by the southwesterly line of Eatonia street as hereby laid out, forty-four and 65-100 feet on a curve of twenty-eight and 00-100 feet radius, and southeasterly by the southeasterly line of Eatonia street as hereby laid out, three measurements, forty-six and 59-100 feet on a curve of twenty-eight and 00-100 feet radius, one hundred seven and 52-100 feet, and sixteen and 42-100 feet on a curve of ten and 00-100 feet radius.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of Eatonia street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on a plan marked "City of Boston, Eatonia Street, Brighton, July 26, 1955, George G. Hyland, Commissioner of Public Works," and on file in the office of this commission.

STREET CONSTRUCTION IN BRIGHTON DISTRICT.

The Public Improvement Commission has ordered that a public improvement be made, consisting of the laying out and construction of West Sorrento street, Brighton district, as a public highway, from Hopedale street to Eatonia street, bounded and described as follows:

A highway named West Sorrento street is hereby laid out as a public highway, from Hopedale street to Eatonia street, and ordered constructed.

Said highway and the land, exclusive of trees, shrubs or structures standing upon or affixed thereto in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southeasterly by Hopedale street, seventy and 00-100 feet; northeasterly by the northeasterly line of West Sorrento street as hereby laid out by two measurements, twenty-three and 56-100 feet on a curve of fifteen feet radius and two hundred fifteen and 09-100 feet; northwesterly by the northwesterly line of West Sorrento street as hereby laid out, forty and 10-100 feet; southwesterly by the southwesterly line of West Sorrento street as hereby laid out, by two measurements, two hundred twelve and 24-100 feet and twenty-three and 56-100 feet on a curve of fifteen feet radius.

Trees, shrubs or structures standing upon or affixed to the aforedescribed land, shall be removed therefrom within thirty days following a notice of the city's intention to enter upon said land for the purposes of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of said West Sorrento street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on a plan hereinbefore referred to, and on file in the office of this department.

Parcel.		Amount.
1.	Ralph T. and Leona M. Stauff	$225 30
2.	Ralph T. and Leona M. Stauff	165 90

COMPLETION OF HYDE PARK AVENUE.

The following was received:

City of Boston,
Office of the Mayor, August 4, 1955.

To the City Council.
Gentlemen:

I transmit herewith communication from the Commissioner of Public Works relative to your order of July 25, 1955, concerning the speeding up of the completion of Hyde Park avenue.

Respectfully,
J. B. HYNES, Mayor.

Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Mr. Flemming:

This is in reference to the following order that was passed in the City Council under date of July 25:

"Ordered, That the Commissioner of Public Works of Boston confer with the State Department of Public Works about speeding up the completion of Hyde Park avenue."

Bids for the above-referenced project were opened on Tuesday, July 26, and a low bid in the amount of $267,180 was submitted by Dooley Brothers, Inc. As of this date, the contract has been awarded, and we expect work to start on next Monday, August 8.

You may be assured that every reasonable effort will he made to complete the entire project before the end of the current construction season.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

AID TO VICTIMS OF POLIO.

The following was received:

City of Boston,
Office of the Mayor, August 18, 1955.

To the City Council.
Gentlemen:

I transmit herewith communication from the Health Commissioner relative to your order of July 25, 1955, concerning the contacting of the superintendents of various hospitals in the city for the purpose of having the best available specialists on poliomyelitis pool their efforts to afford any and all possible help to Boston families stricken with polio.

Respectfully,
J. B. HYNES, Mayor.

—

City of Boston,
Health Department, August 8, 1955.

Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

This will acknowledge your communication of July 28, 1955, pertaining to a resolve of the Boston City Council that the Health Commissioner of the City of Boston be requested to contact the superintendents of various hospitals in the city for the purpose of having the best available specialists on poliomyelitis pool their efforts to afford any and all possible help to Boston families stricken with tbe disease.

Relative to this resolve of the Boston City Council, it may be stated that since the start of the increase in the number of cases of poliomyelitis reported to the Boston Health Department, the Health Commissioner of the City of Boston has daily been in communication with the superintendents and/or medical officers of the Boston City Hospital, the Haynes Memorial Hospital, which is a branch of the Massachusetts Memorial Hospital, the Children's Medical Center, the Carney Hospital, the United States Veterans Hospital in Jamaica Plain, and many of the other hospitals in Boston for the purpose of determining the proper procedure for care of cases of infantile paralysis.

The Health Commissioner of the City of Boston participated with the Mayor of the City of Boston in a joint conference witb the superintendents of many hospitals and other recognized specialists in poliomyelitis on Wednesday, August 3, for the purpose of determining the most desirable procedures relative to the present outbreak of poliomyelitis. As a result of this conference tbere is a general agreement as to the procedures to be followed, and I am confident that insofar as the treatment is concerned—both at the various hospitals caring for a number of poliomyelitis cases as well as those caring for a limited number of such cases—the best recognized course of treatment is available; and all have knowledge of the facilities and help available both by the Massachusetts Division of the National Foundation of Infantile Paralysis and the Suffolk County Chapter of March of Dimes.

The Health Department has had the benefit of consultation with outstanding specialists in poliomyelitis, including recent recipients of the Nobel Award for work on poliomyelitis, as well as the medical advisor to President Eisenhower and to the United States Department of Healtb, Education and Welfare; also clinicians, neurologists, and epidemiologists from the Harvard Medical School, Tufts Medical Scbool, and Boston University School of Medicine.

Yours very truly,
JOHN H. CAULEY, M.D.,
Health Commissioner.

CAMPAIGN AGAINST LITTERBUGS.

The following was received:

City of Boston,
Office of the Mayor, August 1, 1955.

To the City Council.
Gentlemen:

I transmit herewith communication from the Commissioner of Public Works in reply to your order of May 2, 1955, concerning the enforcement of regulations to keep the streets and parks clean.

Respectfully,
J. B. HYNES, Mayor.

—

City of Boston,
Public Works Department,
July 29, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

This is in reference to the following order tbat was passed in the City Council under date of July 25:

"Whereas, On Monday, May 2, 1955, the Boston City Council at a regular meeting of its Honorable Body did on motion of Councillor Piemonte pass the following order:

'Whereas, The littering of streets is a detriment to any city; and

'Whereas, In the City of Boston the correction of this problem involves more than one department; and

'Whereas, The Public Works Commissioner has under his direction the collecting of refuse and garbage and the sweeping of streets; and

'Whereas, The Health Department has within its power a division known as the Health and Sanitation Inspectors, whose duty it is to enforce health and sanitation in the City of Boston; and

'Whereas, The Police Department is the general law-enforcing agency in tbe City of Boston; and

'Whereas, The Park Department has the supervision of the picking up of litter in the parks and playgrounds of the City of Boston; and

'Whereas, The Corporation Counsel of the City of Boston is the department charged with the drawing up of ordinances and passing on the legality and constitutionality of the same; and

'Whereas, The Traffic Commission makes the rules and regulations relative to parking; now, therefore be it

'Resolved, That his Honor the Mayor request that the Commissioner of Public Works, the Police Commissioner, the Park Department, the Healtb Commissioner, the Traffic Commissioner, and the Corporation Counsel confer for the purpose of instituting a permanent campaign against litterbugs in the City of Boston, and to draw up and execute any plans or ordinances which they may deem necessary or expedient to carry out the same; and be it further

'Resolved, That they consider the advisability of inviting the School Committee to assist them in distributing leaflets and circulars relative to said campaign to the homes through the school children; and be it

'Ordered, That his Honor the Mayor request the Commissioner of Public Works, the Police Commissioner, the Health Commissioner, the Park Commissioner, and the Corporation Counsel to confer for the purpose of discussing a permanent campaign against litterbugs; and be it further

'Ordered, That said group invite the cooperation of the School Committee in distributing to tbe homes, by the school children, leaflets and circulars relative to said campaign; and

'Whereas, The litterbugs are still very much active in the streets, parks and playgrounds of Boston; and be it

'Resolved, That his Honor the Mayor direct the department heads named in the aforesaid order adopted on May 2 to intensify and put into action their campaign against the litterbugs in Boston.' "

"In City Council July 25, 1955. Adopted."

With reference to the above order, I submit below a self-explanatory copy of invitation of May 31 that I sent to the department heads affected:

"May 31, 1955.

I enclose for your information and attention, copy of order that was passed in the City Council under date of May 2, concerning matters affecting the institution of a permanent campaign to insure the cleanliness of the city's streets, alleys, backyards, etc.

At the suggestion of the Mayor, I am calling a meeting of all interested parties in tbis office on next Friday, June 3, at 4 P.M., in order to discuss the provisions of the order and all related matters.

I invite you to be present at this meeting, but if you are unable to attend, I suggest that

you designate a department employee or official to represent you.

Very truly yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Enc.
J. H. CAULEY, M.D.,
Health Commissioner.
W. L. BAXTER,
Corporation Counsel.
T. F. SULLIVAN,
Police Commissioner.
W. A. REILLY,
Traffic Commissioner.
F. R. KELLEY,
Parks and Recreation
Commissioner.
Copy to Councillor Piemonte."

In addition to the invitation extended to department heads, I also invited Councillor Piemonte to our meeting, in order to obtain the benefit of any advice or suggestions that he might have to offer in connection with the general subject of clean streets, clean backyards, etc.

The meeting was held as scheduled, and the subject of Mr. Piemonte's order and related matters were thoroughly discussed by the representatives of each department present at the meeting. All persons in attendance pledged the wholehearted cooperation of their departments and facilities in providing for a clean city. The only department not represented was the Health Department, and I might say at this time that the latter-referenced department is working continuously on problems of sanitation, and I do not feel that they need any urging to assist in keeping our streets and backyards clean.

At the present time, the Public Works Department is doing everything within reason to keep our streets in a clean condition. Recently, I provided, by allocation, the sum of $10,000 in the appropriate budgetary item to purchase 500 additional waste paper containers, to be placed on the sidewalks in the downtown areas, in an effort to lessen the littering of the streets. A contract for 100 of these boxes has already been awarded, and it is our intention to award further contracts for the additional 400 boxes as soon as possible.

In addition, within the past three weeks, we inaugurated the new street cleaning program in the downtown streets by assigning a mechanical street cleaning machine to the area in the daytime hours, from 11 A.M. to 4 P.M. Heretofore, we have never used sweepers during the daytime hours in the downtown streets, because of the large volume of vehicular and pedestrian traffic. However, I felt that a street cleaning machine—if operated carefully—would not constitute a hazard to traffic or create a bottleneck. This operation has proved successful to date, and it is most beneficial in that we are able to remove a great deal of litter that accumulates between the time that the streets are cleaned in the early morning hours and midday. The use of the mechanical street cleaning machine is much more efficient than the long-established system of manual pushcart patrols, although the latter-referenced system is needed, as many areas are inaccessible to the cumbersome street cleaning machines.

We are well aware of the importance of clean streets, and, as stated hereinbefore, I feel that we are doing everything within reason to prevent the undue littering of them.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

TRANSFER OF APPROPRIATION TO ADMINISTRATIVE SERVICES DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, August 29, 1955.

To the City Council.
Gentlemen:

I submit herewith an order providing for the transfer of $26,748 from the Reserve Fund to the Printing Section, Purchasing Division, Administrative Services Department. Of this amount, $10,000 is required to meet union scale increases which will become effective throughout the printing trade next month; and $4,000 will cover compensation for overtime services rendered by regular employees. In order to expedite the printing of voting lists for the September primary. In connection with the setting up of the new system for printing the police and voting lists, $6,000 is required for the compensation of temporary clerical employees, and $6,748 is required for supplies and materials.

I respectfully recommend adoption of the accompanying order by your Honorable Body.

Respectfully submitted,
J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, $26,748, to the appropriation for Administrative Services Department, Purchasing Division, Printing Section, 1, Personal Services, $20,000, 3, Supplies and Materials, $6,748.

Referred to the Executive Committee.

TRANSFER OF APPROPRIATION TO JAIL AND HOUSE OF CORRECTION.

The following was received:

City of Boston,
Office of the Mayor, August 23, 1955.

To the City Council.
Gentlemen:

Acting under Rule 7 of the County Classification and Compensation Plans, the Supervisor of Personnel on August 1 submitted to your Honorable Body revised schedules of compensation for officer personnel at the Charles Street Jail and the House of Correction. Adoption of these changes will make available for the various classes involved increased compensation comparable to that previously provided for members of the uniformed force in the Police Department.

To facilitate your consideration of the proposed changes, I submit herewith the accompanying transfer order. Approval of this order will serve to meet the legal objections raised in an opinion dated February 23, 1955, since it provides (1) an appropriation sufficient (2) to cover all classes of officer personnel involved.

I suggest that adoption of this transfer order be made a condition precedent to any action on the compensation revisions.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, $8,295.85, to the appropriation for Jail, 1, Personal Services, $3,365.65, House of Correction, 1, Personal Services, $4,930.20.

Referred to the Executive Committee.

TRANSFER OF LAND IN WEST ROXBURY TO PUBLIC WORKS DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, August 29, 1955.

To the Honorable City Council.
Gentlemen:

I transmit herewith communication received from George G. Hyland, Commissioner of Public Works, requesting that a parcel of land on the northeasterly side of Moreland street, West Roxbury, adjacent to the District Paving Yard, and acquired by the city through the foreclosing of a tax title, be transferred from the custody of the Real Property Department to the Public Works Department.

I submit herewith a form of order whereby this land may be transferred to the custody of the Commissioner of Public Works and recommend adoption of the same by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
August 26, 1955.

Hon. John B. Hynes,
Mayor of Boston.
Dear Mr. Mayor:

At the present time, the department has a local district paving yard located on Moreland street, West Roxbury.

I was informed some time ago that the lot adjacent to the paving yard had been foreclosed and was in the possession of the Real Property Board. I therefore contacted Commissioner Carp and requested the transfer of the latter-referenced property to this department to provide for the expansion of the present paving yard located on Moreland street and which incidentally serves the entire West Roxbury area. The members of the Board unanimously approved the transfer of the area, which contains 10,790 square feet, to this department for use as an addition to the local paving yard.

The necessary orders for submission to the City Council have been prepared concerning this matter, and I respectfully request that they be forwarded to the City Council, for its approval.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Whereas, The City of Boston by a decree of the Land Court dated March 16, 1955, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 4597, page 541, on about ten thousand seven hundred ninety (10,790) square feet of land on the northeasterly side of Moreland street, adjoining an estate now or formerly of City of Boston, being lot 5, shown on the assessors' plans, volume 10, page 97, on file with Suffolk Deeds; and

Whereas, The Commissioner of Public Works desires to use said parcel of land as an addition to the present paving yard; and

Whereas, The Real Property Board has voted that said parcel of land be transferred to the Public Works Department; now, therefore, it is hereby

Ordered, That the above-described parcel of land be, and the same hereby is, transferred from the care, custody, control and management of the Commissioner of Real Property to the care, custody, control and management of the Commissioner of Public Works.

Referred to the Committee on Public Lands.

TRANSFER OF APPROPRIATION TO PUBLIC CELEBRATIONS.

The following was received:

City of Boston,
Office of the Mayor, August 29, 1955.

To the City Council.
Gentlemen:

Saturday, September 17, is the 325th anniversary of the founding of Boston. In view of the fact it has been customary to take cognizance of our founding day, especially at the end of each 25-year period, I have organized a committee to assist in the celebration of the anniversary this year.

At the present time it is contemplated to take note of the 325th anniversary by a tableau depicting the settlement of Boston; by the unveiling of the painting, "Washington at Dorchester Heights," recently purchased by the City of Boston; by the installation of musical chimes at Faneuil Hall; by a banner Pops concert and fireworks at the Hatch Shell, and by other public events appropriate to the occasion.

In order to conduct these ceremonies the Public Celebrations account of the city should be augmented to the extent of $10,000.

Herewith I submit an order transferring that sum of money from the Reserve Fund and I most respectfully request adoption of the order by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, $10,000, to the appropriation for Public Celebrations, $10,000.

Referred to the Executive Committee.

TRANSFER OF APPROPRIATION TO MAYOR, OFFICE EXPENSES.

The following was received:

City of Boston,
Office of the Mayor, August 22, 1955.

To the City Council.
Gentlemen:

On several occasions in recent months, your Honorable Body has adopted orders suggesting that steps be taken to publicize throughout the country the business, industrial, and other advantages of Boston. I am pleased to advise you that tentative arrangements have been worked out to accomplish the objectives set forth in the several orders.

The proposal under consideration provides that Public Relations Management Corporation, 380 Madison avenue, New York, the largest public relations firm in the world, with twenty-five offices in the United States and Canada, will select a group of five of its agency principals, representing different geographical areas, to serve as a Plans Board. This group will meet not oftener than bimonthly, or less than quarterly, with the Mayor and department heads to

a. Advise on public relations problems.

b. Create promotional projects aimed at attracting favorable publicity and good will for Boston.

c. Plan news and feature material for release to newspapers and periodicals throughout the country.

d. Coordinate existing publicity activities.

e. Develop ideas for "selling" Boston to businessmen and visitors.

f. Exploit every opportunity to tell the city's good points and to correct misconceptions.

The Board members will receive no compensation but will be reimbursed for actual expenses incurred in attending meetings.

Mr. Paul A. Newsomc, who is president of Newsome & Co., Inc., with offices in the Statler Building, and affiliated with Public Relations Management Corporation, has agreed to serve as chairman of the proposed Plans Board. Col. Paul H. Hines, industrial counselor in this office, will act in a liaison capacity between the Board and the City.

It is anticipated that the expenses of Board members in attending meetings, together with charges for postage, mimeographing, telephone service, and other administrative expenses, will not exceed $5,000 on an annual basis.

I submit herewith an order providing for the transfer from the reserve fund of this amount, and I respectfully recommend adoption of the order by your Honorable Body.

Respectfully submitted,
J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, $5,000, to the appropriation for Mayor, Office Expenses. 2, Contractual Services, $4,500, 3, Supplies and Materials, $500.

Referred to the Executive Committee.

COMMENDATIONS TO MANAGEMENT AND STAFF OF WBZ AND WBZ—TV.

On motion of President HURLEY the rules were suspended on the order of business to allow the introduction of tbe following order by Councillor Hurley and all the members of the Council:

Whereas, The torrential rainfall and devastating floods of recent date brought despair, heartache, and tremendous personal losses to countless people in Massachusetts, New England, and other nearby states, and as far away as Pennsylvania; and

Whereas, Immediate aid, relief, and assistance were required by the unfortunate victims of this tragedy; and

Whereas, A drive was immediately started for funds for the American Red Cross to assist the disaster victims; and

Whereas, Our beloved Archbishop displayed his usual charity, devotion, love, and understanding, and leadership by contributing the purse presented to him on the occasion of his sixtieth birthday, and in so doing dramatically emphasized and publicized the tremendous need for immediate assistance; and

Whereas, Radio Station WBZ and Television Station WBZ—TV took up the challenge and began a drive that started in the early morning and continued throughout the entire day, evening and night, including an auction sale telecast and broadcast throughout the night; and

Whereas, The staff and management of WBZ and WBZ—TV contributed their time, efforts, and facilities in a generous and warmhearted manner in this labor of love, raising the approximate sum of $7,500, and again dramatically pointing out and publicizing the great need of the disaster victims and exemplifying the great virtue of Charity; be it

Resolved, That the members of the Boston City Council, in meeting assembled, extend their congratulations to WBZ and WBZ—TV for their fine contribution in the best tradition of public service by these two great mediums; and be it further

Resolved, That a copy of this resolution be prepared for presentation to WBZ and WBZ—TV.

The resolution was adopted under suspension of the rules.

REPORT ON PREPARATION AND PRINTING OF POLICE AND VOTING LISTS.

The following was received:

City of Boston,
Administrative Services Department,
August 5, 1955.

Walter J. Malloy,
City Clerk.

Dear Sir:

In accordance with the provisions of section 2 of chapter 3A of the Revised City Ordinances, I submit herewith copies of a report sent to the Mayor on the subject of the preparation and printing of the police and voting lists.

Very truly yours,
L. W. COSTELLO,
Administrative Secretary.

Administrative Services Department,
August 1, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

The present method of preparing and printing the police and votings lists is cumbersome, expensive and, in a sense, wasteful. The development and printing of the two lists involve roughly 3,200,000 separate acts or operations. In the current year the direct costs alone will total in the neighborhood of $220,000, and the entire cycle must be repeated each year, since it is impossible to salvage any portion of the work performed or records produced in the previous year.

In other municipalities throughout the country the problem has been met by the use of tabulating or addressograph equipment. By the use of punch cards or plates, permanent master files have been established, and each year these files have been brought up to date by eliminating the cards or plates of persons who have moved, died, etc., by correcting those cards or plates where a change in status of the person involved has occurred, and by including new cards or plates for new residents or voters. The maximum changes involved in establishing the files on a current basis have varied in various localities between 10 and 20 per cent. This means that where it is only necessary to process each year the "exceptions" in the master file, the annual effort involved may be reduced at least 80 per cent below that required when each year involves, as at present in Boston, a complete new set-up.

Philadelphia and Providence are now using tabulating equipment; whereas Newark, Baltimore, San Francisco, and Miami are using addressograph equipment. In Massachusetts, installations of this character have been made in Cambridge, Newton, Leominster, and Watertown. Staff members of this department have visited Newark, Cambridge, and Leominster and have been greatly impressed with the efficiency of the operations observed. Officials in these cities have been high in their praise of the manner in which the equipment has functioned.

After reviewing the experience of several of the cities previously mentioned, we suggest that consideration be given to the adoption of the following plan:

Install addressograph-multigraph equipment in the Printing Plant and start preparing addressograph plates for every name appearing on the police list for the current year. These plates will constitute a master file which will be located in an addressograph section to be established in the Printing Plant.

In suggesting that addressograph equipment be used, consideration was given to the fact that any reductions in cost secured by the new methods would affect adversely the income of the Printing Plant. Because of this fact it was decided that preference should be given to that type of equipment which could best be utilized in the Printing Plant not alone for the two lists directly involved but also for other types of allied work. On this basis it was agreed that an addressograph-multigraph installation would be more advantageous, since it could be installed and operated in the Printing Plant throughout the year.

In Massachusetts cities where the proposed system is actually in operation, shortly before the next annual listing is to start, the listing cards to be used by police officers are preprinted from the master file with all the information appearing on the plates. These preprinted cards are given to the officers as they start their visitations of all places of residence. While at any particular address, the officer verifies the information on the cards of those persons still residing at the address, makes notations on the cards of former residents of any change in status or location, and prepares new cards for those residents on which he has no preprinted card. Typewritten lists are then prepared from all cards on which changes have been recorded or which relate to new residents. These lists are then checked against the master file and appropriate changes and alterations made on the plates contained therein. When all exceptions and changes have been made, the master file reflects a current list of residents from which the printed list may be prepared.

According to the records of the Boston Election Department, 20,000 persons move annually to new addresses in the city and 40,000 persons "disappear" for one reason or another. The significance of these figures with relation to the proposed change is this—whereas at present police officers must annually fill out in their entirety 550,000 listing cards, under the proposed system a maximum of 60,000 cards would require attention beyond the verifications of the prelisted information. Eliminating almost 90 per cent of the present clerical burden borne by police officers should, it would seem, greatly expedite the completion of the annual listing operation. In addition, the typewritten lists reflecting these changes would contain only 60,000 names, whereas the lists now prepared by the Police Department include every name recorded by the police officers.

It was originally contemplated that the listing operations used in the Police Department for years could be revised to conform with the practice in other Massachusetts cities where the proposed system is in operation, thus simplifying procedures and securing substantial savings. Conferences with the Police Commissioner, however, raised questions as to whether the proposed system conforms with the provisions of the special laws relating to police listing in Boston and also whether it is desirable to furnish preprinted cards to police officers. Since it will take time to resolve these questions and possibly require amendments to the special laws, it has been decided to make no change, for this year at least, in the listing operations of the Police Department. Despite this decision, we believe it is feasible to apply the proposed system to the operations involved in the printing of the two lists and secure worthwhile savings and improvements in existing procedure. Briefly the operations will proceed as follows:

The typewritten list furnished by the Police Department to the Printing Plant will be checked against the plates in the master file. The plates of persons not found will be removed from the master file and placed in a suspense file. Subsequently, this file will be used to address the notices sent each year by the Election Department to "dropped persons," thus relieving the department of the great effort now involved in the manual preparation of such notices. New plates will be prepared for new residents as well as for changes in name, occupation, etc. Plates of those persons who moved will be associated, wherever possible, with "new residents" appearing at locations to which transfer in residence has taken place.

When every name appearing on the typewritten list has been checked and the appropriate changes and alterations made on the plates in the master file, they will be used in conjunction with the multigraph process to print the "List of Residents." Whereas, under the present system, the printing of this list requires the setting in type of 550,000 names, under the proposed system the preparation of the master files for the printing operation will involve the handling of approximately 60,000 names or plates.

In establishing the master addressograph file, tabs will be placed on all plates bearing the names of registered voters. When it comes time to print the voting lists, the addressograph machines can be adjusted so as to bypass all plates not tabbed. In preparing for the printing of the voting lists, therefore, the only new operation will be the preparation of plates for those names which are added by the Election Department through supplementary registration.

At the present time in preparing the current year's voting list, the Election Department checks every name on the police list against the voting list of the previous year. This work, which consumes about four months' time of the Election Department personnel, will be entirely eliminated under the proposed system. Also eliminated will be the necessity for the Printing Plant to set in type for the voting lists approximately 300,000 names.

The elimination of these two specific operations, together with reductions in and simplification of other phases of the present cumbersome system, will, it is estimated, produce savings in excess of $100,000.

To establish the proposed system will require the purchase of equipment costing in the neighborhood of $75,000. Funds for this purchase are available within the equipment loan. In addition, supplies costing approximately $8,000 will be needed, and in the initial stages of the installation clerical services involving an expenditure of $5,000 will be required. The final stages of the installation will be handled by the personnel of the Printing Plant who will also operate the system when once established. It is interesting to note, we believe, that the initial cost will be completely extinguished by savings secured during the first year the system is in operation.

One very desirable result from the system previously described will be the simplification and standardization of work in the Printing Department. At the present time, the printing of the police and voting lists consumes approximately six months of the time of Printing Plant personnel. During this six months it is necessary to have a substantial force at work in the department, and when the work is completed very often there is not enough new work to keep the large staff busy. Under the new system, it should be possible to establish a work program in the Plant which would be constant throughout the year and ensure a production schedule which would satisfy the needs of all departments using the Plant.

At the present time during the six months when the Plant is engaged with the two lists production of other work suffers, thus occasioning many complaints from departments concerning the service rendered. Much of the machinery at present in use in the Printing Plant is old and outmoded, thus limiting the character of work performed. The new equipment will give the Plant modern, high-speed machines for producing a wide variety of work.

With your approval, steps can be taken so as to place the system, as outlined, in operation at the beginning of 1956.

Respectfully submitted,
CHARLES J. FOX, Chairman,
JOHN A. SULLIVAN,
JOHN V. MORAN,
JAMES E. GILDEA,

COMMENDATIONS TO MANAGEMENT AND ALL PERSONNEL OF BOSTON RED SOX.

Coun. HURLEY, for all the members of the Council, offered the following:

Whereas, The Boston Red Sox have electrified the entire New England area by their hard fighting and determination and their will to win; and

Whereas, The interest they have generated has brought untold thousands upon thousands of dollars in business to the City of Boston to the benefit of the merchants and businessmen of the city; and

Whereas, They have made a spectacular climb to within three and one-half games of the top, making the fight an interesting and close one rather than the runaway it was predicted to be in late spring; and

Whereas, The Red Sox give every indication of continuing their surge and bringing the pennant to Boston; be it therefore

Resolved, That in appreciation for the great good this team has done for the City of Boston, its businessmen and merchants, and for the countless hours of recreation it has afforded the young and old and for the inspirational lessons it has taught everyone, the Boston City Council, on behalf of the people of Boston, extends to Mr. Thomas Yawkey, General Manager Joe Cronin, Manager Mike Higgins, the players, coaching staff, and all personnel associated with the operation of the team, their congratulations and good wishes for continued success, and an expression of gratitude for their efforts and accomplishments in helping the City of Boston; and be it further

Resolved, That the City Clerk prepare a copy of this resolution for presentation to the Boston Red Sox.

The resolution was adopted under suspension of the rules.

PRELIMINARY CITY ELECTION, SEPTEMBER 27, 1955.

Coun. HURLEY offered the following:

Ordered, That meetings of the citizens of this city qualified to vote for city officers be held at the several polling places designated for the purpose by the Board of Election Commissioners on Tuesday, September 27, 1955, for a preliminary election, to give in their votes for not more than one candidate for the office of Mayor, not more than nine candidates for the office of City Councillor and not more than five candidates for the office of School Committeeman.

The polls at said meetings shall be opened at eight o'clock A.M. and closed at eight o'clock P.M.

Ordered, That the City Clerk be hereby directed to give notice of said meetings according to law.

Passed under suspension of the rules.

PROPOSED AMENDMENTS TO COUNTY CLASSIFICATION AND COMPENSATION PLANS.

Coun. HURLEY offered the following:

That the order amending the County Classification and Compensation Plans as submitted by Mr. John A. Sullivan, Supervisor of Personnel, to the Council on August 1, 1955, and referred to the Executive Committee, be further amended as follows:

Strike out after the words "Compensation Grade" under the caption Clerk the figure 8 and insert in place thereof the figure 9.

Strike out after the words "Compensation Grade" under the caption Stenographer the figure 8 and insert in place thereof the figure 9.

Strike out after the words "Compensation Grade" under the caption Senior Clerks the figure 13 and insert in place thereof the figure 14.

Strike out after the words "Compensation Grade" under the caption Steam Fireman the figure 15 and insert in place thereof the figure 16.

Strike out after the words "Compensation Grade" under the caption Engineer Third Class—Plant the figure 16 and insert in place thereof the figure 17.

Strike out after the words "Compensation Grade" under the caption Principal Clerk the figure 17 and insert in place thereof the figure 18.

Strike out after the words "Compensation Grade" under the caption Hospital Supervisor the figure 20 and insert in place thereof the figure 21.

Strike out after the words "Compensation Grade" under the caption Chief Power Plant Engineer the figure 20 and insert in place thereof the figure 21.

Strike out after the words "Compensation Grade" under the caption Industries Supervisor the figure 22 and insert in place thereof the figure 23.

Strike out after the words "Compensation Grade" under the caption Head Clerk the figure 22 and insert in place thereof the figure 23.

Referred to the Supervisor of Personnel for report.

INCREASING PENSIONS PAYABLE UNDER PERMANENT SCHOOL PENSION FUND.

Coun. WHITE offered the following:

Ordered, That Chapter 594 of the Acts of 1955 entitled "An Act Increasing Pensions Payable Under the Permanent School Pension Fund in the City of Boston and Equalizing Pensions Paid Thereunder" be, and the same hereby is, accepted.

Passed under suspension of the rules.

SICK LEAVE FOR CERTAIN POLICE OFFICERS.

Coun. KERRIGAN offered the following:

Ordered, That chapter 437 of the Acts of 1955 entitled "An Act Relative to Sick Leave for Certain Police Officers of the City of Boston" be, and hereby is, accepted.

Passed under suspension of the rules.

CAMPAIGN AGAINST LITTERBUGS.

Coun. PIEMONTE offered the following:

Ordered, That his Honor the Mayor request the Public Works Commissioner, the Commissioner of Public Health, the Traffic Commissioner, the Park Commissioner, the Police Commissioner, and the Corporation Counsel of the City of Boston to confer for the purpose of coordinating the efforts of the various departments of our city in a permanent campaign to exterminate the litterbugs and to propose any suggested amendment or additions to the city ordinances that they in their opinion may feel helpful in solving this problem.

Passed under suspension of the rules.

DETAILED LIST OF TAX EXEMPT PROPERTY.

Coun. PIEMONTE offered the following:

Ordered, That the Board of Assessors be, and is hereby, requested to prepare a detailed list of the tax exempt property carried on the books of the Board of Assessors as of January 1, 1955; and that said list show the street and number, location, use and the assessed valuation of each property, and that this list be classified according to the type of tax exemption, such as hospital, educational, religious, city, county, or federal; and that a copy of said list be furnished the Boston City Council.

Passed under suspension of the rules.

EXTENSION OF FURTHER RELIEF TO CERTAIN FLOOD DAMAGE VICTIMS.

Coun. McLAUGHLIN offered the following:

Whereas, Home owners and businessmen in certain areas of Boston have been the victims of the ravages of the recent flood and suffered serious losses; and

Whereas, All sections of our Commonwealth, where this disaster struck and great loss of life and property has resulted, are being extended federal, state, county, and city assistance in many forms; and

Whereas, The sympathy and assistance of people in all sections of the United States is being offered to the flood victims of the New England states, therefore be it

Resolved, That the members of the Boston City Council, in meeting assembled, request his Honor the Mayor to consider the advisability of extending further relief to home owners and businessmen, who are faced with major flood-damage losses and repairs, by the abatement of taxes and thereby lend the helping hand of all people of the City of Boston to those unfortunate victims of the ravages of this unprecedented flood in our city.

Coun. PIEMONTE moved to amend the foregoing resolution by adding the following words: "and be it further, Resolved, To this end his Honor the Mayor avail himself or the City of Boston, to the fullest extent possible of reimbursement as provided for by the Commonwealth of Massachusetts."

The amendment was carried.

The resolution, as amended, was adopted under suspension of the rules.

FEDERAL INSURANCE AGAINST TROPICAL STORMS.

Coun. McLAUGHLIN offered the following:

Whereas, The flood-damage to homes and business in Massachusetts will amount to many millions of dollars, practically none of which is covered by any type of insurance; and

Whereas, Massachusetts and the New England States are now, apparently, in the path of tropical storms against which there is very little which can be done in the way of foresighted protective programs; and

Whereas, Insurance policies, as presently written, do not cover homes and business property against the ravages of storms such as recently suffered by so many in our Commonwealth; therefore be it

Resolved, That the members of the Boston City Council, in meeting assembled, desire to petition the Massachusetts Delegation in the Congress of the United States, urging that they coordinate their efforts in the establishment of some form of federal insurance which will protect those who suffer loss to home or business, as the result of hurricane, flood, or tropical storms heretofore unusual to our New England climate; and, be it further

Resolved, That a copy of this resolution be forwarded promptly to all members of the Massachusetts Delegation in Congress and the Senate of the United States.

The resolution was adopted under suspension of the rules.

INVESTIGATION OF CAUSES OF FLOODED LAND IN HYDE PARK DISTRICT.

Coun. FOLEY offered the following:

Ordered, That his Honor the Mayor direct the Public Works Commissioner to investigate the recent flooding of lands and homes in the Hyde Park district to determine whether the cause or partial cause of the floodings in Boston was the location, design, or operation of the dams in the area down river from the flooded area in Boston.

That a report of the finds of the said Public Works Commissioner be forwarded to the City Council when prepared.

Passed under suspension of the rules.

PUBLIC HEARING ON TRASH AND GARBAGE COLLECTION IN WEST ROXBURY DISTRICT.

Coun. FOLEY offered the following:

Ordered, That his Honor the Mayor be requested to direct the Public Works Commissioner to hold an open public advertised hearing for citizens and taxpayers in the West Roxbury district on the subject of adequate collection of trash and rubbish in the West Roxbury district.

Passed under suspension of the rules.

Later in the session Councillor Foley moved reconsideration of the passage of the foregoing order. Reconsideration prevailed.

On motion of Councillor Foley the order was amended by striking out the word "rubbish" and inserting the word "garbage."

The order, as amended, was then passed under suspension of the rules.

OPPOSITION TO VARIANCE IN ZONING OF LOT, SOUTH BOSTON.

Coun. FOLEY, McCORMACK, and KERRIGAN offered the following:

Ordered, The Boston City Council places itself on record as being unalterably opposed to the petition now pending before the Board of Zoning Appeal for a variance in the zoning of a lot bounded by First and Second streets and Farragut road in South Boston.

Passed under suspension of the rules.

RETROACTIVE PAY IN CERTAIN CASES UNDER THE COUNTY CLASSIFICATION AND COMPENSATION PLAN.

Coun. FOLEY offered the following:

Ordered, That the County Compensation Plan be, and hereby is, amended as follows:

"That an independent contingent fund be established within the County Service for the payment of retroactive sums to those categories of county employees to whom an adjustment in wages is temporarily denied because of administrative reasons not directly bearing on the question of the merit and justification of the wage increase."

Referred to the Supervisor of Personnel for report.

CONTINGENT FUND FOR PAYMENT OF RETROACTIVE WAGES UNDER THE CLASSIFICATION AND COMPENSATION PLAN FOR CITY EMPLOYEES.

Coun. FOLEY offered the following:

Ordered, That the administration of the Municipal Compensation Plan be administered so that each category of employees to whom an adjustment in wages is granted be paid retroactive wages from the date of their appeal to the Compensation Review Board.

That a contingent fund be set aside each year to pay such retroactive wages as each appeal is determined by the Compensation Review Board.

Passed under suspension of the rules.

CONGRATULATIONS TO ACADIANS OF MEMRAMCOCK VALLEY.

Coun. AHEARN offered the following:

Whereas, Massachusetts Acadians are joined in the public thanksgiving commemorating the survival and deliverance of the Acadian people beginning with the 1755 Deportation from Grand Pre, which commemoration began in August, 1954, and will end in August, 1955, with religious rites and various celebrations; and

Whereas, The story of Acadie is one of the finest pages in history, immortalized by Henry Wadsworth Longfellow, the famous poet of Acadie; and

Whereas, It is meet and proper that greetings be sent from Boston to Memramcock, New Brunswick, Canada, which is the site of the largest regular Acadian parish—the first set up on the return from exile—extending to the people of the Memramcock Valley congratulations for the success of Acadie, since so many Acadians were exiled in 1755 and unloaded in Boston whence they left as a group of 1,100 in 1766 in order to establish new homes in the Memramcock region of Acadie; and

Whereas, There are several thousand Acadians in Boston who recently have been in convention in public celebration and have been greeted by both state and church; therefore be it

Resolved, That the Boston City Council, in meeting assembled, extend its congratulations to the people of the Memramcock Valley and join with them in profound thanksgiving on the occasion of the commemoration of the survival and deliverance of the Acadian people and extends to them every best wish for the success of Acadie, which has been pyramiding since 1855.

The resolution was adopted under suspension of the rules.

APPROPRIATION FOR STUDY OF ECONOMIC PROBLEMS IN BOSTON.

Coun. HAILER offered the following:

Ordered, That his Honor, the Mayor, be requested to appropriate $15,000 for a study of the economic problems of the City of Boston—this money to be used by the Boston College seminar who would conduct the study.

Passed under suspension of the rules.

FUNDS FOR EIGHTH ANNUAL NATIONAL CONVENTION OF FEDERAL EMPLOYEES VETERANS ASSOCIATION.

Coun. HAILER offered the following:

Ordered, That his Honor the Mayor be requested to confer with the City Greeter for the purpose of granting funds for the Eighth Annual National Convention of the Federal Employees Veterans Association to be held in Boston in September.

Passed under suspension of the rules.

COMPLETION OF CUMMINS HIGHWAY, FROM CALVARY CEMETERY TO MATTAPAN SQUARE.

Coun. HAILER offered the following:

Ordered, That his Honor the Mayor be requested to have the Public Works Commissioner confer with the State Public Works Commissioner relative to setting a date for the completion of Cummins Highway, from Calvary Cemetery to Mattapan square.

Passed under suspension of the rules.

Adjourned at 5.28 P.M., on motion of Councillor McCormack, to meet on Monday, September 12, 1955, at 2 P.M.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

(Stenographic copy of such debate on file in office of City Clerk.)

CLAIMS ALLOWED.

The Mayor, upon recommendation of the Corporation Counsel, has approved the following claims:

Joseph P. Lyons, 49 Greaton road, West Roxbury, to be reimbursed in the sum of $399, as a result of an accident which occurred on May 26, 1948, when a motor vehicle belonging to the Highway Division, Public Works Department, which he was operating, collided with an automobile owned by Carmelo Prestigiovanni, causing personal injuries to Joseph Sidarowicz, a passenger.

Marion Donald, 119 X street, South Boston, in the sum of $350, as compensation for personal injuries caused by a hole in the sidewalk in front of 813 East Fourth street, April 4, 1955.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 47 SATURDAY, SEPTEMBER 24, 1955. NO. 39

BOSTON MARKS 325TH BIRTHDAY ANNIVERSARY BY ALL-DAY FETE, BEGINNING WITH UNVEILING OF FAMOUS "WASHINGTON" PAINTING AT PUBLIC LIBRARY—ALSO DEDICATION OF 25-BELL ELECTRIC CARILLON IN FANEUIL HALL.

With Mayor John B. Hynes taking the leading part, Boston, on Saturday, September 17, observed the 325th anniversary of her founding with exercises from noon, with the unveiling of the historic painting "Washington at Dorchester Heights," to the huge display of fireworks on the Charles River Basin, near the Hatch Shell on the Esplanade.

Following the unveiling of the painting in a noon ceremony at the Boston Public Library came the dedication of the chimes.

Then followed a parade to Boston Common. There the Mayor presented official city flags to the Boston Battalion of the 101st Infantry; the Ancient and Honorable Artillery Company and the Holy Name Church band of West Roxbury, CYO champions.

800-CAR AUTOMATIC PARKING STRUCTURE TO BE ERECTED IN DOWNTOWN BOSTON, IN HAYWARD PLACE—24,000 SQUARE FEET OF LAND TAKEN BY REAL PROPERTY BOARD FOR PURPOSE—MAYOR HYNES MAKES ANNOUNCEMENT—PLANS FOR UNIT IN RETAIL DISTRICT GET UNDER WAY—ANOTHER FACILITY BEING PREPARED FOR UPHAMS CORNER SECTION.

Mayor Hynes has announced that the Real Property Board at its meeting voted a final taking in Hayward place, in downtown Boston, of approximately 24,000 square feet for land for an 800-car automatic parking structure. The Mayor also announced the Real Property Board engaged the services of William Nelson Jacobs Association, Inc., of Stuart street, Boston, to prepare plans and specifications for this much-needed parking unit in the heart of the Boston retail district. GRATITUDE FOR HERITAGE BEQUEATHED US BY THE FOUNDING FATHERS DEVOUTLY EXPRESSED BY DR. DENNIS C. HALEY AT CEREMONIES COMMEMORATING 325TH ANNIVERSARY OF ESTABLISHMENT OF COLONY NOW BECOME MOTHER CITY OF AMERICA—CEREMONIES HELD AT HATCH SHELL, ON THE ESPLANADE, AS CLIMAX OF DAY-LONG CELEBRATION ON SATURDAY, WITH MAYOR HYNES OFFICIATING AS PRESIDING OFFICER.

The following is the address delivered by Dr. Dennis C. Haley at the ceremonies in observance of the 325th anniversary of the founding of Boston, September 17, at the Hatch Memorial Shell:

From time to time in the vibrant life of our great city, it has been the custom to honor in appropriate ceremonies the staunch and God-fearing men and women who established here in a wilderness the colony which became Boston, the Mother City of America, and who established the basic pattern for a national way of life that has brought forth the most powerful and the most productive society of free men the world has yet known.

The deeds of these founding fathers have long since been perpetuated in song and story. Their lives have become living legends of faith and strength and courage. Their ideals and aspirations have moved countless men and women of later generations to heroic and creative careers of great consequence to our community, our nation, and the world.

Three hundred and twenty-five years ago today, that sturdy and resolute band debarked on the Boston shore not far from this famous place of assembly where we are gathered together this evening. It is most fitting, therefore, that on this September anniversary evening we recall with reverence and deep gratitude the heritage they left us; that we dwell especially on their nobility of thought and tenacity of purpose which have ever been, and God willing, ever shall be the inspiration of our people.

Bronze Memorial Dedicated.

In 1930 the Tercentenary of the Founding of Boston was observed in a year-long series of special commemorative events. A feature of that celebration was the dedication on September 17 of a bronze memorial appropriately placed on the Beacon street border of the Common, opposite Spruce street, the approximate site of the homestead of the first lone white settler, Reverend William Blaxton (or Blackstone). This impressive memorial that you see as you walk up Beacon street, from Charles, depicts the arrival of the first Massachusetts Bay colonists led by John Winthrop shown grasping the welcoming hand of the solitary settler who was the sole forerunner of a new society destined to bring an era of hope and freedom for all mankind.

Both of these men, William Blaxton and John Winthrop, were products of great English universities in an age of unrest and controversy. Both were by nature tolerant and religious. Both had left comfortable homes and rich opportunities in England primarily to seek in a primitive land the peace of soul and spiritual satisfaction that England did not offer them.

Reverend Blaxton, a graduate of Emmanuel College, and an ordained minister, had come originally to Weymouth in 1623 with a group eager to establish Episcopacy in the new world. When this group abandoned their project and returned to England, Blaxton removed his possessions to Boston, then called Shawmut, and established his homestead in 1625, his only neighbors being friendly Indians.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

MAYOR HYNES PRESENTS SECOND OF SERIES OF REPORTS ON HIS STEWARDSHIP AS MAYOR OF BOSTON IN PAST SIX YEARS—THANKS CITIZENS FOR CONFIDENCE PLACED IN HIM THAT ENCOURAGES HIM TO WISH TO CARRY ON.

Following are the remarks of his Honor the Mayor, John B. Hynes, over WNAC-TV, on September 15:

As a candidate, once again, for Mayor of Boston, I am presenting through a series of telecasts, a report of my service as mayor.

This is the second in the series. Others will be made prior to the Preliminary Election, September 27, now less than two weeks away.

By this series of telecasts I hope to bring to the voters of Boston a clear, concise, and informative report of the condition of the Boston city government, with special emphasis on my own administration as mayor.

Last Monday night, I discussed, quite generally to be sure, the desirability—even necessity—for public confidence in the administration at City Hall. I offered the observation that without the confidence of the public behind him—and by the public I mean every element in our population—no mayor can hope to accomplish much, if anything, worthwhile. Indeed, I think it must be obvious that any mayor, or any aspirant for that position, who lacks within himself a sincere desire to serve the public well, rather than to serve himself well—such a mayor cannot be a good chief executive of our city. When the general public has confidence in a city administration no mountain is too high to climb; no river is too broad to cross; no problem is too difficult of solution.

After six years in office, during which time the efforts and the acts of my administration have been under the glaring searchlight of public opinion, I am happy to state the confidence in my administration has increased, rather than diminished.

Purposes of City Government.

Last Monday night, I also defined my conception of the objectives and the purposes of a city government. I will not, tonight, repeat that definition. Merely let me say, that I believe the fundamental purpose of government, and this applies especially to city or town government, is to bring benefit, in some way, of some kind, to humanity. Unless the people are served, and served well, with uncommon regard for those in the community who need help, temporarily or permanently, that government is not performing its primary task, and has lost sight of the reason for its existence. I am proud to say that my administration has not forgotten its primary obligations to the people—to all the people. In fact, I believe that our city has never before done so much for so many people needing help and assistance.

Tonight, let me run through with you, some of the activities and accomplishments of my administration. If time permitted, many of these accomplishments I will refer to, could be in themselves, the subject matter of a full 15-minute telecast.

The outstanding achievement of my administration is the contribution we have made to the reawakening of civic pride and the creation of a new spirit of enthusiasm which will be for the eventual good of all the people of Boston. I venture the belief that even my opponents will grant, albeit reluctantly, that my administration has been responsible, in no small measure, for the healthier attitude we find in our city today.

We have adopted almost all of the recommendations of the $150,000 survey of our city government made under the auspices of the Boston Finance Commission some few years ago, thus improving municipal operations.

We have reorganized the city government for more direct, more efficient, and more economical service to the public by the reduction in number of city departments from 37 to 23.

We have strengthened the credit standing of our city which — a few years ago — was in a sickly state, to say the least. Today, the securities of our city are in demand. The Boston investment houses which, not too long ago, looked the other way when Boston was floating a bond issue, now compete with other investment houses for our bonds. Our city is in good financial repute throughout the country.

We have established a compensation-classification plan for city employees, a fair and a just plan. No longer must city employees rely on political friendships or depend on their luck in picking the right candidate for mayor, in order to receive a promotion or an increase in pay to which they are entitled.

Economies and Improvements

We have accomplished in many departments various economies which have not, in any case, interfered with good public service, the most noteworthy of which is the significant saving in the annual expenditures for refuse collection and disposal.

We have improved, in numerous ways, the physical plant of our city by the construction and reconstruction of more streets and the replacement of more gas lamps with modern electric lights than in any like period in the city's history; we have made long-deferred major repairs to bridges, hospital buildings, and other properties of the city. We have built new fire stations, new library buildings, a new gymnasium in Roxbury, a new swimming pool in the North End, new playgrounds, and new small-tot play spaces in congested areas. We have improved the park and playground system of our city to the point where our Parks and Recreation Department is, today, the most active, most rounded, most complete department of its kind in our country. The ordinary and extraordinary activities of our Parks and Recreation Department are a most interesting chapter of what our city is doing for our people in all age brackets. I hope to have the chance, before this campaign is over, to tell you that story.

We have provided the funds for our School Department to build 10 new school buildings in various sections of the city, thus permitting that department to meet the problem of changing times and shifting populations. We shall provide even further funds for this essential purpose.

We have established in 15 districts of our city, neighborhood rehabilitation committees which are attempting, in cooperation with city departments, to stem the growth of blight and decay in our old city. Already the work of these committees, and the improvements made through their efforts are noticeable in two of the older sections of the city.

We have constructed two large parking facilities in downtown Boston, and we are beginning a program for the construction of about six more of these parking facilities in the business area of our city, thus preserving property values in the downtown section, and relieving traffic congestion on city streets.

We are engaged in a program for the construction of open-air parking facilities in many of the local shopping centers in our city. In operation at the present time are parking areas in Roslindale, Roxbury, Brighton, the North End, and under planning for early construction are similar areas in Uphams Corner and Fields Corner in Dorchester, Mattapan square, East Boston, and, in fact, almost every section of the city.

We have begun to redevelop the city in those sections which have become old and run down, and which are not attractive for rebuilding by private capital. Twenty-four acres of land in the South End will shortly be cleared and rebuilt. Within the next few years, we shall redevelop other areas which lend themselves to rebuilding and redevelopment on a large scale.

Many Accomplishments.

We successfully met the acute shortage of housing by the construction of more public housing per capita, than any other large city in the United States.

We have cooperated with the state government, and the Metropolitan District Commission, in the major improvements to our highways which will make Boston easy to enter, and easy to leave, and also make Boston a more desirable place in which to shop. New roads like the Central Artery will, I am confident, make Boston more accessible and will, I am also confident, encourage new business enterprises to settle in our city.

We have many other accomplishments of note, and equally as forward-looking as those I have just mentioned which I shall refer to on another occasion. We have under consideration, and in the planning stage, still other improvements in operating procedures, and in the physical plant of our city.

To carry out our plans, and to continue our program, the retention in office of the present administration would seem to be desirable. At the present time, I am discussing with three different groups, three different development projects in Boston, each of which calls for the investment by private capital of many millions of dollars with the consequent creation of new employment opportunities.

These investors, ladies and gentlemen, will not come to Boston if the city administration is antagonistic to business; if the city administration is headed by an individual who thinks, and talks, and acts like a political demagogue; or if the city administration lacks the confidence of the public.

Business is the lifeblood of any large city. The more business we have, the happier community we will have, and the more prosperity and security we will

have for the white collar worker, the mechanic, the seamstress, the laborer—everyone in our city.

My administration has been dedicated to the service of all the people. If I am re-elected, we shall continue that type of administration. We have shown, I believe, that efficiency and progress, spurred on by the right motives, can go hand in hand, for the good of all.

If, after sober reflection, you believe my administration has met with your expectations, I will be most pleased and grateful if you will express your approval by voting for me when you go to the polls. I will do my job as I think you, my fellow citizens, want it done.

BOSTON MARKS 325TH BIRTHDAY ANNIVERSARY.

(Continued from page 1125.)

Mayor Hynes placed a wreath on the Founders Monument, on the Beacon street side of the Common. The monument was erected in 1930 on the site of the home of William Blaxton, Boston's first settler.

Shortly after the more than 1,000 young bandsmen and their drum majors paraded off the Common, a concert followed at the Hatch Memorial Shell on the Esplanade.

The Air Force Band from Mitchell Field, Garden City, N. Y., vied with a 60-piece Boston concert orchestra under the direction of John Kiley; Porter Heaps, organist, also performed.

Harry C. Blake was chairman of the day's program.

The fireworks display, one of Boston's most brilliant, soared from Navy barges anchored in the Charles.

PARKING STRUCTURE FOR HAYWARD PLACE.

(Continued from page 1125.)

ward place facility will commence next spring and probably be completed by Christmas.

The Mayor also announced that the Real Property Board voted to take approximately 24,000 square feet of land at Belden and Wendover streets, in the Uphams Corner section of Boston, for the construction of a 75-car, open-air, metered, parking facility. The Mayor announced that plans and specifications for this facility should be completed within 30 days.

ADDRESS OF DENNIS C. HALEY AT OBSERVANCE OF BIRTHDAY ANNIVERSARY.

John Winthrop, a graduate of Trinity College, an attorney, and a man of affairs in the Mother Country, was of strong Puritan convictions. Although not a clergyman, it had been his desire and ambition to plant the gospel in New England. Thus it was that he became a member of the company created under the charter of March 4, 1629, granted to the Governor and the Company of Massachusetts Bay in New England and was one of the signers of the articles of agreement on August 29, 1629. Later it was agreed that the government be settled in New England, and John Winthrop was elected governor for one year.

WELCOMED BY BLAXTON.

After harrowing months of preparation, John Winthrop and more than 900 followers sailed for the new land on April 8, 1630, in eleven ships, reaching Salem Harbor on June 12. Although some of the settlers dispersed into localities which later became Medford, Roxbury, Lynn, Watertown, and Dorchester, Governor Winthrop selected Charlestown as the site of his colony, but soon sought a more suitable location. Blaxton extended an invitation to settle near him; and Governor Winthrop, impressed by the excellent water supply and other features, readily accepted. On September 17, 1630, he and his followers were warmly received by Blaxton.

For Blaxton that meeting was to mean the beginning of the end of his peaceful existence and his removal to Rhode Island a few years later to escape the encroaching tide of human affairs. For Winthrop it was the culmination of his dearest hope and the beginning of a great career to be guided always by the goal he had set while on his ship the "Arbella" when he wrote:

> "For we must consider that we shall be as a city upon a hill. The eyes of all people are upon us so that if we shall deal falsely with our God in this work we have undertaken, we shall be made a story and a by-word through the world."

Those who came with Winthrop to build a good and godly society were men of substance and position, experienced in worldly affairs, independent of mind and means, determined, pious, ambitious, and resolute. With all these exemplary qualities and with a spirit of independence and determination the Massachusetts Bay Colonists under John Winthrop undertook the work of establishing a new society. This society was so conceived that under the influence of growing waves of new settlers who brought philosophies and religious beliefs from many lands, it evolved into the constitutional type of representative government which is the strength and pride of our state and nation.

The largest body of educated men in a European colony, these men and women recognized the interdependence of learning and their new found liberty, and as a result they soon gave expression to their desire to perpetuate that culture which had produced them. So within five years they established a public school, followed two years later by a substantial appropriation for a "schoole or colledge" at New Towne, presently renamed Cambridge. Thus out of their determination "to advance learning and perpetuate it to posterity" came the Boston Public Latin School and Harvard College, the foundations of our American educational system.

FAITH IN GOD.

The faith in God, the love of liberty, and the spirit of independence which animated the founding fathers have so inspired the generations that have followed that Boston has since been a national arsenal of leadership and achievement. Down through the years in times of stress and crisis the fires of patriotic fervor have been fed by such valiant and courageous figures as Paul Revere, Samuel Adams, John Adams, Benjamin Franklin, Cotton Mather, John Hancock, Bishop Cheverus, and Robert Treat Paine.

Our schools and colleges, our business and industrial enterprises have sent forth to the farthest corners of our land men and women who have helped to build a nation in the godly and independent spirit of the founding fathers. In the halls of congress, the temples of justice, the courts of law, in institutions of learning, in the pulpit, and in all industries, businesses, and professions our people have kept faith with the founders by contributing substantially to the growth and strength of our city, state, and nation.

Here at home we have preserved our ancient institutions and historic shrines dear to the hearts of all Americans. Yet we have continued to build upon our heritage and thus ever taking renewed vigor from the example of our predecessors have contributed unceasingly to the welfare of our people.

MANY "FIRSTS" IN BOSTON.

Here in Boston was first established representative government and free public education. Here was founded the first high school in America, the first public evening schools, the first free school for the deaf, the first municipal public library, the first municipal system of public parks, the first system of medical examination of public school children, the first rapid transit system, the first juvenile court, the first medical research center. All about us stand monuments to these great achievements and others too numerous to mention to demonstrate that generations past, yes, and our present generation, striving in the spirit of the founding fathers, have justly earned for Boston such cherished titles as "The Athens of America," "The Cradle of Liberty," and "The Hub of the Universe."

Today is truly a most significant occasion. Not only does it mark the founding of our great, beloved city, but it is also the 175th anniversary of the effective date of the Constitution of the Commonwealth of Massachusetts, September 17, 1780, and the anniversary of the signing of the Federal Constitution, seven years later.

Thus as we reflect this evening upon the work of our honored founding fathers, the effective inspiration they have given to succeeding generations, and as we look upon our thriving, beloved city, a great metropolitan center, growing greater year by year in strength and influence under leadership of integrity, we realize—to paraphrase the motto on our city seal—that God has indeed been with us as He was with our fathers.

It is with reverent gratitude to God, therefore, for His beneficence to the founding fathers and to all who have been inspired by their sterling qualities to lives of achievement in this land of freedom that we close our remarks secure in the knowledge that so long as we continue to live in His Holy Light so long shall we prosper and advance. With such faith directing and strengthening our individual and civic efforts we look with hope to the future as we review with thankfulness the past, for—in the words of Edwin Markham's "Ode to Boston"—we are confident that whatever challenge the future brings

> " . . . your strong men will rise to meet the call,
> God standing in them, terrible and tall,
> And so we praise, O city by the sea,
> All you have been and all that you will be."

The School Committee has approved proposals for cleaning glass in windows, doors, and transoms on the outside of Boston public schools. Bids, opened Thursday, August 4, were received from the following concerns:
Veterans' Window Cleaning Company, Kenmore Cleaning Company, Globe Cleaning Company, Careful Cleaning Company, Boston Window and Floor Cleaning Company, Bay View Window Cleaning Company, Bay State Cleaning Company, Aetna Window Cleaning Company.

Awards were made to the lowest responsible bidders, as follows:
Aetna Window Cleaning Company, $9,523.37.
Boston Window and Floor Cleaning Company, $5,011.24.
Globe Cleaning Company, $2,100.76.
Veterans' Window Cleaning Company, $5,245.94.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with contractors, business firms, and organizations for furnishing labor, supplies, etc. Communications from heads of the departments interested were as follows:

ADMINISTRATIVE SERVICES DEPARTMENT.
Purchasing Division.

BOSTON, September 9, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This office is in receipt of a requisition for radiation handling and protection equipment, manufactured by Mitchell Radiation Products, Norristown, Pennsylvania.

Atlantex Corporation who is the exclusive franchise distributor for products manufactured by Mitchell Radiation Products has submitted a written quotation on the above equipment. Owing to the fact that Atlantex Corporation is the exclusive distributor, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to this company. It is my opinion that, in this way, the best interests of the city will be served.

Approximate total amount of contract will be $1,238.50, net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BOSTON TRAFFIC COMMISSION.

BOSTON, September 12, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department has experienced considerable difficulty with our heating plant and after consultation with several heating engineers it was decided that the draft of the burners was too low and that this condition could be corrected by installing a draft inducer or by extending the chimney 20 feet in height.

The engineers estimated that the cost of installing the draft inducer would be twice as much as the extension of the chimney and that while the draft inducer would be preferable the extension would be satisfactory.

Inasmuch as the heating system will soon be in operation it was decided to get informal bids to expedite the extension. The following bids were received:

National Waterproofing Company, $1,135; Seltzer & Co., Inc., $1,490; D. Antonellis, Inc., $1,750; J. F. Stack & Co., $1,830; Martin J. Kelly Company, Inc., $2,397; P. J. Cantwell & Son, $2,678.

At the meeting of the Boston Traffic Commission on September 8, 1955, it was voted to request your permission to award a contract, without advertising, to the National Waterproofing Company, the low bidder.

Respectfully submitted,

WM. ARTHUR REILLY,
Commissioner.

DEPARTMENT OF SCHOOL BUILDINGS.

BOSTON, September 15, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Through the office of Dr. Dennis Haley, Superintendent of Public Schools, I have received a requisition dated August 31, 1955, for the replacement of 399 panes of glass of various sizes. Since the date of that requisition, I know that many more panes of glass need replacement.

For many years, this department has had broken glass replaced on the basis of unit costs. The last schedule of unit prices was established in 1947.

As this type of work will not permit of advertising, I respectfully request your Honor's permission to waive the provision for advertising and award a contract, without advertising, to the Dorchester Plate Glass Company, 270 Adams street, Dorchester, in an amount not to exceed $2,000. When work is completed, the prices will be billed on the basis of the glass replacement schedule which was established in 1947 and is now in force.

Very truly yours,

JAMES H. MOONEY,
Superintendent of Construction.

HOSPITAL DEPARTMENT.

BOSTON, August 22, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The heavy rainfall of August 18 and 19, 1955, caused considerable damage to the buildings at Long Island Hospital. Because there is extreme danger to the health of the patients and employees, it is necessary to repair this damage immediately.

We respectfully request permission to award a contract to M. Solimando, 584 Columbia road, Dorchester, for removing the collapsed masonry wall of the tunnel under Wards H, I, and J, and to erect a new wall approximately 10 feet high and 55 feet long, in the amount of $2,470.22, without advertising, as an emergency measure.

Respectfully yours,

RICHARD J. CONDON,
President, Board of Trustees.

BOSTON, September 9, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

YOUR HONOR:

Your permission is respectfully requested to dispense with public advertising and to award a contract to the Boston Edison Company in an amount not to exceed $5,949 for service work required between the property line and our electric vault to permit electric service to be supplied from underground.

This work is necessary because the Boston Edison Company is changing their wiring on River street from an overhead to an underground service. In accordance with their system, our wiring from the street to the vault must go undergound, too.

In view of the professional nature of the services involved, it is felt that nothing would be gained by publicly advertising for proposals for this work.

Respectfully submitted,

RICHARD J. CONDON,
President, Board of Trustees.

REAL PROPERTY DEPARTMENT.

BOSTON, September 9, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Real Property Board proposes to engage the services of John Guarino, A.I.A., 2 Lexington street, East Boston, Mass., as architect, in connection with the proposed construction of an open-air, off-street parking facility at Cleary square, Hyde Park.

The estimated cost of the proposed facility is approximately $40,000, and the architect shall be paid a fee equal to 5 per cent of the full amount of the cost of the construction, not to exceed $2,000; this contract to include supervision of the work to be done.

In view of the nature of the professional services involved, no benefit would be gained by advertising for bids, and it is respectfully requested that permission be given to award the contract to John Guarino, A.I.A., without public advertising.

Respectfully submitted,

HERMAN CARP,
Commissioner.

—

BOSTON, September 13, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This is supplemental to our letter of July 26, 1955, in which we requested permission to engage the services of William A. Fisher Company, Inc., 14 Court square, Boston, as engineers, in connection with the proposed construction of an open-air, off-street parking facility at Central square, East Boston.

In going over our computation, we find that our estimate of costs was in error, so that I request leave to change paragraph 2 of the above-mentioned letter to read:

"The estimated cost of the proposed facility is approximately $30,000, and the engineers shall be paid a fee equal to 5 per cent of the full amount of the cost of construction, not to exceed $1,500; this contract to include supervision of the work to be done."

In view of the nature of the professional services involved, no benefit would be gained by advertising for bids, and it is respectfully requested that permission be

given to award the contract to William A. Fisher Company, Inc., without public advertising.

Respectfully submitted,

HERMAN CARP,
Commissioner.

SUFFOLK COUNTY.

MUNICIPAL COURT.

For Criminal Business.

BOSTON, September 12, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

In accordance with the provisions of chapter 216, of the Acts of 1950, and chapter 182, of the Acts of 1951, I respectfully request permission to award a contract for registration index books to Henry Rosnosky of 16 Lincoln street, Boston, without advertising, for the calendar year 1956.

Mr. Rosnosky has furnished these types of books in the past and is familiar with the requirements of this court.

These books will consist of two sets of sixteen volumes each—Parking Registration Index Books — one set for uptown violations and one set for downtown violations, at $988 per set or a total of $1,976.

Respectfully yours,

DANIEL J. LYNCH,
Clerk of Court.

—

BOSTON, September 12, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

In accordance with the provisions of chapter 216, of the Acts of 1950, and chapter 182, of the Acts of 1951, I respectfully request permission to award a contract for traffic violation slips to Henry Rosnosky of 16 Lincoln street, Boston, without advertising, for the calendar year 1956, and the balance of this year.

Mr. Rosnosky has furnished these violation slips to the court over a long period of years and expects to be able to deliver them on quick notice when slips are needed.

I am estimating at the present time that there will be needed 130,000 for the balance of this year and 500,000 for next year, or a total of 630,000.

These slips are to cost $9.82 per thousand sets, including one time carbons, three slips to a set, or a total of $6,186.60. This represents an increase in price over the previous order due to an error in the bid made on the 1955 contract.

Respectfully yours,

DANIEL J. LYNCH,
Clerk of Court.

EXTRA WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

Rufo Construction Company, Inc., has been directed to perform the following extra work under the contract for bituminous concrete pavement in Guest street and Hemman street, dated November 12, 1954:

From Hemman street deliver to West Roxbury Paving Yard 25 linear feet of new straight edgestone at $2.35 per linear foot and 4.5 linear feet of new circular edgestone at $3.68 per linear foot. Estimated cost of extra work, $75.31.

EXTENSION OF CONTRACTS.

HOSPITAL DEPARTMENT.

Sanatorium Division.

It is agreed that the words "120 calendar days" appearing in the contract for performing alterations and renewals to certain toilets and steam systems in various buildings at the Sanatorium Division of the Boston City Hospital, between the City of Boston and Parkman Construction Company, Inc., dated December 31, 1954, as subsequently amended, be stricken out and the words "September 30, 1955," be substituted in their place.

PARKS AND RECREATION DEPARTMENT.

Faletra Brothers, Inc., has been granted an extension of time until October 15, 1955, for the completion of the contract for constructing a play area at William Gary Walsh Playground, Dorchester.

—

Dorchester Plate and Window Glass Company have been granted an extension of time until October 1, 1955, for the completion of the contract for repairing and painting greenhouses, Franklin Park, West Roxbury.

PUBLIC WORKS DEPARTMENT.

Approval has been given for an extension of time for the completion of the contract with Builders Iron Works, 24 Dane street, Somerville, for redecking the drawspans of the Congress Street Bridge, over Fort Point Channel, and the Chelsea Street Bridge, over Chelsea River, with steel mesh pavement, from September 14, 1955, to December 14, 1955. This extension was requested because delivery of material had been delayed.

CHANGE IN CONTRACT.

DEPARTMENT OF SCHOOL BUILDINGS.

M. Solimando has been ordered to make the following changes in the contract for the Girls' Latin School:

Carpentry: Construct a cabinet around pipes and main valve of sprinkler system in the cafeteria. This work to be framed with a 2-inch x 3-inch framing and covered with ¼-inch plywood. Provide an access panel and paint in two-coat work to match the area where it is located. Construct a large cabinet closet around the scrub surface sink in the basement opposite the cafeteria. This closet to be framed with 2-inch x 4-inch framing and covered with ¼-inch plywood on both sides. Provide a door, door frame, and all necessary hardware. Door to be 1⅜ inches thick and the entire closet to be painted in two-coat work to match the area in which it is located.

Total carpentry addition, $225.

Paving, Grading, etc.: Do necessary excavation, remove small tree and stump and install a 4-inch cast-iron pipe with cleanout on present conductor pipe to surface drain leading to street on Centre Street side of the building and backfill same. Grade three areas adjacent to entrance on Lithgow street. Pave these areas and surface seal to prevent water from seeping into passageway to annex. Approximately 100 yards of grading, asphalt paving, and surface seal is necessary. Clean out and caulk the crack between the building and service entrance at Centre street.

Total paving, grading addition, $454.

Painting: Paint 15 windows complete in the interior of the auditorium, six ceiling panels and vents, four sections of walls, a balcony section, rear stage wall, music room ceiling, baseboard in front of stage, entrance doors. All in auditorium. Gymnasium floor to be scraped and refinished where bleachers were removed, and walls where bleachers were removed to be painted. Walls and rooms where gas lines were removed are to be painted. Plywood of two cafeterias to be painted. Clean and lacquer elevator cab. Strip, grain, and varnish telephone booth. Also spray elevator well. Also ceiling of anteroom, off assembly hall. Clean and paint 763 lockers.

Painting addition, $1,747, 10 per cent, general contractor, $174.70, total painting addition, $1,921.70.

Plumbing: Remove 3-inch waste line on floor and 3-inch galvanized vent and hangers on ceiling and cap up same. Connect up automatic gas hot water storage tank for temporary hot water and running up cold water to Room 29. Install four tank linings, flush valve, new 1¼-inch flushpipe in back of pipe space, and reset and install third water closet, right-hand side from window. Clean out lavatory waste and rehang hot and cold water pipe under lavatory. Clean out sink waste in basement across from cafeteria. Install new 3-inch vent pipe through roof, new roof flange, run new joints in attic, and brace and hang vent in attic so roofer can make roof tight. Install 1½-inch x 1½-inch chrome tailpiece on waste of roll rim sink. Replace 2-inch closet spud. Rehang one high tank and install new eight-gallon lining. Install new spud washer in metal leg water closet, new flush pipe, tank valve, and ballcock. Clean out ten 4-inch outside conductors, three 4-inch inside conductors. Repair leak on cold water riser in wall between basement and first floor of new shower room. Reset loose short hopper, clean out flushing rims of two urinals. Rehang 12 high toilet tanks and cold water manifold and install one new eight-gallon lining. Five linings leaking, so take four tanks from other toilet rooms and use them. Test gas fit for leaks and disconnect loose gas pipe and gas brackets in building and plug up old openings. Clear out stoppage in sink waste. Gas work. Cover conductor over basement ceiling. Install new sump pit and sump pump in boiler room.

Plumbing addition, $2,770.39, 10 per cent, general contractor, $277.04—$3,047.44, cutting and patching for plumbing, $180.50, total plumbing addition, $3,227.94.

Carpentry addition, $225, paving, grading addition, $454, painting addition, $1,921.70, plumbing addition, $3,227.94, total cost of additional work, $5,828.64, and the amount of $5,828.64 will be added therefor, making the account as follows: contract price, $172,842; total additions, $11,723.14; amount of contract, $184,565.14.

TRANSFER OF APPROPRIATIONS.

The Mayor has approved the following request for transfer of appropriation:

EAST BOSTON DISTRICT COURT.

From Group 3, Supplies and Materials, $150, to Group 5, Library Books, $150.

PROCEEDINGS OF CITY COUNCIL.

Monday, September 12, 1955.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President HURLEY in the chair, and all the members present.

The Reverend John B. Kinneen of St. Agnes Roman Catholic Church, Arlington, was escorted to the rostrum.

INVOCATION BY REV. JOHN B. KINNEEN.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Pour forth, we beseech Thee, O Lord, Thy blessings upon the members of this City Council. Grant them the grace to recognize and ever be conscious of the dignity and the responsibility of the office which they have assumed. Duly elected representatives in government, they are the repositories of the people's trust in wielding the divine natural right of self-determination and legislative administration which Thou, O God, hast given to men. This right, this power to formulate legislation binding in conscience before Thy tribunal, which Thou hast given to men, and men have delegated to their office and to them for a time and with circumscription, has not been forfeited either by Thee or by Thy people. These, for whom we pray, participating in a divine prerogative, are Thy representatives in authority. They are likewise servants of the people, a badge of honor and a mark of distinction for Thy Son was in this world not to be ministered unto, but to minister unto others.

Therefore do we implore Thee for them the grace of humble consciousness of the dignity and the duty of their office, and the grace to fulfill it well. Grant them wisdom, knowledge, and understanding; inspire them with deep sentiments of integrity and righteousness; dominate their judgments with justice and discernment. May every deliberation and act of theirs be undertaken by Thy holy inspiration, carried on by Thy gracious assistance, and be consummated with Thy benign benediction; this we pray through Jesus Christ, Thy Son, our Lord. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

—

The meeting was opened with the salute to the Flag.

TRANSFER OF APPROPRIATION TO MUNICIPAL COURT, ROXBURY, AND PENAL INSTITUTIONS DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, September 12, 1955.

To the City Council.

Gentlemen:

I submit herewith an order providing for the transfer from the Reserve Fund of the sum of $302.20 to the Municipal Court, Roxbury District, and the Penal Institutions Department, Central Office.

The purpose of this transfer is to provide funds necessary to cover amendments to the County Compensation Plan, which have been submitted to your Honorable Body for consideration.

In the event of favorable action being taken on these amendments, the transfers involved in the accompanying order will be necessary to meet the additional expense involved in the amendments for the balance of the current year.

Respectfully,
J. B. HYNES, Mayor.

—

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, $302.20, to the appropriation for Municipal Court, Roxbury District, Personal Services, $186, Penal Institutions Department, Central Office, Personal Services, $116.20.

Referred to the Executive Committee.

AMENDMENT TO COUNTY COMPENSATION AND CLASSIFICATION PLANS.

The following was received:

City of Boston,
Office of the Mayor, September 12, 1955.

To the City Council.

Gentlemen:

The attached proposal by the Supervisor of Personnel to amend the Compensation and Classification Plans for the Officers and Employees of Suffolk County by revising the compensation grade for the classification of clerk of the Roxbury District Court is hereby approved and transmitted for consideration and adoption by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Administrative Services Department,
September 12, 1955.

To the Mayor and City Council.

Gentlemen:

In accordance with the provisions of chapter 334 of the Acts of 1955 the compensation of the justices of the five full-time District Courts of Springfield, Worcester, Malden, Cambridge, and Roxbury was established at $12,000. Under present statutory provisions the salary of the clerk of each of these courts, with the exception of Roxbury, is 75 per cent of the justice's salary, or $9,000. The salary of the clerk of the Roxbury Court, however, is regulated by the Classification and Compensation Plans for the Officers and Employees of Suffolk County. Under the present compensation grade assigned to this position the salary of the clerk is approximately three compensation grades less than the comparable salary of the clerks of the other four full-time courts. It would appear, therefore, that an adjustment in the compensation grade of the clerk of the Roxbury Court would be justifiable.

Under the provisions of Rule 7, Amendment of the Compensation Plan, of the rules for administering the County Classification and Compensation Plans, there is forwarded herewith an order increasing the compensation grade of the position of the clerk of the Roxbury Court from Grade 34 to Grade 37.

Your favorable consideration of this order is recommended.

Respectfully,
JOHN A. SULLIVAN,
Supervisor of Personnel.

—

Ordered, That Schedule B of the Classification and Compensation Plans for the Officers and Employees of Suffolk County, adopted by order passed by the City Council on November 24, 1952, and approved by the Mayor on November 25, 1952, be, and the same hereby is, amended as follows:

Strike out after the words "Compensation Grade" under the caption "Clerk of Court, Municipal Court, Roxbury District" the figure "34" and insert in place thereof the figure "37."

Referred to the Executive Committee.

SALARIES OF MATRONS AT HOUSE OF DETENTION FOR WOMEN.

The following was received:

City of Boston,
Police Department, September 6, 1955.

Mr. Walter J. Malloy,
City Clerk, Mayor's Office.

Dear Sir:

In accordance with provisions of chapter 147, section 19, General Laws (Ter. Edit.), concurrent approval is requested of the Honorable City Council in establishment of weekly basic salaries paid to certain employees of the House of Detention of this department, listed as follows, effective September 7, 1955:

Chief matron ($69.25*), $72.12.†
Assistant chief matron ($65.41*), $68.28.†
Assistant matrons ($63.49*), $66.36.†

* Present weekly basic rate.
† New weekly basic rate.

Very truly yours,
T. F. SULLIVAN, Police Commissioner.

Referred to the Executive Committee.

AMENDMENT TO COUNTY CLASSIFICATION AND COMPENSATION PLANS.

The following was received:

City of Boston,
Administrative Services Department,
September 9, 1955.

To the City Council.

Gentlemen:

With reference to the order passed by your Honorable Body on August 29, 1955, increasing the compensation grades of certain classifications at the Suffolk County Jail and the House of Correction a change in the compensation grade for the classification of commitment and transfer officer was, through an oversight, not included.

I am, therefore, forwarding herewith an order amending the Classification and Compensation Plans for the Officers and Employees of Suffolk County which increases the grade of the classification of commitment and transfer officer from 19 to 20.

Your favorable consideration of this order is recommended.

Respectfully,
JOHN A. SULLIVAN,
Supervisor of Personnel.

—

Ordered, That Schedule B of the Classification and Compensation Plans for the Officers and Employees of Suffolk County, adopted by order passed by the City Council on November 24, 1952, and approved by the Mayor on November 25, 1952, be, and the same hereby is, amended, to be effective September 7, 1955, as follows:

Strike out after the words "Compensation Grade" under the caption "Commitment and Transfer Officer" the figure "19" and insert in place thereof the figure "20."

Referred to the Executive Committee.

REPORT OF ADMINISTRATIVE SERVICES DEPARTMENT ON TRANSFER OF PRINTING SECTION AT PUBLIC LIBRARY TO CITY PRINTING PLANT.

The following was received:

City of Boston,
Administrative Services Department,
September 6, 1955.

Walter J. Malloy,
City Clerk, Mayor's Office.

Dear Sir:

In accordance with the provisions of section 2 of chapter 3A of the Revised City Ordinances, I submit herewith copies of a report sent to the Mayor on the subject of the abandonment of the Printing Section at the Boston Public Library and transfer of its operations to the City Printing Plant.

Very truly yours,
CHARLES J. FOX, Director.

City of Boston,
Administrative Services Department,
August 15, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

Through the installation of addressograph-multilith equipment in the City Printing Plant, which will result in substantial reductions in the amount of time previously consumed in the printing of police and voting lists, this Board is of the opinion that the establishment of a new work program at the City Printing Plant to utilize efficiently the time saved in this one operation alone should include plans at the present time for the abandonment of the Printing Section at the Boston Public Library and transfer of its operations to the City Printing Plant.

This proposed consolidation has been contemplated since August of last year, after a survey was conducted by an expert on municipal printing operations whose findings were checked by employees of the Administrative Services Department, but definite action has been deferred until such time as the City Printing Plant's electrical power has been converted from direct to alternate current, and this is being accomplished at the present time. This conversion is mandatory because of the fact that all up-to-date, modern printing equipment requires AC current, including the addressograph-multilith equipment now being installed.

At the beginning of 1954, the present staff in the Printing Section of the Library Department consisted of five employees, and due to the retirement of three employees during the latter part of 1954, which vacancies were never filled because of the contemplated consolidation, only two members of the staff, one linotype operator and one cylinder pressman, remain, and it is proposed to transfer these two employees to the Printing Plant upon consolidation. It will be unnecessary to fill the positions caused by retirements in the event the consolidation is effected, as the Printing Plant has an ample supply of skilled help.

The operating costs of the Printing Section at the Library increased over 58 per cent in the ten-year period from 1945 through 1954; its present equipment is outmoded and worn out, except for one press with an AC motor which can be transferred to the City Printing Plant; all other machine equipment has an average age of 35 years, and its turn-in value is estimated in the vicinity of $1,000; lighting is poor; costs for paper stock are extremely high because of small-lot purchases. To place this section in first-class condition would cost in the neighborhood of $100,000, requiring the purchase of three new typesetter machines, two new presses, new lighting equipment, and the acquisition of at least two additional employees.

To accomplish the consolidation proposed, it would require the transfer of two employees, plus usable equipment which has an estimated value of $25,000. All other equipment would be turned in toward the planned purchase out of the Equipment Loan of a new Mergenthaler linotype machine to be installed in the Printing Plant. This purchase was proposed in connection with the over-all equipment replacement program of the Printing Plant, but nevertheless it will serve to handle not only the printing requirements of the Library Department but other departments as well.

From the standpoint of good administration and good business, I am summarizing herewith several reasons why the Board believes this proposed consolidation should be effected at the earliest possible date:

1. It will eliminate a division whose work is a duplication of work now being performed by another division.
2. It will make unnecessary the filling of three positions at a savings of $14,625 annually.
3. It will centralize printing operations in an area consigned to such work.
4. It will decrease the costs of paper and other materials required through volume purchases.
5. It will relieve the Public Library of all accounting, record keeping, maintenance, personnel problems, purchasing, and other functions which attend the operation of a printing plant.
6. It will obviate the necessity of purchasing new equipment and renovating the Printing Section of the Library at a cost of approximately $100,000.
7. It will place at the disposal of the Public Library a shop staffed by a larger group of skilled and versatile craftsmen, which is capable of producing many times the volume now possible in the Public Library Plant, even if it were fully staffed.
8. It will make available additional space for the Library to possibly expand its bindery operations, which section at the present time is inadequate and poorly lighted.

Excessive costs at the City Printing Plant are due, without question, to nonproductive time in the book composing and cylinder press room in the printing of police and voting lists.

The ideal and permanent solution would be to secure sufficient additional volume to increase the production hour percentage of the entire plant. We believe consolidation of the Boston Public Library Printing Plant is a major step in this direction, since the character of the work is within the skill range of the City Printing Plant's personnel. As the volume of productive work rises, production costs will decrease, thereby making it possible for the Printing Plant to offer more attractive prices to city and county departments utilizing its services.

With your approval, the Board will suggest to the Library Trustees that steps be taken at an early date to abandon the Printing Section of the Boston Public Library and transfer its operations to the City Printing Plant as recommended.

Sincerely yours,
CHARLES J. FOX, Chairman,
JOHN A. SULLIVAN,
JOHN V. MORAN,
JAMES E. GILDEA,
JOSEPH P. LALLY.

LAWRENCE W. COSTELLO,
Administrative Secretary.

REPORT OF COMMITTEE ON CLAIMS.

Coun. McCORMACK, for the Committee on Claims, submitted the following:

1. Report on petition of James H. Mullane (referred July 11) to be reimbursed as a result of executions issued against him on account of his acts as a member of the Fire Department—recommending passage of the accompanying order:

Ordered, That the sum of nineteen hundred and sixty-nine dollars ($1,969) be allowed and paid to James H. Mullane in reimbursement for amount of execution issued against him on account of his acts as a member of the Fire Department, said sum to be charged to the appropriation for Executions of Court, Damage Claims and Reimbursements.

2. Report on petition of Percy C. McFarlane, (referred August 29) chief court officer of the Municipal Court of Boston, Criminal Division, for retirement as a veteran — recommending passage of the accompanying order:

Whereas, Percy Coleman McFarlane, employed in the service of the County of Suffolk as chief court officer for criminal business in the Municipal Court of the City of Boston, has made application to be retired under the provisions of section 58 of chapter 32 of the General Laws, as amended; and

Whereas, The said Percy Coleman McFarlane has submitted to the City Council satisfactory evidence that he is a veteran as defined in section 56 of chapter 32 of the General Laws, and that he has been in the service of the county for a total period of thirty years in the aggregate;

Ordered, That under the provisions of section 58 of chapter 32 of the General Laws, as amended, Percy Coleman McFarlane, employed in the County of Suffolk as chief court officer for criminal business in the Municipal Court of the City of Boston, be, and hereby is, retired by the Mayor and City Council, acting as county commissioners, at an annual pension of three thousand seven hundred and thirty-nine dollars and thirteen cents ($3,739.13), being 65 per cent of his highest regular rate of compensation.

The reports were accepted, and the orders were severally passed.

RESCISSION OF ORDER OF AUGUST 29, 1955, CALLING A PRELIMINARY ELECTION ON SEPTEMBER 27, 1955.

Coun. HURLEY offered the following:

Ordered, That the order passed by the City Council on August 29, 1955, calling a preliminary election for Tuesday, September 27, 1955, be, and hereby is, rescinded.

Passed under suspension of the rules.

PRELIMINARY CITY ELECTION, SEPTEMBER 27, 1955.

Coun. HURLEY offered the following:

Ordered, That meetings of the citizens of this city qualified to vote for city officers be held at the several polling places designated for the purpose by the Board of Election Commissioners on Tuesday, September 27, 1955, for a preliminary election, to give in their votes for not more than one candidate for the office of Mayor, and not more than nine candidates for the office of City Councillor.

The polls at said meetings shall be opened at 8 o'clock A.M. and closed at 8 o'clock P.M.

Ordered, That the City Clerk be hereby directed to give notice of said meetings according to law.

Passed under suspension of the rules.

INCREASING PENSIONS TO CERTAIN FORMER PUBLIC EMPLOYEES.

Coun. AHEARN offered the following:

Ordered, That chapter 670 of the Acts of 1955, entitled "An Act Relative to Increasing the Amounts of Pensions, Retirement Allowances, and Annuities Payable to Certain Former Public Employees," be, and hereby is, accepted by the City Council of Boston, acting in behalf of the city and the County of Suffolk.

Referred to the Executive Committee.

PROHIBITION OF SHELLFISH DIGGING IN CERTAIN AREAS.

Coun. AHEARN offered the following:

Whereas, It appears that substantial quantities of shellfish, especially clams, in a certain area in the Old Harbor section of South Boston are of such a size that it is desirable to allow more time for growth to a marketable size; and

Whereas, It appears to be economically sound and to the advantage of the shell fishermen of Boston that the area be closed; now, therefore be it

Ordered, That the digging or taking of shellfish of any kind from the waters and flats of the Old Harbor section of South Boston coumonly known as BH–4, situated between the southerly extremity of said area BH–4 and the westerly bulkhead at the L Street Bathhouse, be prohibited until December 20, 1955.

Referred to the Executive Committee.

SURVEY OF CLEVELAND CIRCLE AREA FOR PROPOSED OFF-STREET PARKING FACILITIES.

Coun. AHEARN offered the following:

Whereas, The Cleveland Circle area is located on the outskirts of the City of Boston, close to several neighboring shopping areas in Brookline and Newton; and

Whereas, Business establishments in the Cleveland Circle district have lost trade to nearby competitive shopping areas which have adequate and better parking facilities; now, therefore, be it

Resolved, That his Honor the Mayor is hereby requested to direct the Commissioner of the Real Property Board to make a survey of the Cleveland Circle area with a view to selecting a site for erecting off-street parking facilities.

The resolution was adopted under suspension of the rules.

SURVEY OF TRAFFIC CONDITIONS AT FAIRMOUNT AND OGDEN STREETS.

Coun. AHEARN offered the following:

Ordered, That his Honor the Mayor is hereby requested to direct the Boston Traffic Commission to make a survey of the traffic conditions at Fairmount and Ogden streets, Dorchester, with a view to constructing a traffic island due to the dangerous intersection and the difficulties of pedestrians in crossing.

Passed under suspension of the rules.

SIDEWALK ON CHISWICK TERRACE, WARD 22.

Coun. AHEARN offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Chiswick terrace (both sides), from 85 feet northeast of Embassy road to Chiswick road, Ward 22, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones.

Under the provisions of chapter 252 of the Acts of 1951.

Passed under suspension of the rules.

SIDEWALK ON EMBASSY ROAD, WARD 22.

Coun. AHEARN offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Embassy road (both sides), from Chestnut Hill avenue to Chiswick terrace, Ward 22, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones.

Under the provisions of chapter 252 of the Acts of 1951.

Passed under suspension of the rules.

NAMING OF SQUARE IN HONOR OF RAYMOND A. L. SAQUET.

Coun. WHITE offered the following:

Ordered, That the Committee to Memorialize Veterans be requested, through his Honor the Mayor, to name the square at the intersection of Hanson and Tremont streets in honor of Corp. Raymond A. L. Saquet, who lost his life while serving his country in France on September 1, 1944.

Passed under suspension of the rules.

COMMEMORATION OF 200TH ANNIVERSARY OF BIRTH OF JOHN MARSHALL.

Coun. McCORMACK offered the following:

Whereas, September 24, 1955, is the two hundredth anniversary of the birth of John Marshall, fourth Chief Justice of the United States, whose long and distinguished term of office was marked by precedent-setting decisions which have been important factors in developing and maintaining the liberties of the people of the United States; and

Whereas, A wider public knowledge and appreciation of the work and achievements of the great Chief Justice is highly desirable today in order to strengthen the moral, social, and political structure of our nation and to help in the preservation and protection of the lives, liberties, and prosperity of all our people; and

Whereas, The Congress of the United States, by joint resolution, has designated the month of September, 1955, as John Marshall Bicentennial Month, and Dwight D. Eisenhower, President of the United States, has issued a proclamation calling upon the people of the United States to observe that month by paying tribute to the achievements and memory of John Marshall; now, therefore, be it

Resolved, That John B. Hynes, Mayor of the City of Boston, organize a committee with membership consisting of representatives of the Boston Bar Association, church, civic, and veterans organizations to observe the month of September, 1955, as John Marshall Bicentennial Month, with appropriate activities and ceremonies commemorative of the inspiring role of John Marshall in our national life.

The resolution was adopted under suspension of the rules.

NEW YEAR GREETINGS TO JEWISH COMMUNITY.

Coun. McCORMACK offered the following:

Whereas, The Holy Days of Rosh Hashonah and Yom Kippur reiterate the dedication of members of the Jewish faith to the great principles of liberty, justice, and freedom of conscience embodied in the Torah, and fundamental to our democratic system of government; and

Whereas, The Jewish community of Boston has by its devotion to philanthropy, learning, and social reform contributed greatly to the development of the City of Boston and the nation; therefore be it

Resolved, That the Boston City Council, in meeting assembled, extends sincere wishes to the Jewish community of Boston for a happy and prosperous new year, 5716.

The resolution was adopted under suspension of the rules.

RECESS.

On motion of Councillor Kerrigan, the Council voted to take a recess at 2.55 P.M., subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by Senior Member White at 4.34 P.M.

EXECUTIVE COMMITTEE REPORTS.

John (Pat) Malloy, U.S.A., who lost his life in the service of our country in Germany on March 3, 1945.

Passed under suspension of the rules.

CONGRATULATIONS TO DIOCESAN AND NEW ENGLAND BASEBALL AND SOFTBALL CHAMPIONS.

Coun. HAILER offered the following:

Whereas, The recent Diocesan and New England Championship Baseball and Softball Exhibitions brought forth three winning teams from Boston, namely, Baseball, Intermediate, St. Thomas's, Jamaica Plain, Baseball, Juniors, Holy Name, West Roxbury, and Softball, Intermediate, St. Gregory's, Dorchester; and

Whereas, These teams competed against all diocesan-sponsored teams in New England; and

Whereas, In winning the titles of Diocesan and New England Champions they have brought esteem to the youth and all the people of Boston; therefore be it

Resolved, That the Boston City Council, in meeting assembled, extend to the members of these honor-winning teams our congratulations and heartfelt good wishes for their continued success.

The resolution was adopted under suspension of the rules.

FUTURE DISTRIBUTION OF SALK VACCINE.

Coun. McLAUGHLIN offered the following:

Whereas, The Salk vaccine has proven itself in the recent polio outbreak, according to eminent doctors and the statistics recently obtained by the Associated Press; and

Whereas, For their peace of mind, the citizens of Boston are entitled to know what plans have been made for the distribution of this vaccine; therefore be it

Resolved, That the members of the Boston City Council, in meeting assembled, request his Honor the Mayor to direct the Health Commissioner of the City of Boston to advise the City Council as to what system for the future distribution of the Salk vaccine in Boston has been set up by the various governmental agencies concerned; and be it further

Resolved, That this information, when available, be publicized in such a way that it will be brought to the attention of every family in our city.

The resolution was adopted under suspension of the rules.

CONGRATULATIONS TO DISTRICT 5, MASSACHUSETTS STATE NURSES ASSOCIATION.

Coun. McLAUGHLIN offered the following:

Whereas, During the recent terrible polio epidemic there was a tremendous shortage of nurses; and

Whereas, The services of nurses were essential to proper care and treatment of those persons who were stricken; and

Whereas, Without their services the rate of recovery would not have been as high as it now is; and

Whereas, The members of District 5, Massachusetts State Nurses Association—particularly some two hundred nurses who returned to the service for the specific purpose of easing the shortage—performed service of incalculable value; and

Whereas, This service was in keeping with the highest traditions of the nursing profession; therefore be it

Resolved, That the members of the Boston City Council, in meeting assembled, extend their heartiest congratulations and sincere thanks to the association and its members; and be it further

Resolved, That a copy of this resolution be forwarded to the Executive Secretary of the Massachusetts State Nurses Association.

CONSTRUCTION OF BRUSH HILL TERRACE, HYDE PARK.

The Public Improvement Commission has ordered that a public improvement be made consisting of the laying out and construction of Brush Hill terrace, Hyde Park district, as a public highway, from Dana avenue, approximately 400 feet northeasterly, bounded and described as follows:

A highway named Brush Hill terrace is hereby laid out, from Dana avenue to Neponset avenue, and ordered constructed.

For the making of the aforesaid improvement, an easement for street purposes is hereby taken in the following described land, exclusive of trees, shrubs, or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Gladys Epstein, bounded:

Southwesterly by the northeasterly line of Dana avenue, fifteen and 00-100 feet; southeasterly by the northwesterly line of Brush Hill terrace as it existed prior to this order, fifteen and 00-100 feet; northerly by the northerly line of Brush Hill terrace as hereby laid out, twenty-three and 56-100 feet on a curve of fifteen and 00-100 feet radius, containing forty-eight square feet, more or less.

A parcel of land, supposed to belong to Joseph V. and Gwendoline Mae Falcone, bounded:

Southeasterly by the northwesterly line of Brush Hill terrace as it existed prior to this order, fourteen and 98-100 feet; westerly by the westerly line of Brush Hill terrace as hereby laid out, twenty-three and 54-100 feet on a curve of fifteen and 00-100 feet radius; northeasterly by the southwesterly line of Neponset avenue as it existed prior to this order, fourteen and 98-100 feet, containing forty-eight square feet, more or less.

A parcel of land, supposed to belong to Ruth A. Wolfe, bounded:

Northeasterly by the southwesterly line of Brush Hill terrace as it existed prior to this order, five and 00-100 feet; northerly by the southerly line of Brush Hill terrace as it existed prior to this order, fifteen and 72-100 feet on a curve of ten and 00-100 feet radius; northeasterly by the southwesterly line of Brush Hill terrace as it existed prior to this order, five and 00-100 feet, and southerly by the southerly line of Brush Hill terrace as hereby laid out, twenty-three and 58-100 feet on a curve of fifteen and 00-100 feet radius, containing twenty-seven square feet, more or less.

A parcel of land, supposed to belong to Thomas J. and Margaret L. O'Brien, bounded:

Southwesterly by the northeasterly line of Dana avenue, fifteen and 00-100 feet; northwesterly by the southeasterly line of Brush Hill terrace as it existed prior to this order, fifteen and 00-100 feet; easterly by the easterly line of Brush Hill terrace as hereby laid out, twenty-three and 56-100 feet on a curve of fifteen and 00-100 feet radius, containing forty-eight square feet more or less.

Said Brush Hill terrace as hereby laid out is bounded:

Southwesterly by the northeasterly line of Dana avenue, seventy and 00-100 feet; northerly by the northerly line of Brush Hill terrace as hereby laid out, twenty-three and 56-100 feet on a curve of fifteen and 00-100 feet radius; northwesterly by the northwesterly line of Brush Hill terrace, as hereby laid out, three hundred fifty-eight and 76-100 feet; westerly by the westerly line of Brush Hill terrace as hereby laid out, twenty-three and 54-100 feet on a curve of fifteen and 00-100 feet radius; again northwesterly by Neponset avenue, forty and 00-100 feet; northeasterly by the northeasterly line of Brush Hill terrace, as hereby laid out, seventy and 00-100 feet; southeasterly by another portion of Brush Hill terrace, forty and 00-100 feet; southerly by the southerly line of Brush Hill terrace as hereby laid out, twenty-three and 58-100 feet on a curve of fifteen and 00-100 feet radius; southeasterly by the southeasterly line of Brush Hill terrace as hereby laid out, three hundred fifty-eight and 65-100 feet; easterly by the easterly line of Brush Hill terrace, as hereby laid out, twenty-three and 56-100 feet on a curve of fifteen and 00-100 feet radius.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of Brush Hill terrace, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on a plan marked "City of Boston, Brush Hill Terrace, Hyde Park, June 20, 1955, George G. Hyland, Commissioner of Public Works," and on file in the office of this commission.

POLICE DEPARTMENT ORDERS.

General Order No. 2,105.

The rules and regulations of the Police Department are hereby amended as follows, effective as of Monday, September 12, 1955, at 7.45 o'clock A.M.:

Rule 36—Pay and Allowances.

On page 53, strike out the second sentence of section 4 and insert in place thereof the following sentence: Sick leave not used in the year in which it accrues may be accumulated for use in a subsequent year.

On page 55, section 19, strike out the second sentence of paragraph 7 and insert in place thereof the following sentence: Sick leave not used in the year in which it accrues may be accumulated for use in a subsequent year.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 2,106.

The Superintendent of Police is hereby directed to make the following details in connection with the Preliminary Election on Tuesday, September 27, 1955.

1. The necessary number of patrolmen from the several police divisions to attend the several polling places in this city on Preliminary Election Day, to preserve order and protect voters in the full exercise of their rights.

2. Three patrolmen for duty in the office of the Board of Election Commissioners, 111 City Hall Annex, on arrival of ballots for the Preliminary Election at 10 A.M., Monday, September 26, 1955, such details to continue until all ballots cast at the Election have been received.

3. One patrolman for duty in parking area surrounding City Hall Annex from 4 P.M., Monday, September 26, 1955, to properly place "No Parking" signs and to keep the entire area clear for the following morning, so that 24 trucks coming to the Election Commissioners' office for ballots at early hours will be able to park without interference or delay.

4. One superior officer for duty at City Hall Annex, to supervise the police detail for motor trucks from 5 A.M., Tuesday, September 27, 1955, until relieved.

One patrolman from 4 P.M., on the same date, until relieved, for duty at the same place, to keep clear the approaches to the office of the Board of Election Commissioners for motor vehicles returning from the polling places with ballot boxes, etc.

5. One sergeant for duty at basement vault of Board of Election Commissioners from 8 P.M. on Tuesday, September 27, 1955, until such time as all returns from the 290 precincts are in.

6. Twenty-four sergeants, one to a motor vehicle, to report at the office of the Board of Election Commissioners in ample time to be prepared to leave that office for their respective destinations, according to the following schedule, in such vehicle with ballot boxes, ballots, etc., and deliver such ballot boxes, ballots, etc., to the police officer detailed in each precinct.

SCHEDULE FOR HOURS OF DEPARTURE OF SERGEANTS SO DETAILED FROM OFFICE OF BOARD OF ELECTION COMMISSIONERS ON MORNING OF SEPTEMBER 27, 1955,

(One motor vehicle for each of the 22 wards, excepting Ward 18, Hyde Park, and Ward 20, West Roxbury, for which two trucks, each have been engaged.)

Wards 11 to 17, inclusive, and 21 and 22, 5.45 A.M.
Wards 18, 19, and 20, 5.30 A.M.

7. For proper coordination in the delivery of ballot boxes, ballots, etc., by the sergeants, as herein set forth, to the police officers detailed at the various precincts, it is of the utmost importance that such sergeants leave City Hall Annex on time as per schedule.

8. One patrolman to report at each of the 290 precincts, as hereinafter set forth, on Tuesday, September 27, 1955, to receive ballot boxes, ballots, etc., from the sergeants detailed on motor trucks. Regardless of the use of voting machines in most precincts, a ballot box will be delivered to each one as usual, and it is essential that officer be there to receive it.

Attention is called to the necessity of having officers, so detailed, to report at their posts on time, so that there will be no delay in the opening of any polling place.

One patrolman shall be assigned outside each polling place, to report at 6 P.M. and remain until close of the polls at 8 P.M. Officers assigned to duty outside the polls are to enforce the law which prohibits the distribution of campaign literature within 150 feet of the entrance to a polling place.

Ward 22, Precincts 10 to 12, inclusive, and Precincts 15 and 16, 6.40 A.M.
Ward 22, Precincts 13 and 14, 7 A.M.

9. The detail of patrolmen at the various precincts will continue until the ballots are counted and the results declared. The officers are then to bring the ballots and returns to the Election Commissioners' office.

10. Cards with the ward and precinct number and location of voting booth printed thereon will be forwarded to the several police divisions, on which the Division Commander will write the name, the division number and the number of the officer detailed at the time stated on the morning of September 27, 1955, at the voting booth of each respective precinct on his division. This card, to be given to the officer so detailed at the voting booth, will be retained in his possession until delivery by him to an employee of the Board of Election Commissioners, who will arrive accompanying a sergeant on motor vehicle from the Election Commissioners' office on the morning of September 27, 1955, with the ballot boxes, ballots, etc., as hereinbefore stated.

This card, when returned by such employee to the office of the Election Commissioners will be its receipt that the ballot boxes, ballots, etc., have arrived at their proper destination.

11. On receipt by the patrolman from the sergeant, detailed on motor vehicle, as herein provided, of registering ballot box, ballots, voting lists and such other documents as may have been received from the Election Commissioners, the patrolman detailed at polling place will deliver same to the warden or clerk of the precinct, allowing no person to take or handle them before such delivery, and hand the key of the registering ballot box to the warden. On delivery of the ballots to the warden, the patrolman will take from him a receipt for the same, which receipt will be returned to the Election Commissioners.

12. After the warden has opened the box and allowed the election officers and the public to see that it is empty, the box is to be again locked and the key given to the patrolman who is to retain it until after the polls have closed except that, if the ballot box clogs, the key to the box should be turned over to the warden so that he may open the box to press the ballots down. If this is not done there is a danger that some of the ballots may become mutilated. (After the warden has pressed the ballots down, he will relock the box and return the key to the patrolman.)

13. The patrolman will obtain from the warden copies of poster, which will be sent to the latter, in relation to smoking and the use of liquor in polling places, and post same in conspicuous places where they may be easily read.

14. The warden will deliver to the patrolman detailed at the polling place for his use at that place a copy of the descriptive voting list, which must be returned to the warden at the close of polls.

15. When the polls are opened, the patrolman will mark in the place indicated on tag attached to the key the figures which the register shows before any ballots are cast.

16. At 8 o'clock P.M., Tuesday, September 27, 1955, when the polls close, one sergeant will report in each of the 22 wards (excepting Ward 18, Hyde Park, and Ward 20, West Roxbury, for which wards two sergeants and two motor trucks, each, are provided), to meet motor vehicle at last point of morning distribution; thence to proceed to each of the several precincts in his respective ward, and receive registering ballot box (which must be locked) and key thereof, voting lists envelope, signed by the warden and other election officers, receipts for ballots, unused ballot box, sealed and certified (containing unused and spoiled ballots), stamps for marking spoiled ballots and check lists, and carry them to the Election Commissioners' Office and deliver same to some member of the Board of Election Commissioners.

17. When the polls are closed, the patrolman will mark on the same tag the figures which the register shows after all ballots have been cast. He will then hand the key to the warden, who will open the box and take out all the ballots to be sorted and counted. The warden will then cause the voting lists, including the list used by the police officer, to be sealed in an envelope and the envelope certified by the signatures of the warden and other election officers and the same returned to the Election Commissioners. The patrolman will not allow this envelope to be put into the ballot box. The sergeant who will report on motor vehicle will retain this envelope until delivery at the office of the Election Commissioners. The unused and spoiled ballots are then to be put into the box for unused ballots and the box sealed and certified, to be delivered to the office of the Board of Election Commissioners.

18. When returning from polls, all motor vehicles must drive to the easterly side of City Hall Annex, Court square, where ballot boxes will be conveyed by chute to the basement.

19. It is important that the patrolman sees that the voting lists envelope is signed by the warden, clerk and all the inspectors. The patrolman will also see that the special book for signatures of voters is returned in the registering ballot box.

20. In case a patrolman is detailed to relieve another after the close of the polls the commanding officer will see that he is properly instructed as to the duty of bringing official return, the box of ballots cast, and the press return to the Election Commissioners' office as soon as they are delivered to him by the election officers.

21. When the ballots have all been counted, the ballots thus counted, the tally sheets and nothing else, shall be placed by the warden in the leatheroid box sent for that purpose, which must be sealed and signed by all the election officers. The patrolman will particularly see that this box is properly sealed and that all the election officers have signed their names to the certificate on the box. The patrolman will then bring the box, official return, record book and press return to the City Hall Annex, Court square, and deliver same to the Election Commissioners.

The patrolman is directed not to allow the official return, press return or record book to be placed in the leatheroid box with ballots cast, but are to be returned by the officer to the Board of Election Commissioners.

22. While the polls remain open, an officer of rank will visit the polling place in each division at stated intervals, to be designated by the captain, and in case of any disturbance will report the fact to the commanding officer of the station house without delay. If additional men are needed beyond the number available in that division the officer in charge will communicate immediately with headquarters.

He shall remind the officer and the warden on duty at the polls, that the official return, press return and record book are not to be placed in the leatheroid box, but shall be safely delivered to the Election Commissioners with the leatheroid box.

23. Attention is called to the fact that the polls at the Preliminary Election on Tuesday, September 27, 1955, shall open at 8 o'clock A.M., and close at 8 o'clock P.M.

24. Commanding officers of divisions will see that the officers detailed for duty on Preliminary Election Day are furnished with a copy of circular issued by the Board of Election Commissioners entitled: "Instructions to Police Officers on Preliminary Election Day."

25. Voting machines will be used in the following precincts:

Ward 1, all precincts.
Ward 2, all precincts.
Ward 3, all precincts.
Ward 4, all precincts.
Ward 5, all precincts.
Ward 6, all precincts.
Ward 7, all precincts.
Ward 8, all precincts.
Ward 9, all precincts.
Ward 10, all precincts.
Ward 11, all precincts.
Ward 12, all precincts.
Ward 13, all precincts.
Ward 14, all precincts.
Ward 15, Precincts 3, 9, 10, 12, and 13.
Ward 16, all precincts.
Ward 17, Precincts 2, 3, 4, 6, 7, 8, 9, 11, 14, 15, 17, 18, and 20.
Ward 18, Precincts 1, 2, 5, 6, 9, 11, 12, 13, 14, 17, 18, 19, and 20.
Ward 19, Precincts 3, 5, 6, 9, 10, 11, 12, 13, 15, 16, and 17.
Ward 20, Precincts 5, 7, 8, 9, 10, 12, 13, 14, 16, 17, 18, 19, 20, and 21.
Ward 21, all precincts.
Ward 22, Precincts 1, 2, 3, 4, 5, 7, 8, 10, 14, and 16.

Officers assigned to duty in these precincts should be apprised of the procedure to be followed. When the warden has set up the machines for voting and the polls are declared open, he will give keys of each machine in the precinct to the police officer. The police officer will have custody of these keys until the close of the polls. Since the law requires that a ballot box be furnished for challenged ballots, the officer will also have custody of this ballot box key during the polling hours. At the close of the polls, the officer will return all keys to warden. On SHOUP machines keys No. 2 and No. 3 will be automatically locked into the voting machine; Key No. 4 will be given to the police officer to return to City Hall. On automatic machines keys No. 2 and No. 3 will be given to the police officer to return to City Hall. All keys to be returned to City Hall shall be enclosed in a sealed envelope signed by all election officers. Since the procedure is most important, the officer will check the envelopes—one for each machine—to be certain that they are in proper order. These envelopes are not to be placed in the leatheroid box but are to be taken in hand by the police officer and delivered to the clerk at the check-in desk in the Election Department. If any challenged ballots are cast in the precincts where machines are used, the police officer will have the ballots to return, but in any event he will return to City Hall Annex the box sent to the polling place for ballots cast, in addition to the envelopes containing the keys.

IMPORTANT NOTES.

A. Officers shall strictly enforce the law pertaining to smoking. Smoking is prohibited within the confines of the polling places, during the entire day, while the polls are open, as well as after they are closed.

As polling places and their approaches and exits are, in many instances, in buildings used for places of religious worship, to say nothing of the danger to valuable property from careless persons, the importance of these instructions is apparent.

B. During the hours from 6 o'clock P.M. to 8 o'clock P.M., there has been a large increase in the number of persons who congregate outside the polling places. This makes it disagreeable to voters who are entering and leaving the polling places. Officers shall exert every effort to relieve this congestion.

Officers are reminded that it is the privilege of the voters to watch the count of the votes cast. It is understood that no disturbance or crowding is to be permitted and that the voters are to remain outside the rails.

C. Officers shall handle ballot boxes with great care.

D. At the close of the polls all persons waiting to vote, including any who might be in line at the entrance to the polling place, are to be placed in line by the warden and given cards bearing their names. The police officer is to stand at the end of this line to be certain that no additional persons are permitted to join it. All voters in the line are to be permitted to cast their ballots, whether by paper ballots or by machine.

E. In accordance with Chapter 266 of the Acts of 1955 "stickers" shall not be posted, circulated or distributed in the polling place, in the building where the polling place is located, on the walls thereof, on the premises on which the building stands, on the sidewalk adjoining the premises where such election is being held, or within 150 feet of the entrance to such polling place. This statute was published for the information of the department in Superintendent's Order dated June 27, 1955.

F. Corrected books showing the locations of the polling places will be sent to each division. You will note that in many instances precincts have been combined in one building, but the number of precincts is 290. This total includes 46 paper ballot precincts and 244 voting machine precincts.

G. Commanding officers shall direct all officers detailed at the polling places in the various precincts to report promptly, according to schedule.

H. Officers shall be informed that in many instances there are two precincts located in the same building, as follows:

By order of Fire Commissioner FRANCIS X. COTTER.

EDWARD N. MONTGOMERY,
Acting Chief of Department.

SEWERAGE WORKS IN WEST ROXBURY.

The Public Improvement Commission has ordered that sewerage works be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within thirty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly West Roxbury, and are bounded as follows:

A parcel of land, owners unknown, being the private way known as Rocky Nook terrace, bounded:

Southwesterly by Glen road, thirty and 00-100 feet; northwesterly by the northwesterly line of Rocky Nook terrace, one hundred seventeen and 03-100 feet; westerly by the westerly line of Rocky Nook terrace, one hundred forty-two and 54-100 feet; northerly by the northerly line of Rocky Nook terrace, thirty and 00-100 feet; easterly by the easterly line of said Rocky Nook terrace, one hundred forty-seven and 33-100 feet; southeasterly by the southeasterly line of said Rocky Nook terrace, one hundred twenty-two and 40-100 feet, containing seven thousand nine hundred and thirty-nine square feet, more or less.

The sewerage works to be constructed are as follows: 240 linear feet of 10-inch pipe sewer and 240 linear feet of 10-inch pipe surface drain and one catch basin at an estimated cost of $4,800.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of Rocky Nook terrace, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said parcels in the amount hereinafter respectively set against it, said parcels and the supposed owners thereof being shown on the plan hereinafter referred to and on file in the office of said department.

PUBLIC WORKS DEPARTMENT.

DEMOLITION OF FENDER SYSTEM.

Proposals for Demolition Work and Repairs to Fender System and Water-Pipe Trestle, Dover Street Bridge, Over Fort Point Channel.

The Commissioner of Public Works of the City of Boston, Room 506 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of tbe United States, for demolition work and repairs to fender system and water-pipe trestle, Dover Street Bridge, over Fort Point Channel. A bond will be required for doing tbe work of a surety company approved by tbe Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 506 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Demolition Work and Repairs to Fender System and Water-Pipe Trestle, Dover Street Bridge, Over Fort Point Channel," and left at Room 506 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, OCTOBER 6, 1955, with a certified check for FIVE HUNDRED (500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 506, City Hall Annex. *There will be a charge of two dollars ($2), NOT REFUNDABLE, for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not he less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurnnce for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

PREPARATIONS FOR 1956 BUDGET ESTIMATES ARE UNDER WAY AND INSTRUCTIONS BEING DISTRIBUTED TO DEPARTMENTS FOR STUDY BY ADMINISTRATIVE SERVICES DEPARTMENT UNDER CHARLES J. FOX, DIRECTOR — ANALYSTS HAVE BEEN MADE AVAILABLE TO ALL WHO FEEL NEED FOR HELP IN ARRIVING AT FIGURES.

Instructions for preparation of the 1956 budget estimates have been prepared and distributed to all the city departments by the Administrative Services Department, Charles J. Fox, Director. For the purpose of aiding and facilitating the work of estimating, analysts have been made available for consultation and expert aid for all departments.

The notices and instructions sent out read as follows:

Instructions for Preparing 1956 Budget Estimates.

The accompanying estimate forms are to be used in submitting the 1956 budget requirements of city and county departments and units. All entries or statements on these forms must be typewritten. Each sheet used is to be numbered consecutively in the upper right-hand corner. Four sets of forms are to be prepared and one set retained for departmental files. Three sets are to be submitted to the Administrative Services Department on or before November 1, 1955. The forms in each set should be arranged according to numerical order and bound with the staples and stiff paper covers provided.

To assist budget officers in the preparation of estimates, the following explanations are offered on each particular form:

Cover Sheet.

Type name of budget unit on vacant line. This same name should be typed in upper right-hand corner of each sheet.

Letter of Transmittal.

The object of this form is to obtain on the original or first copy the signature of the official who has jurisdiction over the department or unit submitting the forms. Facsimile signatures or typewritten names on the other copies will suffice. In signing this form, the signatory official indicates that he has inspected the request and has knowledge thereof and gives his approval to the requests made by the officer designated to prepare the budget estimates. The name of the department or unit budget officer is to be typed in the lower left-hand corner of the form together with the total number of sheets making up the bound set.

Scope of Activities.

The statement submitted on this form should provide a brief but nevertheless adequate description of the work and services to be performed within the budget estimates set forth in the accompanying sheets. Reference should be made to the statement appearing at the head of the 1955 printed budget of your unit. Statistics appearing in last year's statement should be carefully checked and amended so as to reflect changes which have occurred in the past year.

At the bottom of this form, indicate the various divisions or programs under which the work of your unit will be performed. The numbers and titles of programs listed should conform with those agreed upon with the budget analyst assigned to your unit.

PREPARATIONS FOR 1956 BUDGET ESTIMATES NOW UNDER WAY.

(*Continued from page 1153.*)

Group Summary.

This form is to be used to recapitulate by the main expenditure groups the amounts detailed on Form 4. Show the information requested in Columns 2, 3, 4, and 5. In Column 4, the appropriation for 1955 should include any supplementary appropriations made during the year. Total all columns. Do not make any entry in Column 6.

Classes Summary.

This form is to be used to recapitulate by expenditure classes the amounts detailed on Forms 6 and 7. Show the information requested in Columns 1, 3, 4, 5, and 6. In Column 1, place opposite each class title the number of the sheet on which the detail or information relating to the amount entered in Column 6 may be found. If this detail is spread over more than one sheet, enter the number of the first sheet on which the detail appears. The appropriation for 1955 in Column 5 should include any supplementary appropriations made during the year. Do not make any entry in Column 7. The group totals in Column 6 should be entered in Column 5 of Form 3.

Classes by Programs.

This form is to be used to distribute by programs the appropriations requested on Form 4 for the various budget classes. Beginning January 1, 1956, departmental expenditures will be coded by program numbers, and the City Auditor will maintain program expenditure records. It is extremely desirable, therefore, that the program distribution of class appropriations indicated on this form be carefully made.

In Columns 2 to 8, distribute the amounts appearing in Column 6 of Form 4 under the appropriate programs listed on Form 2. The program numbers appearing at the head of these columns should conform with those shown on Form 2. Enter in Column 9 the total of the program distribution for each class. This amount should agree with that shown in Column 6 of Form 4.

Personal Services — Permanent Employees.

The detailed instructions appearing on the reverse side of this form should be followed. The grand total of Column 10 should be entered against Class 100 in Column 6 of Form 4. Tables showing annual cost of weekly salaries and cost of increments may be secured at this office.

Class Supporting Detail.

This form is to be used to support the estimates listed for each class of expenditure on Form 4, with the exception of Class 100. Each class and subclass on this form must be explained in complete detail, setting forth clearly how the figure stated in the department estimate has been determined. No limitations are imposed as to quantity or character of material submitted in support of expenditure class requests. *Estimates supported by full and detailed explanations will naturally receive more favorable consideration than those inadequately described.* Statistics indicating the relation of class and subclass expenditures to departmental work programs should be shown wherever possible.

The title of each class should be shown in the center of the form and the titles of subclasses, if any, listed on the left-hand margin.

For example:

Temporary Employees.

Estimate . . . . . $.....

(Indicate the number, title, grade, and weekly compensation of all seasonal employees. Explain the reason or need for their employment. Do not include employees engaged for temporary periods to fill permanent vacancies. Such employment should be charged against Class 100.

Communications.

Telegraph service . . . $.....
(explanation)
Telephone service . . . .
(explanation)
Communications not otherwise .....
classified (explanation)

Total Communications . $.....

Repairs and Maintenance of Buildings and Structures

Estimate . . . . . $.....

(Detail the specific items of repair which are considered necessary and essential. Show the estimated cost of each item and explain why the proposed expenditure is necessary.)

Cents are to be omitted in all financial statements. All estimates should be stated in the nearest whole dollars required to be appropriated. The total of each class is to be entered in Column 6 of Form 4. The explanations set forth on this form should be continuous. Do not use separate sheets for individual classes.

This form may be used in submitting estimates for Special Appropriations. Indicate the title of the special account in the center of the page, and then describe the type, character, and extent of the expenditures entering into the special estimate.

Estimated Income.

This form is to be prepared by all departments and units receiving income from sources other than taxes. In Column 1, the various *major* sources of revenue should be segregated and listed by titles. Each column should reflect a grand total on the bottom line of the form.

Conclusion.

The budget analysts of the Administrative Services Department will be available for consultation with departments and units throughout the preparation of budget estimates. All agencies are encouraged to raise questions during the preparation period rather than wait until time for submission of the forms has arrived.

Please keep in mind that, under the Revised Ordinances of the City, estimate forms are to be submitted not later than November 1.

Amendments or revisions in departmental estimates subsequent to their submission must be made by letter addressed in triplicate to the Director.

Charles J. Fox,
Director of Administrative Services.

PERMIT APPROVED FOR TUNNELS AT DEACONESS HOSPITAL.

(*Continued from page 1153.*)

The Commissioner of Public Works is hereby authorized to issue permits for opening and occupying the street for placing and maintaining said tunnel, under the conditions set forth in the City Ordinances, and such other terms and conditions as the said commissioner may deem proper.

The work of locating said tunnel to be subject to the approval of said Public Works Commissioner, and the street above referred to is to be kept open for both pedestrian and vehicular traffic during the laying and construction of said tunnel.

—

Voted, That permission be granted to the New England Deaconess Hospital, 16 Deaconess road, Boston, to place and maintain a reinforced tunnel under a part of Joslin street, over-all length of tunnel to be approximately 85 feet from the New Hospital Teaching Clinic Building at 170 Pilgrim road to the Deaconess Hospital Building on Pilgrim road. The tunnel will have an inside dimension of 8 feet wide by 8 feet high with walls and floor 1 foot 2 inches thick, and roof 1 foot thick—the roof of the tunnel will be approximately 10 feet below the surface of the existing street, all substantially as shown on a plan marked "Diabetes Foundation, Hospital Teaching Clinic, 15 Joslin Street, Boston, Mass.," and filed in the office of this commission.

The Commissioner of Public Works is hereby authorized to issue permits for opening and occupying the street for placing and maintaining said tunnel, under the conditions set forth in the City Ordinances, and such other terms and conditions as the said commissioner may deem proper.

The work of locating said tunnel to be subject to the approval of said Public Works Commissioner, and the streets above referred to are to be kept open for both pedestrian and vehicular traffic during the laying and construction of said tunnel.

"NATIONAL BUSINESS WOMEN'S WEEK."

Upon September 26 the Mayor issued the following declaration:

To the Citizens of Boston.

By virtue of my office, I hereby declare the week of September 25 to October 1 as "National Business Women's Week." I urge the citizens of our city to cooperate with the Boston Business and Professional Women's Club in their plans to observe this week.

The theme for "National Business Women's Week" will be *Aim High.*

This slogan was chosen with the following points in mind:

First, to call attention to opportunities for growth and advancement for all American women in their chosen professions and businesses.

Second, to emphasize to the individual woman the need for top flight personal standards of achievement in her field, and to create incentive for better performance on the job in the task at hand.

In line with the theme of the "National Business Women's Week" let us all aim higher. The democratic world is in need of constructive contributions from all citizens.

Parks and Recreation Department.

Upon September 15 the Mayor approved a contract with F. C. Dolan & Sons, Inc., the only bidder, for repairing and painting park benches, Boston Common, at an estimated cost of $9,650.

PUBLIC WORKS DEPARTMENT.

Upon September 23 the Mayor approved a contract with Baker & Co., Inc., for bituminous concrete pavement in Bancroft street, Boynton street, Hall street, Jamaica street, Marmion street, Minton street, and Montebello road, Ward 11, and artificial stone sidewalks in Centre street and Heath street, Ward 10, and such additional locations, if any, in Wards 10 and 11 as may be designated by the Commissioner of Public Works, at an estimated cost of $31,802. The work to be done under this contract is to be completed December 31, 1955. The following bids were received September 15:

Baker & Co., Inc., $31,802; Charles Todesca, $31,986.75; S. J. Tomasello Corporation, $32,327.75.

—

Upon September 27 the Mayor approved a contract with Charles Todesca for artificial stone sidewalks in Brahms street, Knoll street, Pelton street, Roslindale avenue, South street, Yorktown street, Ward 20, and such additional locations, if any, in Ward 20, as may be designated by the Commissioner of Public Works, at an estimated cost of $19,812. The work to be done under this contract is to be completed December 31, 1955. The following bids were received September 22:

Charles Todesca, $19,812; John J. Amara & Sons, $21,629.25.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with commercial houses, contractors, etc., for furnishing labor, supplies, etc. Communications from heads of departments interested were as follows:

ADMINISTRATIVE SERVICES DEPARTMENT.
Purchasing Division.

BOSTON, September 15, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In accordance with the provisions of the letter approved by your Honor on January 24, 1955, authority is requested to award a contract, without public advertisement, to the following-named company for furnishing perishable foods to the various city departments from September 15, 1955, to March 31, 1956: Coral Sea Fisheries, Inc., 17 Fish Pier, Boston, Mass.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

—

BOSTON, September 16, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On June 29, 1955, bids for office and hospital furniture were publicly opened and read in this office. On August 24, 1955, your Honor approved a letter of award for items on that bid and because no acceptable bids were received on Items 8 and 13 permission was granted to purchase where available in the open market.

An acceptable bid has now been received from the manufacturer, the Art Metal Construction Company, 472 Atlantic avenue, Boston, Mass., for three (3) sections of document files for the Probate Court at $1,053 and four (4) sections of document files for the Criminal Court at $1,391.

Inasmuch as no acceptable bid was received when these items were publicly advertised and inasmuch as these items can now be purchased direct from the manufacturer, it is requested that permission be granted me to dispense with advertising and award a contract, without advertising, to the Art Metal Construction Company for seven (7) sections of document files, as per specifications, to be included in the contract.

Total amount of contract will be $2,444, net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

HEALTH DEPARTMENT.

BOSTON, September 22, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

Your approval is respectfully requested for the City of Boston to enter into a contract with the Animal Rescue League of Boston, for one year from October 1, 1955, under the following agreement:

The Animal Rescue League of Boston agrees, for the term of one year beginning October 1, 1955, to board for the necessary period of quarantine, all dogs which during said year may be quarantined at said Animal Rescue League by the City of Boston or by said corporation at the direction of the City of Boston; and the Animal Rescue League further agrees for the said term of one year from October 1, 1955, to perform the work necessary for complete rabies control in the City of Boston, such as the Health Department of said city may designate, for the sum of eight thousand dollars ($8,000).

The Animal Rescue League has been performing this work since 1941 to the entire satisfaction of the Boston Health Department and the contract for the year just ending was approved on an identical basis. Inasmuch as this organization is the only one in Boston equipped to perform this service, your authorization to dispense with advertising is also requested.

Yours respectfully,

JOHN H. CAULEY, M.D.,
Health Commissioner.

REAL PROPERTY DEPARTMENT.

BOSTON, September 16, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Real Property Board proposes to engage the services of William Nelson Jacobs Associates, Inc., 316 Stuart street, Boston, Mass., as architects-engineers, in connection with the proposed construction of an off-street parking facility at Hayward place, Harrison Avenue Extension and Norfolk place, Boston.

The estimated cost of the proposed facility is approximately $1,250,000, and the architects-engineers shall be paid a standard fee equal to the sum of 5.83 per cent of the full amount of the cost of said construction, which fee would include supervision.

In view of the nature of the professional services involved, no benefit would be gained by advertising for bids, and it is respectfully requested that permission be given to award the contract to William Nelson Jacobs Associates, Inc., without public advertising.

Because of the death of William Nelson Jacobs, the architectural-engineering work on the Hayward place, Harrison Avenue Extension, and Norfolk place off-street parking facility temporarily stopped.

Respectfully submitted,

HERMAN CARP,
Commissioner.

SUFFOLK COUNTY.
COURT HOUSE.

BOSTON, September 19, 1955.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MAYOR HYNES:

The Court House Commission requests your permission to award a contract, without advertising, to D. Antonellis, Inc., for relining one boiler with interlocking brick on a uni-suspended steel frame at a price of $2,520. This work was ordered by the boiler inspector and must be done before the heating season begins.

Due to the intense heat the lining, which has been in service for a number of years, has cracked and is in danger of falling off, leaving the steel frame which would be badly warped by the heat. Further operation of this boiler is prohibited until the relining has been done and, in addition, added operation of the unit in its present condition might well necessitate the installation of a new steel frame at a substantial expenditure of several thousand dollars.

The commission feels that nothing will be gained by advertising since D. Antonellis, Inc., is an expert in this specialized work, having done the boiler work for the School Department for many years. In addition, this firm relined one of our boilers last year and did so in a highly satisfactory manner.

Very truly yours,

COURT HOUSE COMMISSION,
by ARNO I. DREW,
Chairman.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for the extension of the time of completion of the contract, approved August 24, 1955, with Patrick Ross Company, for repairing boiler and incinerator masonry in various schools, from September 15, 1955, to December 31, 1955. This extension was requested because of delay in obtaining casting, etc., from foundry.

PARKS AND RECREATION DEPARTMENT.

J. W. Praught Company has been granted an extension of time until November 1, 1955, for the completion of the contract for furnishing and installing pumps at L Street Bathhouse, South Boston.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

That two catch basins and connections to existing pipe surface drain, to dismantle an existing catch basin, be constructed in Marion court (formerly Eutaw place), from Marion street 165 feet southwesterly, in the East Boston district, at an estimated cost of $900.

That ten catch basins and connections be constructed in Laurie avenue, between Gould street and Baker street, in the West Roxbury district, at an estimated cost of $6,000.

CHANGE IN CONTRACT.

P. J. Cantwell & Son have been ordered to make the following changes in the contract for the Henry Abrahams School:

Masonry: Omit taking down and rebuilding the exterior wall. Take down the brick facing and relay same in the manner and at the specified locations as directed by the superintendent. Rebuild the brick work at the eight corners, filling in all recessed panels at these corners with face brick and install new limestone capping at the top of all corners. Omit taking down the stone work on the front entrance, reset same in line with new work.

Carpentry: Substitute Redwood in lieu of Ponderosa pine. Install new staff beads and mullion strips on all windows of the entire first floors, also replace any defective wood in sash or casings throughout the building.

Roofing: Omit the removal of several sections of copper cap flashing on the exterior walls as directed.

Light Iron Work: Weld as directed a ⅜-inch steel plate on all lintels over windows on the entire first floor so as to support the new soldier course of brick.

Paving: Install a new section of asphalt paving about 12 feet wide and 45 feet long across the area leading to the front entrance steps. This would include the section of the paving at the left side of these steps at the ash lift.

Masonry omissions, $1,484, roofing omissions, $450, total deductions, $1,934.

Carpentry additions, $790, light iron additions, $420, masonry additions, $470, paving additions, $210, total additions, $1,890.

Net deductions, $44, and the amount of $44 will be deducted therefor, making the account as follows: contract price, $24,342; total deductions, $44; amount of contract, $24,298.

—

D. Antonellis, Inc., has been ordered to make the following changes in the contract for the Bigelow School:

Construct wooden cribbing and partitions to conceal piping and to support fixtures at the locations of new plumbing fixtures on all floors. The cribbing shall be constructed of 2-inch x 4-inch fir, studs, sole and cap, and secured to the masonry walls, and faced with ¼-inch thick plywood and ¾-inch thick pine cap. All woodwork shall be stained to match existing work at the building. For this additional work, not called for in contract, add the sum of $882, and the amount of $882 will be added therefor, making the account as follows: contract price, $29,170; total additions, $882; amount of contract, $30,052.

FIRE DEPARTMENT ORDERS.

General Order No. 52.

I. Assignment as Aide to Deputy Fire Chief.

The following assignment, which became effective at 8 A.M., Wednesday, September 21, 1955, is hereby announced:

Fire Fighter Joseph M. Quinn, Ladder 23, to fire fighter (aide to deputy fire chief).

II. Change in Assignment.

At his own request, the following change in assignment will become effective at 8 A.M., Wednesday, September 28, 1955:

Fire Fighter (Second Engineer) Edward T. Scanlan, Engine 31, to fire fighter.

III. Retirement.

The following retirement, in accordance with section 13, chapter 521, Acts of 1922, is hereby announced, to become effective at 8 A.M., Saturday, October 1, 1955:

Fire Fighter Charles N. Vogel, Ladder Company 20.

Fire Fighter Vogel was appointed to the department September 1, 1943, and he leaves the department with the best wishes of his associates.

IV. Transfers.

The following transfers, effective at 8 A.M., Wednesday, September 28, 1955, are hereby announced:

Fire Fighter Aide to Deputy Fire Chief Joseph M. Quinn, from Ladder 23 to Headquarters.

Fire Fighter Edward T. Scanlan, from Engine 31 to Ladder 23.

V. Discontinuance of General Alarm Corporation.

The service obligations of the G. A. C. will be discontinued at 8 A.M., Friday, September 30, 1955. At the same time and date, the American District Telegraph Company will take over the service obligations of the General Alarm Corporation.

Effective at 8 A.M., September 30, 1955, the transmission of the prefix signal 5-5-5 for G. A. C. will be discontinued and all G. A. C. boxes will be transmitted using the prefix signal 3-3-3 for A. D. T.

In order to eliminate duplicate fire alarm box numbers now being used by both A. D. T. and G. A. C., the boxes under the G. A. C. will be changed as follows:

(1) A prefix number 35 will be added to all 2 digit numbers from 12 through 99, thereby changing them to 4 digit numbers, 3512 through 3599.

(2) A prefix number 3 will be added to all 3 digit numbers from 112 through 475, thereby changing them to 4 digit numbers, 3112 through 3475.

Example: G. A. C. Box 91 now transmitted 5-5-5—91, after 8 A.M., September 30, this box will be transmitted 3-3-3—3591.

Example: G. A. C. Box 358 now transmitted 5-5-5—358, after 8 A.M., September 30, this box will be transmitted 3-3-3—3358.

Company commanders shall correct G. A. C. books as directed above.

By order of Fire Commissioner Francis X. Cotter.

John V. Stapleton,
Chief of Department.

SEWERAGE WORKS IN DORCHESTER.

The Public Improvement Commission has ordered that sewerage works be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings, or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings, or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within thirty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being the private way known as Violet street, bounded:

Southwesterly by the northeasterly line of Crossman street, forty-one and 00-100 feet; northwesterly by the northwesterly line of Violet street, two hundred seventy and 89-100 feet; northeasterly by the southwesterly line of French street, forty and 00-100 feet; southeasterly by the southeasterly line of Violet street, two hundred eighty and 04-100 feet; containing eleven thousand nineteen square feet, more or less.

The sewerage works to be constructed are as follows: 275 linear feet of 10-inch pipe sewer, including 254 linear feet of pipe surface drain and 1 catch basin, at an estimated cost of $3,600.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of Violet street will receive benefit or advantage beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on the plan hereinbefore referred to.

7.	Henry F. and Abbot L. Hatch	206 25
8.	Hyman Shapiro and Hyman Schatz	206 25
	Total	$1,650 00

Voted, That this commission determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes and the construction of sewerage works in Violet street, Dorchester district, under the order of this commission of September 21, 1955, and awards no damages therefor.

Owners unknown (Violet street), 11,019 square feet, nothing.

CHANGES IN SOCIAL SECURITY LAW.

Changes in the Social Security Act now make Old Age and Survivors Insurance benefits available to all municipal employees, except firemen and policemen. The procedure varies, however, for those who are eligible for membership in existing retirement systems and those who are not.

The most important point to remember is that the municipality must take the initiative to secure OASI coverage for its employees and must act through the state government. Proper enabling legislation and contractual clauses in state documents are "musts." They secure coverage as part of the state's contract with the Bureau of Old Age and Survivors Insurance, U. S. Department of Health, Education and Welfare.

CONSTRUCTION OF EUTAW PLACE.

The Public Improvement Commission has ordered that a public improvement be made, consisting of the laying out and construction of Eutaw place, East Boston, as a public highway, from Marion street approximately 165 feet southwesterly, with the name of Marion court or some other distinctive name, bounded and described as follows:

A highway named Marion court is hereby laid out, from Marion street approximately 165 feet southwesterly, and ordered constructed.

Said highway and the land, exclusive of trees, shrubs, or structures standing upon or affixed thereto in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northeasterly by the southwesterly line of Marion street, twenty-six and 00-100 feet; northwesterly by the northwesterly line of Marion court, as hereby laid out, one hundred sixty-four and 50-100 feet; southwesterly by the southwesterly line of Marion court, as hereby laid out, twenty-six and 00-100 feet; southeasterly by the southeasterly line of Marion court, as hereby laid out, one hundred sixty-four and 54-100 feet.

Trees, shrubs, or structures standing upon or affixed to the aforedescribed land shall be removed therefrom within thirty days following a notice of the city's intention to enter upon said land for the purposes of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land, situated on both sides of said Marion court, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on a plan hereinbefore referred to, and on file in the office of this department.

PROCEEDINGS OF CITY COUNCIL.

Monday, September 19, 1955.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President HURLEY in the chair. Absent, Councillor Piemonte.

The Reverend Lawrence J. Cronin of St. John the Evangelist Roman Catholic Church, North Cambridge, was escorted to the rostrum.

INVOCATION BY REV. LAWRENCE J. CRONIN.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Prayer for our civil authorities.

We pray Thee, O God of might, wisdom, and justice, through Whom authority is rightly administered, laws are enacted, and judgment decreed, assist, with the Holy Spirit of counsel and fortitude, this Council.

We pray for his Honor, the Mayor of this city, and for the members of this assembly, and other officers who are appointed to guard our political welfare, that they may be enabled, by Thy powerful protection, to discharge the duties of their respective stations with honesty and ability.

We recommend likewise to Thy unbounded mercy all our brethren and fellow citizens throughout the United States that they may be blessed in the knowledge and sanctified in the observance of Thy most holy law; that they may be preserved in union and in that peace which the world cannot give; and, after enjoying the blessings of this life, be admitted to those which are eternal.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

APPOINTMENT OF WILFRED J. DOYLE.

The following was received:

City of Boston,
Office of the Mayor, September 19, 1955.

To the City Council.

Gentlemen:

Subject to confirmation by your Honorable Body I hereby reappoint Wilfred J. Doyle of 81 Wellington Hill street, Dorchester, to be a member of the Boston Retirement Board for the term ending September 30, 1958.

Respectfully,
J. B. HYNES, Mayor.

Referred to the Committee on Confirmations.

MAINTENANCE OF HISTORIC STATUES AND SITES.

The following was received:

City of Boston,
Office of the Mayor, September 19, 1955.

To the City Council.

Gentlemen:

I transmit herewith communication from the Chairman of the Boston Art Commission concerning your order of July 25, 1955, relative to bringing those historic statues and sites within its jurisdiction to a condition that will reflect credit on the city and properly serve their purpose as landmarks of American History.

Respectfully,
J. B. HYNES, Mayor.

—

City of Boston,
Art Commission, September 14, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

Reference is made to the following order of the City Council:

"Ordered, That the Boston Art Commission take immediate steps to bring those historic statues and sites within its jurisdiction to a condition that will reflect credit on the city and properly serve their purpose as landmarks of American History."

The Art Commission will attempt, as it has in the past, to comply with this order in so far as it can do so within the limitations placed upon it by its appropriation of $1,500.

In many years a very considerable portion of the appropriation has been expended in repairing various types of damage caused by vandalism.

Respectfully,
HOWARD T. CLINCH, Chairman.

Placed on file.

STUDY OF TRAFFIC CONDITIONS AT CONGREVE, WALWORTH, AND SOUTH STREETS.

The following was received:

City of Boston,
Office of the Mayor, September 19, 1955.

To the City Council.

Gentlemen:

I transmit herewith communication from the Traffic Commissioner relative to your order of August 1, 1955, concerning the making of a survey of the traffic conditions at the intersection of Congreve street, Walworth street, and South street in Roslindale.

Respectfully,
J. B. HYNES, Mayor.

—

Boston Traffic Commission,
September 12, 1955.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

With reference to City Council order of August 1, 1955, requesting the Traffic Commission to make a study of conditions at Congreve street, South street, and Walworth street, West Roxbury, I wish to submit the following report:

A traffic count at this intersection made on August 18 and August 19, 1955, shows very little traffic using Congreve street and a negligible amount of cross traffic from Walworth street to Congreve street. This volume of cross movement is so small that it would not constitute a warrant for the installation of "Stop-and-Go" traffic signals.

There is a signal very close to this intersection, namely, at the corner of Robert street and South street.

Our accident records show two motor vehicle accidents involving personal injuries occurring at this intersection during the past four years. There are existing warning signs in the approaches to the intersection. In our opinion conditions at this location do not indicate any additional traffic control.

Sincerely yours,
WM. ARTHUR REILLY, Commissioner.

PROCEEDINGS OF SCHOOL COMMITTEE.

Aug. 8, 1955

A special meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 6:35 P. M., the Chairman presiding.

Present: Mr. Carr, Miss Fitzgerald and Mr. Lee.

APPROVAL OF MINUTES

The reading of the minutes of the meetings of June 21 and June 27, 1955, was omitted, the Committee approving them as printed.

VOLUNTARY SERVICE OF SCHOOL NURSES

Chairman: I think this might be an item of interest to the press and to the other members of the Committee. Dr. Gillis has just brought a report to me in which he states that as of a week ago Miss Marion C. Sullivan, who is the Supervising Nurse in the School Department, was asked as a public service to canvass our school nurse group in the city to use them as a relief force for nurses in the hospitals so that nurses in the hospitals will be released for work on polio cases.

From the City of Boston school nursing staff, on a completely voluntary basis, we obtained thirteen nurses who are willing to go into the hospitals and do other types of nursing in order to release nurses for work on the polio cases.

Superintendent: In other words, Madam Chairman, our nurses are not handling polio cases because Dr. Spellman felt that would be unwise.

Chairman: They are releasing other specially trained nurses for polio cases.

Superintendent: They are releasing other nurses so that they can handle polio cases, and they are doing it voluntarily.

Mr. Carr: Thirteen of them?

Superintendent: Yes.

RETIREMENT OF MR. MUSCO FROM SCHOOL COMMITTEE SERVICE

In accordance with request of Mr. Musco, the following statement is printed in full:

It never occurred to me that my decision in not filing signatures for nomination papers to the Boston School Committee would create such a furor among so many people who wished to know of my intentions of re-election.

The present term with my colleagues has been a very revealing, interesting, exciting, educational, and progressive one. It was a challenge to remold and foster worthwhile policies and programs for the adults and children of Boston. The School Department's efforts and list of accomplishments have been recognized throughout the city, state, and nation by school people and officials everywhere. Our public relations were good and will be getting better each year!

I am confident that my re-election could be assured and that the honor of the chairmanship during the next term could be mine. It was a pleasure to serve the citizens in this all-important post of the Boston School Department.

There have been many outstanding public-spirited citizens on our School Committees, and there always will be others to follow.

For me, at this point, the time has come when I must decide upon a momentous question; that is, to continue on in this work or to sacrifice public service ambitions for the best interests of my loved ones at home.

Today, my family's health and welfare are my prime concern. Because of Mrs. Musco's recent hospitalization and operation, my political activities are to be curtailed.

It is my reluctant conclusion that I must temporarily interrupt my public service on the School Committee for this next term to relieve the pressure at home.

I wish to return again in 1957, the Lord willing.

My interests shall still be as active in public school affairs with the Massachusetts Council for Public Schools in Boston and I hope with the members of the School Committee, the school administrators, and the personnel under Supt. Dennis C. Haley.

Naturally, my everyday functions in the private school field and Business Administration will bring together the best methods and most modern programs of education and competitive business for "Better Schools" in Boston and Massachusetts.

I want to express my sincere appreciation to the citizens of Boston and my legions of friends who have assisted me in my school programs and problems, and to reassure them of my future interests in the young citizens of tomorrow.

The present School Committee proceedings of 1954 and 1955 have been argumentive, but orderly, and for the most part harmonious and constructive.

We have advanced progressive ideas and suggestions, but we were deliberate, cautious and firm in our convictions; we have had outstanding results as a legislative body in school building programs and general school purposes; we have had good public relations with our constituents, assenting and dissenting when it was necessary to do so; we have

tried to be fair, reasonable, impartial, and just in the many school petitions; by our opinions and research we have directed the school administration into the hands of professional educators to execute school policy and law; we have taken good advantage of the many services offered by the fine agencies, press, radio, organizations and individuals; we solicited and were advised and counselled in pertinent information to carry out our sworn duties as the custodians of the city school funds. If we did commit any errors, they were mistakes in honest judgment on misinformation.

We can proudly point to a long list of good deeds and progress during our school committee term. Our interests were for the sole concern of the school children, its personnel and the system.

We always strived for the very best in our efforts for the Boston Public Schools.

(Signed) Louis F. Musco
Member

In connection with the foregoing statement and in accordance with request of Mr. Musco, the following is printed in full:

FUTURE RECOMMENDATIONS BY LOUIS F. MUSCO

I. OPERATION AND MAINTENANCE OF SCHOOL BUILDINGS

Superintendent of School Buildings should be administratively subordinate to the Superintendent of Schools by amendment of existing legislation to transfer duties to School Committee.

Analysis of lighting, sanitary, plumbing and painting conditions in school buildings to correct poor existing situations.

Small permanent maintenance crews should do minor repairs and the majority of small alterations: by painters, masons, carpenters, electricians, plumbers, roofers, furniture finishers, glazers, etc.

Designing of major alterations should be sub-let to private school engineers and architects.

To organize a formal training program to give custodians the needed skills of maintenance work.

Minor repairs and maintenance should definitely be part of custodians' work on inside and outside of school buildings.

The Jacobs' Survey will determine manpower requirements; simplified salary and classification plan; recommendations for improvements in this department.

No excessive "bumping" of junior custodians from school to school unnecessarily. Week-end coverage for protection of property.

Repair requisitions to be signed as "completed for payment to contractor" by Building Inspector, Administrator, and custodian.

Hold parents legally responsible for damages caused to school property by the acts of their children.

—

II. PURCHASE AND MANAGEMENT OF SUPPLIES

Office of Business Manager to strive for quality and value; also thinking of time utilization and specifications for all divisions and departments. A year round job for a Purchasing Agent and Manager of Supplies.

Record control of physical inventories, materials, equipment and fixtures. Use punch card installation for efficiency and accuracy throughout the system.

All deliveries effected to responsible persons in school buildings and to all divisions designated for a check on bill of lading.

Discard to needed agencies all out-moded educational supplies, textbooks, and materials to prepare for up-to-date adaptability upon advice of teachers in the classroom.

—

III. FINANCIAL ADMINISTRATION

Preparation of Budget in September through December period by standard classification and procedure through objective and impartial decisions.

Fiscal year to run from January 1st through December 31st of same year.

To simplify and mechanize school system of accounting for tighter control of budget.

Detailed report of financial operations most recent past, present and future expenditures and appropriations.

—

IV. ADMINISTRATIVE ORGANIZATION AND MANAGEMENT

Relocate Administrative Offices to modern buildings for a more efficient and better coordinated organization of functions and staff.

Prepare for the additional influx of more students during the next ten years in our public schools.

Promote and seek more citizen and group participation to stimulate interest in their children's future education by our expanding democracy.

—

V. PLANNING, CONSTRUCTION AND UTILIZATION OF SCHOOL BUILDINGS

Board of Commissioners of School Buildings be dissolved and its statutory powers transferred to the School Committee for direct control of school buildings appropriations.

Regular annual appropriations needed for replacements of outmoded buildings.

Two new high schools to be constructed:

1. Boston Technical High School.
2. Girls Latin School.

A Modern Junior College of Business to replace Boston Clerical School and High School of Commerce programs.

Modern education, sanitation, and safety standards be applied to all future new construction and alterations of existing buildings.

—

VI. FOOD SERVICE IN THE SCHOOLS

Director of School Lunches to prepare and serve food in the Robert Gould Shaw and Washington Irving Junior High Schools.

Nutrition program for Type A Federally subsidized lunches in the Lewis and Donald McKay Junior High Schools.

More adequate equipment for dishwashing, preservation, storage, and food preparation.

Citizens Advisory Committee to guide the food service program development in all schools.

—

VII. ELEMENTARY EDUCATION

Comprehensive program of testing children should also emphasize the deficiencies and delinquencies as well as aptitude, interests, and achievements to be used as findings for guidance.

More discipline and authoritative action on the part of the majority of classroom teachers and administrators with the backing of the School Committee.

Use of more aptitude tests so boys and girls can bend their programs toward their own natural abilities and talents.

Expansion of conversational modern languages in the lower grades.

Increased development in vocal and instrumental music.

—

VIII. SPECIAL EDUCATION

Establish a remedial reading class in every elementary school district as provided in the 1955 budget.

Juvenile Adjustment Clinic to discover and correct the personal problems among children and youth.

Strict enforcement by principals and headmasters for offenders who disregard law, authority and respect.

Closer liaison with the Court and Agencies.

Smaller classes for maladjusted pupils and slow learners in school.

—

IX. THE EDUCATION OF YOUTH IN BOSTON

Every child is salvagable and must finish school to diminish "withdrawals" and "drop outs" caused by dissatisfaction, etc.

Civic education to develop respect and authority for person, law, property, and for God.

Reorganization of school personnel for better utilization of services, responsibilities, ability, time and efforts.

Educational Tours and on the spot field trips to Boston's Historic, Economical and Cultural sites.

Educational TV in the classroom and at home to supplement outside educational materials with careful censorship.

No youngster is expendable for each has its place in life and its own special talents are to be cultivated into a worthy objective and a job with a purpose.

—

X. JUNIOR HIGH SCHOOLS

To better prepare youth of Grade IX to qualify for existing tests to enter Grade X work of city high schools.

Core subjects should be the basis of this division of training without too many "enrichments."

—

XI. DAY HIGH AND LATIN SCHOOLS

Retirement of teachers by their disability in service should be liberalized.

Younger teachers to be encouraged into joining our ranks.

Development of qualified teachers to handle classes on this level of training. Lack of inducements to teach math, science, chemistry, physics, languages, etc., the more advanced and harder subjects are avoided by teacher applicants.

—

XII. VOCATIONAL EDUCATION

More concentrated Guidance program to better counsel and advise intermediate students with parents' understanding and cooperation as a necessity.

Career and Vocational Days are worthwhile programs for the students' information, faculty experiences, and outside agencies.

All teachers should be conducted through experiences in business, commercial, professions, banking, arts, sciences, etc., as a compulsory "Teachers Day" holiday.

Opportunity School offering young people much needed short unit courses of instruction with skills and objectives.

Citizen Advisory Committee to re-appraise Boston Trade School into an outstanding institution.

—

XIII. HEALTH EDUCATION, PHYSICAL EDUCATION AND RECREATION

Children to be separately and carefully examined by a physician duly qualified; and results recorded on Cumulative Record Cards for future consultation.

Health Education program under expert and competent specialists.

Safety Supervisor is a must in this mechanical and defense era.

Recommend a lunch hour of one clock hour (60 minutes).

Recreation in day and evening divisions for young and old while in and out of school.

—

XIV. GUIDANCE

More expanded program in 1956 to acquaint teachers with scientific, industrial, commercial, etc. progress and opportunities.

Extension of our Programs of Educational Guidance and Vocational Guidance.

Attendance officers to be given more direct responsibilities in dealing with problem children by increasing home visits and reports to the students' teachers.

Encourage more students to enter higher learning, technical skills, trades, professions, teaching, and vocational training by aid, scholarships, etc.

Create more part-time jobs for youngsters.

To better educate the public in skills and academics so that in order to "Earn more they must Learn more."

To carry this attitude to the school children, too.

Closer coordination with the School Committee members, teachers, administration officers, and the Boston Home and School Association's Executive Committee, districts and schools.

A continual good public relations program for advancement of the school system and promote greater prestige.

—

XV. PERSONNEL ADMINISTRATION

The Personnel Office should include on its staff a business executive or non-academic person.

Beginning teachers should receive better remuneration in 1956 to allow them a good start in an important profession by fuller orientation.

The restoration of human dignity and public respect as well as proper tools to do the job are a major part of the good teacher's needs.

Basic schedule of unified policy for regular personnel in the light of fiscal limitations for uplift of morale and to reactivate the spirit of competition.

Employ fewer substitutes so that higher salaries can be used to achieve a substantial increase and observable upgrading in teaching work. Salary adjustments and rectifications are an ever-present personnel problem.

Salaries for non-academic personnel under fewer titles with higher rates of pay in terms of a more comprehensive plan.

Recognized personnel policy to assure all of advancement, opportunity, promotion, and job security by development of their latent talents.

Chairman: I would like to say as Chairman—and I know the other members would agree—that I feel that Mr. Musco has made a very fine contribution to the public schools of Boston and that we sincerely regret his decision not to be a candidate this fall for re-election.

Mr. Lee: Madam Chairman, could it also be stated publicly that the Committee voted to ask the Superintendent to study Mr. Musco's recommendations, particularly with reference to buildings—which are very fine—and with reference to those recommendations which go beyond what the schools are now doing.

Superintendent: I will be very glad to.

Chairman: I think that will be very good, Mr. Lee.

SEWERAGE WORKS.

Proposals for Sewerage Works in Guest Street and Outlet in Private Land, Brighton.

The Commissioner of Public Works of the City of Boston, Room 506 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Guest street, etc. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 506 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Guest Street, etc.," and left at Room 506 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, OCTOBER 13, 1955, with a certified check for TWELVE HUNDRED (1,200) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 506, City Hall Annex. *There will be a charge of two dollars ($2), NOT REFUNDABLE, for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

IMPORTANCE OF FOOD-BORNE DISEASE.

The relationship of food to disease continues to be an important public health program. The United States Public Health Service reported 327 outbreaks of food-borne disease in the United States in 1948, which resulted in 9,962 cases and 17 deaths. As only one out of ten cases of food-borne disease is ever reported, the resulting situation is far more important than available statistics would indicate.

The United States Public Health Service reports that there occurred in the United States in 1948, 30 cases and 6 deaths resulting from botulism; 74 cases and 1 death resulting from chemical food poisoning; 120 cases of dysentery; 8,832 cases and 7 deaths resulting from food infection and gastroenteritis; 270 cases of scarlet fever.

CONSULATES IN ARREARS ON TAXES.

New York City reports that 12 foreign countries are in arrears a total of $416,985 in real estate taxes on 27 properties, most of them bought within the last 15 years as consulates and headquarters for United Nations delegations.

Nearly all of the defaulting governments claim the right to city realty tax exemption under treaties and international doctrines, but the city has refused to waive its claims. Total assessed valuation is $5,321,000, with $720,000 exempt from tax. Finland, the Netherlands, and Israel have kept their real estate accounts paid up to date.

POLICE PENSIONS AND BENEFITS.

On December 1, 1952, there were 709 persons on the pension roll. During the year 25 died, 68 were added, leaving 752 on roll to date, 676 pensioners and 76 annuitants. Payments on account of pensions and annuities during the past year amounted to $1,377,183.62, and it is estimated that $1,717,827.71 will be required for pensions and annuities in 1954.

In a move to combat juvenile crime, Mayor Wagner of New York City asked Corporation Counsel A. P. Burke to seek the aid of the courts in ridding the bookstores and newsstands of comic books which teach disrespect for law and order and incite crime. The state supreme court, it was indicated, will be asked to grant injunctions against publication, distribution, or sale of several magazines in this category. Police Commissioner F. H. Adams laid the blame for recent "terrible juvenile crimes" on the influence of this type of magazine. Many, he said, are published secretly, and sold "under the counter."

LIBRARY DEPARTMENT.

INVITATION FOR PROPOSALS FOR ERECTION AND COMPLETION OF A BRANCH LIBRARY BUILDING AT EAST BROADWAY, SOUTH BOSTON, MASS.

The Trustees of the Public Library of the City of Boston, hereinafter referred to as the Awarding Authority, invite sealed proposals for the erection and completion of a branch library building at East Broadway, South Boston, Mass.

Proposals will be received until 12 o'clock noon, Tuesday, October 25, 1955, at the office of the Awarding Authority, at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and enclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of eleven thousand dollars ($11,000), shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Plans and specifications may be obtained on and after 12 o'clock noon, Tuesday, October 4, 1955, at the Business Office, Boston Public Library, Copley square, Boston, Mass. All plans and specifications must be returned in good condition to said office at the time of filing bids. A deposit of fifty dollars ($50) in cash will be required for each set of plans and specifications taken out for estimating, said deposit to be refunded on the return of the plans and specifications in good condition within thirty days after the opening of proposals.

Subbidders bidding on the work of subcontractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All subbidders' proposals filed with the Awarding Authority shall be submitted in sealed envelopes, plainly marked with the title of the work; division of the work for which bid is submitted; subcontractor's name; and subcontractor's business address. All such bids shall be in the possession of the Awarding Authority and delivered or mailed to the general contractor no later than 12 o'clock noon on Thursday, October 20, 1955.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the subbid item of work as listed below shall be submitted by each subbidder with the copy of his proposal filed with the Awarding Authority:

Membrane Flashing, Dampproofing and Caulking	$100
Roofing and Sheet Metal	$200
Structural Steel	$750
Miscellaneous Metal	$150
Metal Windows and Screens	$100
Metal Furring, Lathing and Plastering	$150
Interior Stone	$100
Ceramic Tile	$100
Resilient Floor and Counter Covering	$200
Paint, Painting and Finishing	$150
Glass and Glazing	$150
Plumbing	$500
Heating, Ventilating and Air Conditioning	$1,600
Electrical Work	$900
Radiant Heated Acoustical Ceiling	$850

The bid deposit shall be in a separate envelope, plainly marked "Bid Deposit."

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Awarding Authority and each in the sum of 100 per cent of the contract price, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any or all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all subbids on any item or items in accordance with the provisions of sections 44A to 44E, inclusive, of chapter 149 of the General Laws, as amended.

UP-TO-DATE BRANCH LIBRARY TO BE ERECTED IN EAST BROADWAY SECTION, SOUTH BOSTON, AT COST OF $200,000—BIDS BEING CALLED FOR BY TRUSTEES, TO BE OPENED OCTOBER 25—TO HOLD 15,000 LIVE VOLUMES, PLUS 3,000 STORED OR REFERENCE BOOKS—ON SITE OF OLD LINCOLN SCHOOL.

When completed, the East Broadway section of South Boston will have one of the most up-to-date branch libraries in the entire Boston system. This is some of the information furnished by the architects, Shepley, Bulfinch, Richardson, and Abbott, 1 Court street. Bids for the erection of the library have been called for and will be received until Tuesday noon, October 25, by the Awarding Authority, the Trustees of the Library.

The structure when completed will cost in the vicinity of $20,000 and be on a plot of land 140 feet wide and 175 feet deep. It is being erected on the site of the old Lincoln School, and will be a one-story affair with everything on the first floor and no basement. Even the engine room and heating facility will be aboveground.

The structure is built to house about 15,000 live volumes and about 3,000 stored or reference books. Its exterior will be of red brick, with a marble band separating the brick from the roof, which will be of tile and gravel on steel decking. This will be supported by a main span supported by a long span of steel bar.

The building faces due south with the front all glass, recessed under the roof into reading rooms. The north outlook is also all glass and looks out onto a garden area. There will be an all-purpose room capable of seating comfortably about 150 persons with overflow possible from the reading rooms.

The accommodations are for fifty children, forty-five young adults, or forty grown-ups. Arrangements have been provided for a parking space for the staff at the rear of the building. This space will not be available to the public. There will be at all times a staff of from four to ten persons, according to the time of day when the library will be most used.

Another feature of this library will be provisions or facilities for listening to music by means of earphones. With each bid submitted there is a stipulation that surety bond, in the form of a treasurer's or cashier's check, in the amount of $11,000 shall be submitted. Plans and specifications are now ready at the business office of the Library in Copley square. To secure these a deposit of $50 will be required, which will be refunded on return of the plans.

FIRE DEPARTMENT ORDERS.

General Order No. 53.

Fire Prevention Week.

Fire Prevention Week will be observed in the City of Boston from October 9 to October 15, 1955, inclusive. Mayor John B. Hynes has issued the following statement in connection with the observance of this week:

"The individual citizen will be an important auxiliary to the fire fighters if he practices fire prevention in his home to replace the forgetfulness and carelessness that has made the home a continual source of fire. Correction of his habits in relation to the disposal of cigarettes and matches, the proper care and use of his stove and furnace, and, above all, attention to the electrical devices to make sure his cords, plugs, switches, and fuses are in good operating condition—by practicing these principles the individual citizen will prevent fires, save lives and property, both his own and that of his neighbor.

"Fire Prevention Week is to reawaken the citizen to his responsibility in relation to these principles."

An organized campaign to emphasize the importance of fire prevention is being undertaken by the Boston Fire Department, by means of a series of activities concentrated into the Fire Prevention Week period.

Fire stations shall be open to the public between the hours of 12 noon and 8 P.M. for inspection of the premises and for the conveyance of information concerning the Fire Department functions and fire prevention matters. When citizens come to a station during Fire Prevention Week, the man on house patrol shall summon the commanding officer, who should be available and ready to either show the visitors around the quarters and to answer questions regarding the department, or to have a suitable person assigned to this duty.

Children under twelve years of age should not be allowed in the fire stations unless accompanied by adults.

Canvas signs giving notice that Fire Prevention Week is in progress should be displayed from fire stations. Most stations have these signs in their possession from exhibitions of previous years, and it is the responsibility of company officers to see to it that these signs are kept in good condition from year to year. Signs should be displayed from Sunday to Saturday.

District fire chiefs are required to take an active interest in the fire prevention program in the following manner:

(a.) By arranging special visits to plants and large industrial premises in their districts during the week and holding a special fire drill during Fire Prevention Week, particularly where there are now fire brigades already existing. Notices of the date of the fire drill held and the rating of the drill as either "fair," "poor," or "good" should be forwarded to the Fire Prevention Division so that a summary may be made of the number and location of industrial fire drills conducted in the City of Boston during Fire Prevention Week on each day of the week.
